AGENDA

1. APOLOGIES

2. MINUTES OF THE PREVIOUS MEETING HELD ON 7 JUNE 2012 (Pages 1 - 6)

3. ACHA UPDATE
   An update by Alistair MacGregor, Chief Executive, Argyll Community Housing Association.

4. SCOTTISH WATER UPDATE

5. BUSINESS IMPROVEMENT DISTRICTS (BIDS)
   A presentation by Iain Davidson-Porter.

6. COMMUNITY PLAN - ARGYLL AND BUTE COUNCIL - EILEEN WILSON, IMPROVEMENT AND STRATEGIC HR (Pages 7 - 34)

7. POPULATION DECLINE - EILEEN WILSON AND CHRIS CARR - ARGYLL AND BUTE COUNCIL, IMPROVEMENT AND STRATEGIC HR (Pages 35 - 48)

8. COMMUNITY RESILIENCE - MORAG BROWN, ARGYLL AND BUTE COUNCIL - IMPROVEMENT AND STRATEGIC HR

9. CO-PRODUCTION CONFERENCE
   An update by Glenn Heritage, AVA.
10. PARTNERSHIP UPDATES

(a) Strive to Survive project
   An update by Pat Dean, AVA, Community Empowerment Outreach worker.

11. COMMUNITY SAFETY PARTNERSHIP EXCEPTION REPORTING TO
    COMMUNITY PLANNING GROUP (Pages 49 - 52)

12. ISSUES RAISED BY COMMUNITY COUNCILS

   (a) Update on the development of the proposed Islands Forum

13. ISSUES RAISED BY THE THIRD SECTOR FORUM

   Councillor Rory Colville          Councillor Robin Currie
   Councillor Anne Horn              Councillor Donald Kelly
   Councillor Donald MacMillan       Councillor John McAlpine
   Councillor Douglas Philand        Councillor John Semple
   Councillor Sandy Taylor

   Shirley MacLeod – Area Governance Manager

   Theresa McLetchie – Tel: 01546 604511
Present:

(Chair)
Councillor Anne Horn
Councillor Robin Currie Councillor John McAlpine
Councillor John Semple Councillor Sandy Taylor
Shirley MacLeod Argyll and Bute Council

1. APOLOGIES

Apologies were intimated by:-

Councillor Donald Kelly
Councillor Donald MacMillan
Councillor Douglas Philand
Yvonne Litster
Audrey Baird
Bob Chicken

The Chair welcomed all to the meeting and extended good wishes on behalf of the MAKI LACPG for a speedy recovery to Councillor Donald MacMillan after his recent operation.

In addition, the Chair formally congratulated Chief Inspector Marlene Baillie on her recent temporary promotion and wished her every success in her new position.

2. MINUTES OF THE PREVIOUS MEETING HELD ON 7 MARCH

The Minute of the last meeting held on 7 March was approved as a true and correct record.

3. PARTNERSHIP UPDATES

Christina West provided an update in regards the recent successful
engagement of a GP for Islay. Dr Kate Pickering would be based in Bowmore. However, the progression of appointing a GP to Jura had been unsuccessful. Plans had been formulated to meet with Jura Community Council to re-advertise the position.

A ‘drop-in event’ was scheduled for 27 June, whereby the local community would be updated on recent Health and Social Welfare issues. Councillor Currie raised some concerns in regards the location of the GP surgery for pedestrians within the hospital at Bowmore and questioned if NHS Highland would be sourcing alternative accommodation for the surgery. Christina West reported on the improvements made by NHS Highland in regards funding additional car parking provision at the hospital and reiterated that Derek Leslie, General Manager Argyll and Bute Community Health Partnership had not indicated that alternative accommodation would be sourced. She reported that the local community had affirmed that the present location was working well, but would take on board Councillor Currie’s comments.

Glen Roberts, Convener Islay Community Council, questioned if any discussion on this issue had involved the new GP, Dr Kate Pickering. Christina West replied that further discussion would take place when Dr Pickering was in post.

Louise Logue and Maryanne Stewart reported that Survive and Thrive project is nearing its inception stage; all interviews have now been held and the Project Co-ordinator will be Lesley Anderson who joins from Islay and Jura CVS and has a background including working with Womens Aid and within the criminal justice system.

The work will complement that of existing agencies who are partners with ADA (Against Domestic Abuse) multi-agency Partnership and supports survivors of domestic abuse, women, children and men, in gaining greater emotional strength and well being through supports including the personal development course, STEPS to Excellence and support from other voluntary sector organisations across Argyll & Bute. The work also facilitates a ‘joined up’ approach to this support through multi-agency networks. Importantly, survivors will have choices available to them and additional options to support their future well-being. Importantly findings and experiences from this work should support and assist partner organisations to demonstrate need for their services giving a further dimension and feedback opportunity on which evidence based resources can be based.

Susan Paterson reported on funding issues in regards the Community Care Forum and changes within the Scottish Ambulance Service and the impact on passenger transportation.

Inspector Davidson reported on changes within Strathclyde Police’s Senior Management structure. He informed the group of Chief Inspector’s Baillie’s recent temporary promotionary appointment and offered the group assurance of a replacement in the interim period.

He updated the group on the appointment of a new Detective Sergeant in Campbeltown.

Inspector Davidson had a copy of the Chief Constables’ Annual report and detailed that the report was also available on the Strathclyde Police website.
Councillor McAlpine voiced concerns in regards the lack of police presence at Tarbert police station. Alistair Davidson replied that there was 1 permanent Strathclyde Police officer at Tarbert. However, the number of police vehicles had been rationalised, resulting in the fact that officers no longer had a dedicated vehicle. Provision and cover was still attributed to Tarbert from Lochgiphead Police station. Councillor McAlpine requested that the situation be monitored.

Verina Litster advised that she was representing Andy McClure, Strathclyde Fire and Rescue. She reported that a new Area Commander had been appointed - Jim Scott would be based in Helensburgh and would be replacing Paul Connolly.

4. ISSUES RAISED BY COMMUNITY COUNCILS

(a) UPDATE ON THE DEVELOPMENT OF THE PROPOSED ISLANDS FORUM
Shirley MacLeod spoke to the report advising the group of the outcome of a meeting of the Islay CC on May 8. She informed the group that Audrey Baird would be having further discussion with both the Islay and Jura CC Conveners.

The group agreed that this item would continue for discussion at the next meeting.

5. ISSUES RAISED BY THE THIRD SECTOR FORUM
Louise Logue reported on the low turnout at meetings of the Third Sector and proposals to implement new methodology in the process of successfully liaising with local groups.

Christina West enquired on the status of the request made by Councillor Philand in regards supporting the maintenance and continuation of the Rural Transport Grant which was made available to the Red Cross.

Action: Shirley MacLeod would ascertain the status of the request and advise Christina West accordingly.

6. NEW COMMUNITY PLAN
Eileen Wilson reported that the new Community Plan had been through the Community Planning, process, but was not as yet approved. Planning had already been instigated for the next Community Plan. She advised the group of a forthcoming Workshop summit on 12 June, which the new Council Leader would be attending. The Scottish Government planning review would be undertaken in 3 stages. It was envisaged that recommendations resulting from this would perhaps require formal legislation and that guidance on the outcome would be available by the end of the summer.
7. **UPDATE ON THE PARTNERSHIP WITH CRAIGNISH AND THEIR COMMUNITY PLAN**
   Fergus Murray gave a detailed presentation on the Craignish Community Plan.
   Councillor Semple enquired on the methodology on how other communities could be involved and the process of how this be rolled out to other area.
   Fergus Murray replied that his team were working with many communities and affirmed that he and team were available for discussion and liaison with local communities who needed advice and support.

8. **COMMUNITY SAFETY FORUM AND LINKAGES TO OTHER GROUPS**
   The group agreed to the recommendations detailed within the report.

9. **BUSINESS IMPROVEMENT DISTRICTS (BIDS)**
   Shirley MacLeod explained to the group that representation from BIDS Scotland hoped to attend the next meeting.

10. **CRITICAL ACTIVITY RECOVERY PLAN**
    Kate Connelly spoke to the report which detailed the Council's Business Continuity arrangements.
    The Chair enquired if Community Councils and local groups had been given a link to the survey. Kate affirmed that full details had been emailed out to local Community Councils and organisations.

    The group noted the recommendations detailed within the report.

11. **THEMATIC GROUPS - REPORTS**
    The Chair informed the group that the Thematic reports would be regular reports and would be for noting. However, if there was anything contentious detailed within the reports, then partners/group members could make contact with the relevant lead officer to ascertain further information, as required.

    (a) **ECONOMY THEMATIC REPORT - FOR NOTING**

    (b) **ENVIRONMENT THEMATIC REPORT - FOR NOTING**

    (c) **SOCIAL AFFAIRS THEMATIC REPORT - FOR NOTING**

    (d) **THIRD SECTOR THEMATIC REPORT - FOR NOTING**
        Glen Roberts, Islay CC Convenor, voiced his concerns at the VC audio quality during the meeting

        **Action:** Shirley MacLeod would relay the group’s dissatisfaction on
the quality of the VC transmission to the IT Management team.

Christina West enquired on the future format of the LACPG and forthcoming meeting dates. Eileen Wilson replied that the format was still to be decided upon. However, this would be a mechanism which would be community influenced and agreed by CP partners.

The Chair thanked the group for their attendance and input at the meeting.
Realising our potential together

Arighg and Bute
Community Plan
and Single Outcome Agreement
2012-2013

produced by the Argyll and Bute Community Planning Partnership
"Ni sinn le chèile gach nì a tha nar comas
Realising our potential together"
Argyll and Bute Community Planning Partnership is committed to promoting equality

Key Principles:

- no-one is disadvantaged because of their race or ethnic origin, disability, gender, age, sexual orientation, or religion and belief
- the differences between people are valued and good relations between groups are promoted
- people are treated fairly and with equal respect
- informed assessments are made on the impact of policies and services
- people are involved in the decisions that affect them and encouraged to participate in public life
Foreword from Chair of CPP and Management Committee.

As Chairs of the Argyll and Bute Community Planning Partnership and Management Committee, we are delighted to introduce this new Community Plan and Single Outcome Agreement that brings together our joint priorities for service delivery in Argyll and Bute.

This is an important time for the public sector, when joint working, cooperation and collaboration is essential to making sure that quality services continue to be delivered efficiently to the people of Argyll and Bute in what is a highly challenging financial environment facing the public and voluntary sectors. From the strategic issues around the integration of health and social care to the local issues of community development and individual volunteering, we all have an important role to play. This document sets out the framework and the priorities for us all to deliver together.

Our focus continues to be on the four main themes that are central to Argyll and Bute: the Economy, Social Affairs, the Environment and our Communities and 3rd Sector. As partners, we are delivering on many important and exciting service improvements, with investment in our towns through the £30m CHORD Programme and the development of significant renewable energy hubs, working closely with communities through the Argyll and Bute Renewables Alliance. We are clear that the economy is a key driver for ensuring that our communities and our young people have a strong and sustainable future. Our agenda for taking early action to support people at risk in our communities is also a clear priority, ensuring that our health, education and social care services are closely aligned.

In these challenging times, effective partnership working is fundamental and this Plan sets out a clear path for us to take together.

Councillor Dick Walsh, Argyll and Bute Council, Chair of the Community Planning Partnership

Derek Leslie, General Manager, Argyll and Bute Community Health Partnership, Chair of the Community Planning Management Committee
Community Planning is a process whereby public agencies and other key stakeholders work together to deliver better services and, through representation and participation, involve people and communities in the decisions that affect them most.

The Scottish Government and Argyll and Bute Community Planning Partnership entered into a new relationship with the Concordat agreed in November 2007. An agreement based upon mutual respect and commitment to shared objectives. The Single Outcome Agreement was at the core of that new relationship and reflected the spirit of partnership working in Argyll and Bute. Argyll and Bute’s first Single Outcome Agreement was agreed with the Scottish Government in August 2009 and covered three years, from 2009 to 2012, highlighting outcomes to be achieved in that period.

This combined Community Plan and Single Outcome Agreement 2012-2013 will bridge the one year from the end of the Single Outcome Agreement period to the end of the current Community Plan timeframe. This one year plan will continue to ensure that Argyll and Bute contributes to the delivery of the Government’s 15 national outcomes and delivers better outcomes for our communities.

The Argyll and Bute Community Planning Partnership is focused on what residents have told us is most important to them. This one year combined Community Plan and Single Outcome Agreement sets out the overall direction and vision for the area until 2013 together with our approach to the main issues that face Argyll and Bute. All the partners are committed to this one year plan and each partner has reflected the key issues in their own plans as appropriate.

**Delivery through Partnership**

The Argyll and Bute Community Planning Partnership is responsible for delivering the Community Plan and Single Outcome Agreement (SOA). This combined plan will be monitored through the Community Planning Partnership’s Thematic Groups and by the Management Committee, making sure that that the Community Planning Partnership delivers outcomes.

The vision for community planning in Argyll and Bute is:

**Realising Our Potential Together**

The core values underpinning this vision are that:

- **We involve and listen to our customers and communities**
- **We take pride in delivering best value services**
- **We are open, honest, fair and inclusive**
- **We respect and value everyone**

**Consulting Communities**

Through the Argyll and Bute Citizens’ Panel and local consultation events the CPP asks about issues affecting communities. Last year you told us that you wanted front line services protected and savings should be made in non essential functions such as travel, subsistence, venue hire and advertising and that there should be increases in fees and other charges. You also told us that more money needed to be spent on our roads and as a result of that an additional £15m was committed over three years.
2: Local Context

About Argyll and Bute

Argyll and Bute is an area of outstanding beauty and varied geography stretching from the main urban area of Helensburgh in the east to the island of Tiree in the West.

The area’s population of 89,200 is spread across the second largest local authority area in Scotland and has the third sparsest population density, with an average population density of just 0.13 persons per hectare. Seventeen per cent of Argyll and Bute’s population live on Islands. Forty-five percent live in settlements of 3,000 or more people; conversely, 55 per cent of Argyll and Bute’s population live in settlements smaller than 3,000 people, or outwith settlements altogether. 80 per cent of Argyll and Bute’s population live within one kilometre of the coast.

Argyll and Bute has 25 inhabited islands, including Bute, Islay, Jura, Mull, Iona, Coll and Tiree, more than any other local authority in Scotland. The area is also home to Loch Awe (at 41 kilometres, the longest freshwater body in Britain) and several long sea lochs, which bisect the landscape.

The importance of the natural environment is indicated by the 120 Sites of Special Scientific Interest that have been designated within the area. Combined, these cover almost ten per cent of Argyll and Bute’s land area. Additionally, almost thirty per cent of the Loch Lomond and the Trossachs National Park area falls within the area.

The People

The changing demographic profile of the area presents one of the area’s greatest challenges. Over the twenty-five year period from 2008, the proportion of 0-15 year olds is projected to fall by almost 14%, working age population by almost 14%, and the proportion of the population of pensionable age to increase by 20%. Average gross weekly pay for fulltime workers is lower in Argyll and Bute than in Scotland (£470.20, compared to a Scottish average of £486.90). An estimated 15 per cent of jobs in Argyll and Bute are tourism-related. This compares to 9 per cent of Scottish jobs. Service sector jobs account for 86 per cent of all employee jobs in Argyll and Bute, compared to 82 per cent across Scotland. Thirty-four per cent of employee jobs in Argyll and Bute are in ‘public administration, education and health’. This compares to 32 per cent for Scotland.

Our challenges

The key challenges we face relate to:

- **our geography** – a highly rural area with many small communities, often separated by water. Access to the area and to key services are perennial challenges
- **changing population** – with more extremes than most of Scotland and the differences are getting greater we face increasing costs and challenges to deliver services to older people and the need to encourage young people to move to the area so that our economy can grow
- **people on the fringe** – many of our communities are very isolated and risk collapsing as population changes take affect alongside urban communities where deprivation can create real hardships
- **the financial pressure on public services** as we have to find efficiencies for services directed to communities that are costly to support
The Argyll and Bute Community Planning Partnership

The Partnership was set up in 2001 to coordinate the delivery of services and other activities in Argyll and Bute to improve the quality of life and physical environment for residents and visitors to the area. The Partnership consists of a number of groups:

The Full Partnership
-this is the body that provides the governance – the overall leadership and representation to ensure that the different groups and organisations that make up the Partnership are focused on the community’s priorities. It is chaired by the Leader of the Council, the person with the clearest democratic authority in the area.

The Management Committee
-this is the decision-making body for the Partnership. Partner organisations chair the Committee on a rotational basis. The Management Committee meets every two months and brings together the organisations with the most significant influence on service delivery in Argyll and Bute. The Management Committee ensures that the work of the Partnership has the leadership and capacity to do its job.

Thematic Groups
-these groups coordinate the activities of relevant members of the Partnership to ensure that the plan agreed by the Full Partnership is delivered. This plan sets out the community planning partnership’s priorities under the 4 themes of: Economy; Environment; Social Affairs and Third Sector and Communities.

Strategic Partnerships
-there are a number of strategic partnerships in Argyll and Bute helping deliver Community Planning outcomes.

Local Community Planning
-these local partnerships are made up of local representatives of Community Planning Partners and local communities.
## 3: CPP Themes and National Outcomes

*these are only a few of the success measures the CPP Economy Thematic Group uses. For a full list of all the Economic success measures visit [http://www.argyll-bute.gov.uk/community-life-and-leisure/thematic-groups](http://www.argyll-bute.gov.uk/community-life-and-leisure/thematic-groups)
4: Economy

CHORD  The Council is progressing well with its ambitious programme of regeneration in the five towns of Campbeltown, Helensburgh, Oban, Rothesay and Dunoon (CHORD). Projects currently being implemented include Townscape Heritage Initiative’s (THI) in Campbeltown and Rothesay and the Kinloch Road Regeneration project in Campbeltown. The plans to revitalise Helensburgh’s town centre and esplanade should begin in early 2012. We are working to secure capital funding for Rothesay Pavilion and continue to develop the business cases for the remaining projects within the programme, such as Dunoon and Oban.

The refurbishment of this prominent shopfront in Campbeltown has significantly enhanced the streetscape, bringing vacant floorspace back into use and creating employment.

Works included: Removal of existing board and reinstatement of left hand window; timber repairs to all windows; refurbishment of all doors to both elevations; removal of all redundant signage and cabling; redecoration of all elevations including render, windows, doors, and security bars.

The works were completed in August 2011.

More information available at — http://www.argyll-bute.gov.uk/content/chord-town-centre-regeneration-projects

Inward Investment - Kintyre

2012 will see the re-opening of the Royal and Ugadale hotels in Kintyre after extensive refurbishment by the US based Southworth Developments Group. This significant investment which is being supported by the European Regional Development Fund and grant assistance from Highlands and Islands Enterprise (HIE) to reflect its importance to the wider local economy will build on the success the Group has already had in establishing the international reputation of the Machrihanish Dunes golf course.

Kintyre’s role as a centre for the renewables industry has been restored after a joint venture between Scottish and Southern Energy and Marsh Wind Technology acquired the former Skykon factory. Production of towers for the Clyde Wind Farm has now recommenced retaining 85 jobs at the plant in Campbeltown. To secure this investment HIE is providing funding of £3.4million and Argyll and Bute Council is committing up to £12million to upgrade Campbeltown port and local roads. The inclusion of the area in the National Renewables Infrastructure Plan opens up opportunities for the growth and development of supply chain businesses.
Argyll and Bute Renewables Alliance (ABRA)

The Argyll and Bute Renewables Alliance (ABRA) was developed from a key action identified in the REAP. ABRA brings together key partners including Argyll and Bute Council, Highlands and Islands Enterprise, Scottish Government, Marine Scotland, Scottish Power Renewables, Scottish and Southern Energy, Crown Estate Commission, Scottish Natural Heritage and Skills Development Scotland.

ABRA will ensure a strategic overview of renewable development, and a greater awareness of all the issues relating to this development across Argyll and Bute and Scotland, as well as assist with implementation of the REAP. Partners will identify options for coordinated and joined up discussions between public and private sectors, to allow for alignment of partner plans, objectives and future investment, to realise collective requirements in order to overcome barriers to development and maximise the opportunities presented by this industry, in order to achieve our vision as outlined by the REAP.

Argyll College Engineering Training Centre

In 2012 Argyll College will be opening a brand new, purpose built engineering facility adjacent to the current construction skills training centre in Lochgilphead. The new facility will enable Argyll College to deliver engineering based training in Argyll for the first time. Electrical, Mechanical, Engineering and Welding courses will all be delivered from the new training centre. The centre will also focus on skills specific to the development renewable in Argyll and Bute.

LEADER

Leader is part of the Scotland Rural Development Programme (SRDP). LEADER is a bottom-up method of delivering support for rural development. With an ethos of strong partnership working and community empowerment, the Argyll and the Islands LEADER Local Action Group continues to fund new and innovative projects to support sustainable, community-based development and growth of rural communities throughout the area.

In a time of economic uncertainty and despite the reduced availability of match funding, our communities continue to show innovation and drive to progress the sustainability of our area. During April 2010 – March 2011, Argyll and the Islands LEADER partnership has successfully contributed £1,531,443 of grant funding to 57 projects, under the themes of Revitalising Communities and Progressive Rural Economy.
5: Environment

Argyll and Bute is an area of great natural beauty and diversity. We have huge natural potential for energy generation, food and drink, leisure and tourism. We need to develop the area further, whilst protecting and enhancing what makes it attractive.

5: Environment

Wildlife Tourism

Wildlife Tourism is a growing part of the tourist industry in Argyll and Bute. As fishing and agricultural industries struggle, specialist sectors, such as whale-watching and sea eagle-watching, can attract tourists to our remote and rural areas, contributing to the local economy.

Marine and land based wildlife tourism is well-established on Mull and a range of trips are on offer to visitors, including those related to the Sea Eagle project.

Wildlife Tourism brings a range of social and economic benefits to the wider local community. Local boat operators, local food producers, accommodation providers and local artists are among some of those who benefit from people visiting the area, staying longer and spending more money. This is recognised in the Woodland and Forestry Strategy which seeks to further develop woodlands’ contribution to tourism and recreation in Argyll and Bute.

Argyll and Bute Renewable Energy Action Plan

The Argyll and Bute Renewable Energy Action Plan (REAP), endorsed by the Executive Committee 12th August 2010, was developed from a key action in the Argyll and Bute Community Plan 2009-2013. The Renewable Energy sector is increasingly being recognised as a significant driver of Scotland’s future economic success. The REAP recognises the potential of Argyll and Bute’s abundant renewable resource, and provides a framework to facilitate a co-ordinated partnership approach in order to realise the potential of our sustainable economic assets, in contributing toward future economic development for Argyll and Bute and Scotland. It outlines our vision, and actions to achieve this, which seeks to ensure:

“Argyll and Bute will be at the heart of renewable energy development in Scotland by taking full advantage of its unique and significant mix of indigenous renewable resources and maximising the opportunities for sustainable economic growth for the benefit of its communities and Scotland.”

5: Environment

**Argyll and Bute Core Paths Plan**

The Finalised draft of the Core Paths Plan was published in January 2011 and the Outdoor Access Team is now trying to resolve some of the 140 objections to Paths and Launching Points. It is expected that a Public Local Inquiry (PLI) into the remaining objections will be required during 2012. At present 981 miles of Core Paths, 172 Launching Points, 381 and miles of Aspirational paths will be included in the final Plan with this figure likely to rise following the PLI. Moving forward the team will start to survey the network and begin the process of prioritising future investment in path improvements. The initial priorities will be to ensure the safety of structures including bridges followed by the installation of signage and way markers.

For more information on the Core Path Plan visit - http://www.argyll-bute.gov.uk/planning-and-environment/core-path-planning

**Woodland and Forestry Strategy**

Forests and woodland cover over 30% of the land area of Argyll and Bute, and as such, impact on many aspects of our lives.

The strategy provides an overall picture of the resource and its related issues. It sets out what we would like our woodlands to look like over the next 50 years in our area, and how we can make the most of them so that they contribute to our local economy, to the environment, our rich heritage, and to the quality of life for our communities and residents. It contains an Action Plan which is linked to Scottish Rural Development Programme funding.

The Argyll and Bute Woodlands and Forestry Strategy was commissioned by Argyll and Bute Council and Forestry Commission Scotland. Funding support was also given by Argyll and the Islands LEADER, and Scottish Enterprise.

For more information on the Woodland and Forestry Strategy visit - http://www.argyll-bute.gov.uk/woodland
We want to deliver the best services for our customers. To do this we need to have policies, protocols and processes that focus on our customers’ needs. Our employees need to have the right skills and tools to do their jobs. We need to make the most of our resources by working with our partners to deliver services in a different way.

### Local Outcomes

| CPP 8 | Our children are protected and nurtured so that they can achieve their potential. |
| CPP 9 | Our people are supported to live more active, healthier and independent lives. |
| CPP 10 | We work with our partners to tackle discrimination. |
| CPP 11 | Vulnerable children and families are protected and are supported in sustainable ways within their communities. |
| CPP 12 | Our young people have the skills, attitudes and achievements to succeed throughout their lives. |
| CPP 13 | The impact of alcohol and drugs on our communities, and on the mental health of individuals, is reduced. |
| CPP 14 | The Places where we live, work and visit are well planned, safer and successful, meeting the needs of our communities. |

### National Outcomes

3. We are better educated, more skilled and more successful, renowned for our research and innovation.
4. Our young people are successful learners, confident individuals, effective contributors and responsible citizens.
5. Our children have the best start in life and are ready to succeed.
6. We live longer, healthier lives.
7. We have tackled the significant inequalities in Scottish life.
8. We have improved the life chances for children, young people and families at risk.
9. We live our lives safe from crime, disorder and danger.

Research and Information

The Community Planning Partnership has access to many sources of demographic data and other statistical information. Population statistics and projections, in conjunction with other information, help the CPP to ensure services are delivered where they are needed and to plan for future changes in needs.

Population Projections

Over the 2008-2033 period, the total population of Scotland is projected to increase from 5,168,500 to 5,544,410. However, the sub-national projections indicate that there will be regional variations within Scotland. Of the 32 Scottish Local Authorities, 19 are expected to show population growth and 13 – including Argyll and Bute – are expected to experience population decline.

This graph (figure 1) shows the projections from 2008 to 2033.

As well as absolute population numbers in Argyll and Bute changing (falling from 90,500 to 85,383 over the projection period), the age profile of the population is expected to change, with proportions of 0 to 15s and working age populations decreasing, and the proportions of the pensionable-age population increasing.

Population by Area

This diagram (figure 2) shows the population breakdown for Argyll and Bute as a whole and also for the four administrative areas.

The age profiles of the different areas means that the needs will be different in each area. Knowing this information helps us to deliver services where they are needed.

*these are only a few of the success measures the CPP Social Affairs Thematic Group uses.
Curriculum for Excellence

Curriculum for Excellence aims to achieve a transformation in Education in Scotland by providing a coherent, more flexible and enriched curriculum from 3 to 18.

The curriculum includes all of the experiences that are planned for children and young people through their education. The 3-18 curriculum aims to ensure that all in Scotland develop and skills they will learning and work. The knowledge, skills and attributes children and young people will develop will allow them to demonstrate four key capacities – to be successful learners, confident individuals, responsible citizens and effective contributors.

For more information on the Curriculum for Excellence visit - http://www.education.ea.argyll-bute.sch.uk/learnteach/ace.asp

16+ Learning Choices

Under the Scottish Government policy 16+ Learning Choices, all young people across Argyll and Bute are guaranteed the offer of a place in post-16 learning. The policy is an integral part of Curriculum for Excellence and is central to facilitating the delivery of the national indicator for positive and sustained destinations post-16.

By staying in learning past their initial school leaving age, young people are increasing their opportunities to secure and sustain long-term employability. This helps to build capacity for the young person, their families and their local communities; and in turn supports Argyll and Bute’s economic growth. Critically, the aim of 16+ Learning Choices is to prevent and help reduce youth unemployment.

16+ Learning Choices requires multi-agency collaboration across the local authority with robust systems and shared processes in order to provide the right learning and support for all young people.
6: Social Affairs

Argyll and Bute Strategic Housing and Communities Forum

Despite the continuing economic pressures the Strategic Housing and Communities Forum has continued to deliver an innovative and exciting housing programme.

Top priorities have been:
- to sustain housing development, and
- action to address fuel poverty

Housing developers in Argyll and Bute responded creatively to the Scottish Government’s invitation to bid for funding from the Innovation and Investment Fund. 7 bids were successful securing £5m grant funding to deliver 137 homes over the next two years. Currently there are 172 homes on site and next year will see the culmination of an innovative joint project between health, housing and social work when the new Mull Progressive Care Centre in Craignure is completed.

Alienergy in partnership with the Council submitted a successful bid to the second round of Universal Home Insulation Scheme (uHIS) and secured £742k to improve draught proofing and insulation in homes across the area. The project will contact 4500 households via direct mailings; door knock 3000 properties and deliver survey/advice visits to at least 1134 of them.

For more information on housing in Argyll and Bute visit — http://www.argyll-bute.gov.uk/housing
### 6: Social Affairs

#### Safer Communities

In Argyll and Bute we believe that everyone has the right to be safe and feel safe in their communities. We are committed to creating and supporting safer and stronger communities – where we live, where we work, where we play – in which we all take responsibility for our actions and how they affect others. This is led through the Community Safety Partnership, a Council led partnership that brings together representatives from the local authority, police service, fire and rescue service, health, education, other public sector interests and the third sector. The Partnership works to reduce anti-social behaviour and fear of crime and to promote safer, more inclusive and healthier communities through a wide range of day-to-day services such as street scene officers, CCTV operations and diversionary activities for young people.

#### Argyll and Bute Alcohol and Drug Partnership

The effects of alcohol and drug misuse lead to significant social and health impacts for the individual, for their families and for our wider communities. The Argyll and Bute Alcohol and Drug Partnership (ADP) works together to prevent and support recovery from the harmful use of alcohol and drugs. The Partnership comprises partners from the Council, health, police and the third sector to support national policy through the development of local strategies that deliver local outcomes for Argyll and Bute.

#### Health Improvement in Argyll and Bute

A healthy population is essential for a flourishing Argyll and Bute. The Community Health Partnership makes a significant investment in preventative health improvement initiatives and via the community planning process supports a number of structures:

- **Argyll and Bute Health and Wellbeing Partnership** – is a partnership between the public and third sectors and is responsible for overseeing health improvement delivery across Argyll and Bute.
- **Health and Wellbeing Grants** - support local health improvement projects. (Approximately £71k per annum).
- **Health and Wellbeing Networks** - made up of public and third sector partners and responsible for implementing health improvement initiatives.

**Priorities for Health Improvement in Argyll and Bute**

- Building and supporting capacity within all Community Planning Partners to deliver health improvement.
- Empowering individuals and communities to be healthy, for example, asset building on the resources and skills for health already present in communities.
- Lifestyle interventions such as smoking cessation, alcohol brief interventions and mental health improvement.

For more information on health services in Argyll and Bute visit - [http://www.nhshighland.scot.nhs.uk/CHP/ArgyllandBute/Pages/ArgyllButeCHP.aspx](http://www.nhshighland.scot.nhs.uk/CHP/ArgyllandBute/Pages/ArgyllButeCHP.aspx)
Health and Social Care in Argyll and Bute

Health Services in Highland and Scotland have to change due to:
- Increasing elderly population and more people living with long term conditions for longer
- In some areas the health of people are not improving so we must address health inequalities
- Healthcare costs rising faster than our income
- High cost of new treatments

Seven key principles to shape future plans
1. Promoting good health, self care and independence
2. Quality service that is fair and affordable based on need and clinical evidence
3. More community-based with hospital beds for acutely ill and those needing specialist care
4. Joint working with local authority, voluntary and independent sector
5. Run by well-trained and flexible staff working to the top of their skills
6. Using modern facilities and technology to best effect. Services and offices across fewer sites
7. Ongoing re-design to remove waste and inefficiency with minimal overhead costs.

The impacts of change
1. More people will be looked after at home or close to home with more service in the community
2. Fewer people will need to be admitted to hospital as emergencies
3. People who do come into hospital will not need to stay in so long
4. Fewer hospital beds will be required
5. Fewer buildings will be needed
6. The make-up of the workforce will change with fewer staff required

Telehealth in Argyll and Bute

Following a successful pilot of telehealth in Bute, Telehealth is currently being rolled out across Argyll and Bute. The pilot focused on people with COPD (Chronic obstructive pulmonary disease) on the island of Bute and successfully showed a reduction in admission to hospital for this group of patients, it also demonstrated an increase in well being.

There are now home monitoring Pods in Bute, Cowal, Lochgilphead, Kintyre, Mull and Taynuilt, all focusing on home monitoring of COPD, heart failure and palliative care with support from a local community nurse. There are currently 36 home pods in Argyll & Bute with plan for a further 40. The equipment currently uses mobile phone signal, telephone line or broadband to send information gathered to a secure server where it can be accessed daily by a community nurse.

With future developments in telehealth coming along the equipment will soon be able to support exercise and activity in the home and reduce social isolation.
7: Third sector and communities

There are long distances between the places where we live, work and visit and some of our communities are very small. We need to find innovative ways of delivering services to make sure our communities are strong, resilient to change, fair and inclusive.

7: Third sector and communities

Argyll and Bute Local Services Initiative (ABLSI)

ABLSI is a partnership initiative bringing together Argyll and Bute Council, Argyll and Bute Social Enterprise Network, Argyll Voluntary Action, and Argyll & Bute Community Health, NHS. ABLSI is investigating whether asset-based approaches to service innovation can help to sustain (and improve) services even during a time of cuts and increasing actual costs. It offers an opportunity for local practitioners to learn from practice, analyse risk factors and develop and support stakeholders to develop service models which meet the long term needs of communities. The work is part of a Rural Development Community of Practice (CoP), which is supported by Carnegie UK Trust and Highlands and Islands Enterprise. The CoP enables activists, professionals and policy makers from across the UK and Ireland to support and learn from one another online and at face-face events. The ABLSI was developed based on recommendations from the Argyll and Bute 'Harnessing the Potential of the Third Sector to Help Achieve Council Objectives Demonstration Project' (Demonstration Project.) This was established in 2008 following a meeting between the Council Leader and the Head of the Big Lottery Fund in Scotland. It is a record of the work that Argyll and Bute Council under-took to help develop and maintain sustainable communities, working jointly with community, voluntary and social enterprise organisations, collectively known as the Third Sector.

Third Sector Partnership

Argyll and Bute Third Sector Partnership is a partnership between the infrastructure support organisations of ABSEN (Argyll & Bute Social Enterprise Network), Argyll Voluntary Action and Islay and Jura CVS. Since its inception in March 2010, the Partnership has strengthened its representational role on a range of strategic community planning groups, including Social Affairs, Third Sector & Communities and CPP Management Committee. It has worked with its colleagues in Argyll and Bute Council and Health predominantly and in particular in the areas of community engagement.

The Partnership operates the third sector fora across 7 areas of Argyll and Bute and is involved in, amongst other initiatives, the Mental Health Improvement and Promotion Plan and the Reshaping Care for Older People plans. Through the fora we are able to link and communicate the views of the wider sector to our strategic partners.

We are all operating in very harsh times – our statutory partners are facing challenges which impact on staff and services and the third sector also has lost a number of staff, with more posts and services to be lost in the coming months. To survive, continue to deliver our core services and assure our communities of support we are working more closely than ever before, with a greater sense of understanding of each other than hitherto. We are stronger through greater understanding and have a vision which will take us into a future of better, smarter and more sharply focussed service delivery underpinned by working together in mutual respect and with a common goal.

Better Community Engagement resource pack

This project set out to produce an easy-to-understand and easy-to-access resource pack that will enhance community engagement activities across Argyll and Bute. It was produced by, and for, local area Community Planning partners in Argyll and Bute.

This has been a good example of partnership work, involving in particular the Third Sector Partnership and NHS Highland working alongside Argyll and Bute Council.

The challenge was to produce a resource for Community Planning Partnership partners and community groups (such as Community Councils and Third Sector Fora) as an accessible online resource.

The final pack has practical exercises with easy-to-understand instructions and graphics to encourage use. The pack was written for Local Area Community Planning Groups and the information it contains is aimed at these groups. It can be used by Local Area Community Planning Groups themselves when planning engagement activities or by individual Local Area Community Planning partners in relation to their own service provision.

For more information or to access the resource pack visit - link to follow

HIE—Community Account Management

There are currently nine Community Account Management (CAM) areas in Argyll, with Local Development Officers (LDOs) being supported by HIE and Leader to develop and deliver community plans. These areas have been selected in conjunction with the CPP and are already demonstrating the value of having a dedicated local worker to implement projects on behalf of the community. The initial CAM areas (Jura, Coll and Cumbrae) completed community plans last year and have made significant progress towards the projects they encompass.

The next six areas (Bute, Colintraive and Glendaruel, Colonsay, South Islay, Ross of Mull and Iona and Tiree) have now identified key projects within their community plans, ranging from a marketing strategy, pontoon projects, a community café and a web site.

Two new CAM areas in preparation for a potential second phase of funding, which could see new LDOs in post in early 2012.

Bute Community plan can be found at: http://bclc.co.uk/documents/

Tiree Community Plan can be found at http://www.tireetrust.org.uk/index.php?option=com_content&task=blogcategory&id=43&Itemid=76
Other formats  If you would like a copy of this plan in another language or format, or if you require the services of an interpreter, please contact Argyll and Bute Community Planning Partnership on 01546 60**** or email cpp.enquiries@argyll-bute.gov.uk
NRS' 2010-based population projections for Argyll and Bute

Chris Carr

Improvement and Organisational Development
Introduction

• 2010-based population projections for local authority areas published 29 February 2012
• Over projection period (2010-2035) in Argyll and Bute:
  – Total population will fall
  – Number of children will fall
  – Number of working age people will fall, despite increases in pension age
  – An increase in the number of people of pensionable age
  – Population aged 75+ to increase by 73.6%
• There will be more deaths than births
• Migration flows will not compensate
Background (1)

• NRS produces population projections every two years

• Projections
  – make assumptions about
    • Future fertility rates
    • Future mortality rates
    • Migration (hardest to predict)
  – Are based on past trends

• Projections affect policies; policies affect projections

• Projections are NOT predictions
Background (2)

• Over the period 2010 to 2035:
  – Population of Scotland to increase from 5.22million to 5.7million
  – 32 Scottish local authorities:
    • 22 expected to show population growth
    • 10 expected to experience population decline.

• Argyll and Bute’s population is projected to decline.
Argyll and Bute

• Population change in Argyll and Bute (2010 to 2035)
  – 89,200 in 2010
  – 82,754 in 2035
  – Deaths will exceed births
  – Migration flows in longer term assumed to be zero
  – Age profile of population will change:
    • Total population will decrease by 7.2%
    • Number of 0 to 15 year olds will decrease by 8.7%
    • Number of working-age people will decrease by 14.4%.
    • Number of people of pensionable age will increase by 9.8%.
    • An increase of 73.6% in the population aged 75 and over.
    • These figures take account of changes in pensionable age.

Comparisons with previous projections

• Previous projections also suggested a decrease in Argyll and Bute’s population
  – 2008-based projections: 5.7% population decline over 25 years
  – 2010-based projections: 7.2% decline

• Reasons why 2010-based projections show a more rapid decline:
  – Net migration flows have been lowered
NRS Mid Year Estimates and 2006-, 2008- and 2010-based population projections for Argyll and Bute compared
NRS 2008- and 2010-based population projections for 2033 compared (Argyll and Bute)
How accurate are projections?

• Overall accuracy depends on:
  – Accuracy of base year population
  – Accuracy of assumptions built into the model
  – Whether past trends will continue into future

• Can only tell how accurate projections are by looking at them retrospectively

• Calibration with Census 2011 will be helpful
Variant projections

- NRS has published:
  - Principal projection
  - Seven variant projections

Variant projections suggest alternative, plausible scenarios for what might happen.

Note the impact of changing migration assumptions.
Conclusion

• Projections are not predictions
• With one exception, all variants and principal projection suggest population decline
• Projections are used to inform budget allocations
• How will these projections be used to inform policies?
• What are the impacts of these projections for service planning?
1. SUMMARY

1.1 The purpose of this Paper is to advise the Area Community Planning group of the main tasks undertaken by members of the Community Safety Partnership working which have taken place in the last few months.

2. RECOMMENDATIONS

Area Community Planning Group Members:

2.1 Note the highlight/exception reports provided.

2.2 Acknowledge the ongoing work of the group.

2.3 Consider whether there are any specific areas of work which the ACPG wishes the Community Safety Partnership to consider developing further.

3. DETAIL

3.1 Each Area Community Safety Forum has been working within the boundaries of, and to the stated goals of the Argyll and Bute Community Safety Partnership Strategy as originally adopted in 2008/9; which itself followed the national strategy. This strategy has recently been reviewed and is currently awaiting approval from the full partnership. The review has ensured that the strategy ties closely to the Single Outcome Agreement and to the plans of all partners for service delivery.

One positive outcome of the review is that the Community Safety priorities for the Argyll and Bute Forums have again been identified and have been split into a number of priority action areas which can be reported upon. It is hoped that this will provide a level of consistency to the metrics being applied across the entire Argyll and Bute Area, while at the same time retaining each areas individual character and priorities. The table below at appendix 1 is the exception report for the Mid Argyll Kintyre and Islay Community Safety partnership group and provides an indication of the of the work undertaken.
recently. The exception report is not however an exhaustive listing of the community safety works being undertaken by each group or partner and further detail re most topics can be made be available if requested.

The Chair of this Group until recently was Chief Inspector Marlene Baillie. Her recent promotion means that this group is currently headed by the Vice Chair Cllr Horn and it is expected that the group will formally select a new chair at its next meeting.

4. IMPLICATIONS

4.1 Policy
Adoption of the proposal will assist in delivery and reporting of aspects of the SOA and the Community Plan.

4.2 Financial
None,

4.3 Personnel
None

4.4 Equalities Impact Assessment
None.

4.5 Legal
None
