AREA PERFORMANCE REPORT – FQ1 2023/24

1.0 BACKGROUND

- 1.1 This paper presents the Area Performance Report for Financial Quarter 1 2023/24 (April to June 2023) and illustrates the agreed performance measures.
- 1.2 The features of the Performance Report are as follows:-
- Indicators are grouped by Corporate Outcome.
 - The data table for each indicator is colour coded to identify the level of reporting.
 - Area level measures are blue
 - Council level measures are grey
 - COI measures are white
 - Each indicator details the
 - Target, Actual and Performance status (Green / Red / No Target) for the current and three previous financial quarters.
 - Commentary for the current financial quarter only.
 - Narrative explaining the performance trend e.g. This indicator is above Target and performance has improved since the last reporting period.
 - Where appropriate a Performance Trend Line has been added.
 - The name of the Responsible Officer.
 - Where possible performance is presented at both Area and Council level.
- 1.3 The commentary for each indicator helps ‘Tell Our Story’ and enables Elected Members to put the performance data into perspective and understand if an issue is local in nature or should be escalated up to a Strategic Committee.
- 1.4 To improve the response to performance queries, it is requested that either the Responsible Named Officer or Sonya Thomas are contacted once the Quarterly Performance Report is received with any queries. This should enable some queries being resolved or clarified prior to the Area Committee meeting, and therefore being carried forward as Actions at a subsequent meeting.
- 1.5 As part of our improvements to performance reporting and making best use of the digital technology available to us, officers have developed new, online scorecards for members to view performance data. These were well received by members at a recent seminar and will be made available, as requested, for the December Area Committees, with training provided in advance.

2.0 RECOMMENDATIONS

2.1 It is recommended that the Area Committee –

- a) Notes and considers the performance and supporting commentary as presented.
- b) Upon receipt of the Quarterly Performance Report the Area Committee contact either the Responsible Named Officer or Sonya Thomas with any queries.
- c) Note that work is ongoing and to respond to Sonya Thomas with requests or comments regarding the layout and format of the Performance Report.

FQ1 2023/24 Overall Performance Summary

The information presented is a summary of the agreed measures.

Unless stated otherwise, performance is presented at both Area and Council-wide levels.

The measures show the performance against target for the current and previous three reporting periods with an explanation of performance trend.

The data table for each indicator is colour coded to identify the level of reporting:

- Area level measures are blue.
- Council level measures are grey.
- Corporate Outcome Indicators (COIs) are white.

Where appropriate a Trend Line has been added to illustrate movement in 'Actual' over the reporting period.

Corporate Outcome No.1 – People live active, healthier and independent lives

COI – Maximise distribution of Scottish Welfare Fund

This indicator is a Corporate Outcome Indicator that is reported quarterly. The performance presented is Council-wide only.

Reporting Period	Target	Actual	Status
FQ1 2022/23	95.3%	87.5%	Red
FQ2 2022/23	95.3%	115.1%	Green
FQ3 2022/23	95.3%	129.2%	Green
FQ4 2022/23	95.3%	144.0%	Green
FQ1 2023/24	95.3%	112.9%	Green

Performance in FQ1 has exceeded the target and actual has decreased since the last reporting period.

FQ1 Comment

From 1 April 2023 to 30 June 2023 our Scottish Welfare Fund (SWF) spend is £129,456 which is £14,886 higher than our profiled quarterly amount. The total allocation for SWF this financial year is £458,284. Applications have remained consistent during this first quarter and we are carefully monitoring application numbers to decide whether priority levels require to be changed.

Responsible person: Fergus Walker

Corporate Outcome No.1 – People live active, healthier and independent lives

FQ4 2022/23	£85,667	£42,381	Red
FQ1 2023/24	£20,912	£13,741	Red

This indicator for FQ1 shows the cumulative amount of income collected is lower than the cumulative target. There is no performance trend as this data is cumulative.

FQ1 Comment

An exercise regarding the number of vehicles coming into Argyll and Bute was carried out, and there was a drop in vehicles coming into the area over the COVID years and we are now seeing a return to the average, with year 2022/23 less than a 10% drop from the average non-COVID years. Ascertaining the reason for a shortfall in income can be difficult however it can be affected by such things as weather, events and community.

Responsible person: Hugh O’Neill

FQ1 2023/24	No target	13	No target	

This indicator for FQ1 shows the number of dog fouling complaints has decreased since the last reporting period.

FQ1 Comment

The number of dog fouling complaints has dropped this quarter, with Bute only having 5 and Cowal 8. Hopefully the number of dog fouling complaints will continue to reduce as the warden service carry out their patrols.

Responsible person: Tom Murphy

Dog fouling – total number of complaints – Argyll and Bute

Reporting Period	Target	Actual	Status	Trend of 'Actual' over the period
FQ1 2022/23	No target	61	No target	
FQ2 2022/23	No target	45	No target

FQ1 2023/24	No target	60	No target	

This indicator for FQ1 shows the number of dog fouling complaints has decreased since the last reporting period.

FQ1 Comment

The total number of dog fouling complaints is down this quarter to 60, B&C 13, H&L 11, MAKI 32 and OLI 4. The Warden Service will continue to patrol and monitor this in an effort to reduce the numbers further.

Responsible person: Tom Murphy

Corporate Outcome No.3 – Children and young people have the best possible start

COI – Increase the percentage of our care experienced young people that have the recommended additional tracking and monitoring plans in place

This indicator is a Corporate Outcome Indicator that is reported quarterly. The performance presented is Council-wide only.

Reporting Period	Target	Actual	Status
FQ1 2022/23	100%	100%	Green
FQ2 2022/23	100%	100%	Green
FQ3 2022/23	100%	100%	Green
FQ4 2022/23	100%	100%	Green
FQ1 2023/24	100%	100%	Green

This indicator for FQ1 has met the target with no change in performance since the last reporting period.

FQ1 Comment

There is individual tracking and monitoring in place on SEEMIS in all schools for care experienced children and young people. In addition to this, the Virtual Head Teacher for Care Experienced Children and Young People (CECYP) undertakes additional analysis of the data held. The way in which attendance data is monitored has been refined and there is greater scrutiny around absence and targeted interventions to support school attendance. An updated system to track attainment data specifically for CECYP is currently being developed and will ensure breadth and depth of data is collected for each learner throughout their educational journey. This long term intended impact is to identify and address themes, ensuring early and targeted interventions across a range of indicators. Data collated continues to inform how our Care Experienced Education Team of Health and Wellbeing Liaison Officers and Lead Additional Support Needs Assistants are deployed to offer support for the CECYP and, as appropriate, their family.

Responsible person: Louise Chisholm

Corporate Outcome No.3 – Children and young people have the best possible start

COI – Provide quality meals with cost margins to all pupils

This indicator is a Corporate Outcome Indicator that is reported quarterly. The performance presented is Council-wide only.

Reporting Period	Target	Actual	Status
FQ1 2022/23	+/-5.00%	3.77%	Green
FQ2 2022/23	+/-5.00%	0.98%	Green
FQ3 2022/23	+/-5.00%	6.09%	Red
FQ4 2022/23	+/-5.00%	-2.56%	Green
FQ1 2023/24	+/-5.00%	5.00%	Green

This indicator for FQ1 is within the +/-5.00% target variance and performance has improved since the last reporting period.

FQ1 Comment

The total percentage variance for all schools is 5.00%. This is just within the target range. A new cashless catering system is currently being implemented in schools and will allow for more efficient reporting of figures. The system was rolled out in FQ1 and may have resulted in some reporting issues. We will continue to monitor any schools that had a food cost percentage out with the 5% variance target.

B&C 10.07%

H&L 1.07%

MAKI 2.61%

OLI 7.16%

Responsible person: Jayne Jones

This indicator for FQ1 is below target and performance has decreased significantly since the last reporting period.

FQ1 Comment

Performance across Development Management continues to be impacted by an extended period of operating with key staff vacancies and a backlog of casework from the pandemic. The introduction of National Planning Framework 4 in February 2023 by The Scottish Government and the subsequent progression of the Council's proposed Local Development Plan 2 in June 2023 has further impacted on productivity and required a significant volume of casework to be re-assessed against the emerging policy background. During this reporting period available resource has been prioritised towards the resolution of statutory casework - the effect of this will be a detrimental impact on non-statutory casework including an extended time period to respond to pre-application enquiries.

Performance across Development Management continues to be impacted by an extended period of operating with key staff vacancies and a backlog of casework from the pandemic. The introduction of National Planning Framework 4 in February 2023 by The Scottish Government and the subsequent progression of the Council's proposed Local Development Plan 2 in June 2023 has further impacted on productivity and required a significant volume of casework to be re-assessed against the emerging policy background. During this reporting period, available resource has been prioritised towards the resolution of statutory casework - in particular the progression and determination of older cases. The determination of a higher-than-normal volume of legacy cases has a significant impact on "average time taken" performance measures, as a relatively small number of cases can readily skew the outcome. This is evidenced in that the performance time to determine "All Local Applications" would be 25.7 weeks, however five of those weeks is attributable to six legacy applications alone. Of the Local Applications determined in FQ1, 90% of applications determined were less than one year old and were determined in an average time period of 18 weeks. It is further commented that 60% of those applications were less than 6 months old at the time of determining and were determined in an average time period of 11.6 weeks. Of the 5 contracts receiving local bids, 2 of which were Framework awards with multiple successful suppliers, 4 local suppliers were successful with an estimated contract value of £500k. The Procurement, Commercial and Contract Management Team (PCCMT) continue to support local suppliers by providing useful information on the Council's website i.e. pre-recorded webinars on how to bid for Council contracts, hints and tips for tendering, as well as our current contract plan. Details of upcoming Supplier Development events and our Category Officer's contact details are also provided, all of which enable local suppliers to be able to bid for our contracts.

FQ1 2023/24	75%	37%	Red	

This indicator for FQ1 is below target however performance has increased since the last reporting period.

FQ1 Comment

The total number of street lighting jobs completed in FQ1 was 175. Of the total completed within the quarter, 64 were completed within the 10 day indicator giving an overall performance of 37%. We still have a number of faults reported as dark lamps that turn out to be more serious cable or section faults requiring power company/supply repairs. More jobs were completed and closed off than new ones raised, within the period, slightly reducing the overall backlog in repairs.

There have been some resourcing issues due to sickness absence and annual leave and the commencement of the Capital Improvement Schemes in Helensburgh and Bute.

FQ1 2023/24	45.0%	47.6%	Green	

This indicator for FQ1 is above target however performance has decreased since the last reporting period.

FQ1 Comment

47.6% recycling, composting and recovery (37.4% recycling/composting plus 10.2% recovery). Overall rate above target although recovery less than same quarter in previous year. This is mainly because mixed general waste which goes to Barr Environmental (mainly from Helensburgh and Lomond area) is now all landfilled. This is due to Barr's decision to cease operation of their mixed waste treatment plant following The Scottish Government introduction of a Landfill Tax Abatement Order from July 2022.

FQ1 2023/24	No target	53.0%	No target	

This indicator for FQ1 shows the percentage of waste recycled has decreased since the last reporting period.

FQ1 Comment

53.0% recycling, composting and recovery (35.8% recycling/composting plus 17.2% recovery). Renewi recycling and recovery rates now back to more normal levels as had been higher in 2022/23 year mainly due to significant wood and green garden waste tonnages being sent for recycling/composting plus and energy from waste trial increased recovery tonnages.

This indicator for FQ1 shows the percentage of waste recycled has increased since the last reporting period.

FQ1 Comment

Recycling rate higher than previous quarter i.e. FQ4 in 2022/23 mainly due to significant green garden waste tonnage being sent for composting. Recovery rate much lower than same quarter in previous year i.e. FQ1 in 2022/23, mainly due to Barr Environmental no longer operating a mixed general waste treatment plant at their Auchencarroch Landfill Site (near Alexandria) following The Scottish Government introducing a Landfill Tax Abatement Order from July 2022.

FQ4 2022/23	5,000	4,610	Green	
FQ1 2023/24	5,850	5,075	Green	

This indicator for FQ1 is below target (lowest is best).

FQ1 Comment

Tonnes of biodegradable waste to landfill within target, however more was landfilled than in same quarter during previous year. This increase was mainly because all mixed general waste delivered to Barr Environmental in FQ1 this year (from the Helensburgh and Lomond area) was landfilled. This was due to Barr's decision to cease operation of their mixed waste treatment plant following The Scottish Government Landfill Tax Abatement Order (which was introduced from July 2022). The Renewi energy from waste trial has ended, therefore in this quarter there is no extra recovery from the PPP area to offset the recovery reduction from the Helensburgh and Lomond area.
