Councillor Kelly requested that agenda item 14 (Notice of Motion under Standing Order 13) be taken following Public and Councillors Question Time as it was of interest to Members of the Public in attendance and they would require to leave before the end of the meeting. With no-one being otherwise minded, the Chair agreed to the request.

The Minute of the Special Meeting of the Mid Argyll, Kintyre and the Islands Area Committee, held on 6 January 2016 was approved as a true record.

4. PUBLIC AND COUNCILLORS QUESTION TIME

Heather Anderson, attending in support of the Meadows Under Five Unit, advised that the unit works in partnership with Campbeltown Nursery Centre to provide quality childcare and education for families in Campbeltown and the surrounding area. She asked Members to consider removing the proposed reduction in service from the Council's budget cuts. The Chair, Councillor Colville advised that at this stage it was only an option and that a decision would be taken at the meeting of the Council on Thursday 11 February 2016.

Ms Anderson asked Members how they intended to vote and if they had considered who would support vulnerable children and families of displaced children should the service be reduced to term time only. Councillor Colville advised that he had spoken with Senior Management in relation to the proposals and that he had been given assurances that the Council would work closely to ensure that vulnerable children are protected.

Ms Anderson enquired as to whether the Council had undertaken a costing for the provision of services outwith the area should local services be unavailable and if so what these were. Councillor Colville advised that it is extremely unlikely that Kintyre families would have to access holiday provision for their children outwith the Kintyre area. He further advised that it would be highly unusual for the Early Years Service to place children out with their own area, therefore this option was not taken into consideration during initial scoping. Mrs Anderson explained that the service currently provides respite provision for children with additional support needs and children who are in foster and kinship care, keeping families together, and that she failed to understand how the proposal could work. Councillor Colville explained that the Early Years Service would rather work with Meadows to make provision for children with additional needs to ensure any impact was minimal.

Susan McFadyen, who was also attending in support of the Meadow's Under Five Unit, enquired as to whether the Council had made contact with local childminders to see if they had free spaces to accommodate any gaps in service. Councillor Colville advised that he had been reassured that the information provided was correct. Ms McFadyen expressed concern, advising that she was unaware of the 15 Childminders within the area. She asked Lesley Bell, a registered Childminder, to confirm whether the Council had been in contact with her in this regard. Ms Bell advised that she had had a conversation with an officer of the Council over three years ago.

Discussion took place in relation to how it was possible to cut ASN support in schools from the savings proposals, with the Chair advising that ASN support had been removed as a result of an ongoing review. Further discussion took place where members of Meadows Under Fives asked Members to consider their social responsibility to the families of Campbeltown.

Councillor Kelly advised that in his opinion the Quality Improvement Officer had only answered a handful of the questions asked, and stressed that this is an issue at the heart of the community and appealed to Members to take this on board when decisions are required.

Councillor Horn advised that the public, in attendance in support of Meadow's Under Fives, were not asking what's happening with the budget, but whether Members intend to vote for or against the proposals to reduce Meadows to a term time service. Councillor Horn advised that her position was that she would not be supporting any proposal which would affect vulnerable members of the community. Councillor Horn asked for further information in relation to the costings of service provision and the free capacity of local Childminders were not being answered.

Councillor Armour asked what the intention of the Early Years Service would be if there was no available services in Campbeltown, if it is not the intention to transport children out with the area.

The Area Committee Manager agreed to take the questions to the appropriate officer and feed back the answers to Members by email, who in turn could feed the information back to the community.

Councillor Kelly advised that Members were still awaiting sight of the public consultation document in relation to the car parking review. The Chair advised that the matter was being brought to the Business Day meeting in March 2016.

Councillor Kelly advised that he was still awaiting information in relation to the survey carried out by the Flooding Working Group. The Area Committee Manager advised that she had received assurances from officers that the information would be passed on. Mrs Barton agreed to pursue this matter further.
