5. STANDING ITEM: MANAGEMENT COMMITTEE UPDATE

A report informing members of the Area Community Planning Group of highlights from the Community Planning Partnership (CPP) Management Committee meeting on 24th March with particular emphasis on matters raised by the Area Community Planning Groups, was considered.

The Chair opened the meeting for questions and the following comments were made:

- Councillor McCuish advised that we need to encourage more key workers to come to Oban, Lorn and the Isles and suggested that we work closely with the Register of Social Landlords as housing was an issue Mr Bain suggested that

a working group be formed to promote why Argyll and Bute is a wonderful place to live and work. Mr Bain advised that he offers relocation packages when people apply for jobs in the High School and staffing accommodation in the hostel annex building may be used for a short period of time, until teachers can find their own accommodation.

- The Chair asked Mr Bain for an update relating to teacher numbers issue which had been discussed at the February 2016 meeting Mr Bain intimated that he was very grateful to the OLI Area Committee and the Parent Council for working closely with the High School to get more teachers for the next 12 months in the High School.
- Discussion took place on road closures and the possibility of using the backroad from Oban to Connel. It was noted that Police Scotland and the Council have looked into the back road and confirmed it is not a suitable diversion route.
- It was noted that Oban High School and the Home Care Provision are not notified of road closures around Oban and Lorn, This can have a serious impact on school children getting home from school and Home Carers visiting their next client. The Community Planning Officer agreed to contact Police Scotland and the Education Department regarding this issue and undertook to update the Group on how things have progressed.
- Eleanor MacKinnon of OLI Health and Wellbeing Network suggested that we ask the CPP Management Committee if Chairs of the Area Community Planning Group could sit on their Committee as the group feels this matter should be reviewed.

Decision

The Group:

1. Noted the response set out in section 4 of the report to issues raised by Area Community Planning Groups;

- There was concern that there was duplication and confusion with the Health and Social Care Partnership's locality plan. The group felt that there was overuse of the word "locality";
- Felt that locality plans should be about local issues and what can be achieved rather than having a plan about other plans;

- There was also concern that no resource was being made available by the Scottish Government to accompany the Community Empowerment (Scotland) Act requirements.
