The Group expressed their disappointment in the lack of attendance from Health and Social Care Officers. They felt this is a very critical item and

affects everyone across the area and noted that there was no attendance at the March meeting either.

Decision

The Group asked the Area Governance Manager to write to officers of the Health and Social Care Integration Group expressing the disappointment of the Area Community Planning Group and ask that someone be present at the August meeting.

7. OUTCOME 3: EDUCATION, SKILLS AND TRAINING MAXIMISES OPPORTUNITIES FOR ALL

(a) COMMUNITY LEARNING AND DEVELOPMENT (CLD) PARTNERSHIP

The Area Community Planning Group considered a report outlining the responsibilities laid on the CPP by the Strategic Guidance for Community Planning Partnerships; Community Learning and Development (CLD) (2012), and the associated legislation laid on the Education Authority. The report also highlighted the progress of work carried out in response to these responsibilities by the Argyll and Bute Strategic CLD Partnership, with particular reference to the innovative web-based CLD Plan format that has been adopted.

The Adult Learning Manager advised the group that they were invited to provide feedback regarding the developing strategic CLD Plan, its fitness for purpose and any known key gaps in the community learning provision relating to the Oban, Lorn and the Isles area. She advised that this was a live document and that feedback could be provided at any time by accessing the website, www.cldplanning.com.

Decision

The Area Community Planning Group noted the contents of the report.

(Ref: Report by Community Learning Manager dated 21st May 2015, submitted).

(b) COMMUNITY BENEFITS

A report updating the Area Community Planning Group of the progress made to date with Community Benefits Clauses (CBCs) within contracts relevant to the Oban, Lorn and the Isles area, was considered.

The report advises that two contracts currently have ongoing CBCs relevant to Oban, Lorn and the Isles, and five contracts currently have CBCs that are still to be progressed, that are relevant to Oban, Lorn and the Isles.

The report also advises that due to the longer term nature of some contracts which include CBCs, which is expected due to their higher values, a number of the community benefits expected to materialise may not occur until the later stages of the contracts. Ongoing contract management will enable this to be monitored and reported on.

There was no one present from the Commissioning and Procurement Team to present this paper so the Area Governance Manager agreed to take any questions or comments back.

Decision

The Area Community Planning Group noted the contents of the report and welcomed the addition of CBCs to relevant contracts, noting the opportunity which this brings to gain added value from contracted works.
