
BUTE SOA WORK

1. Purpose

The purpose of this report is to provide Bute and Cowal Area Community Planning Group with information on partnership working within Bute contributing to the Single Outcome Agreement, an overview of progress on the SOA and a vision for bringing partners together in Bute.

2. Recommendations

The Community Planning Group is asked to:

- Note the activities and organisations within Bute contributing to the SOA.
- Note the need to bring groups together that would normally not have their voices heard, and the need to look at where there is a benefit of organisations and groups working together.
- Agree that in taking this forward rather than re-ignite the Bute Area Development Group and risk duplication, the key members from this work with Alliance for Action to build local capacity, strengthen resilience, increase practical outcomes and improve the wellbeing of local residents.

3. Background

There are a large number of groups in Bute, including businesses, Social Enterprises, community groups and Mount Stuart Trust. The work of some of these towards the SOA is outlined in the attached appendix. This shows that there is an increasing amount of activity taking place to secure the future of people's lives in Rothesay and Bute. However there is recognition that there are still key areas that need to be worked on and where key partners could come together.

4. Detail

Bute Area Development Group originated from Strathclyde Social Inclusion partnership with the main aim of networking and working with vulnerable groups. It was recently considered that this group may re-start to support the identified current need for networking and information sharing. Members of the main Development Group are active within thematic groups including 16+ Opportunities for All Group, the Health and Wellbeing Network and Bute Forum for Older Voices.

Within the time that Bute Area Development has not met, SURF was commissioned by Highlands & Islands Enterprise to carry out a feasibility study into establishing whether there is interest and value within Rothesay in pursuing an 'Alliance for Action'.

SURF's Alliance for Action is a collaborative activity and shared learning programme that SURF is presently coordinating in the two case study areas of Govan, Glasgow, and east Kirkcaldy, Fife. SURF is working with relevant local and national partners to:

- Build local capacity, strengthen resilience, increase practical outcomes and improve the wellbeing of local residents;
- Link local knowledge, initiatives and assets with national networks, policies and resources in support of more coordinated and holistic regeneration activity;
- Draw out transferable learning towards more successful and sustainable policy and practice in community regeneration.

To avoid duplication of purpose and prevent any confusion in the community, it would be beneficial for the former members of Bute Area Development Group to work in partnership with Alliance for Action. The Community Development Officer can play an active role in linking former members to Alliance for Action. It may be that at a future date the Bute Area Development Group is reignited, dependent upon the outcomes of the Alliance for Action project and needs identified.

5. Conclusion

Significant investment has been made by local businesses on Bute for the future of production and to secure their place in the domestic and overseas markets. Also significant investment has been made through partnership working to deliver the Rothesay Township Heritage Initiative and to secure funding for major refurbishment to Rothesay Pavilion.

Alliance for Action for Rothesay and former members of Bute Area Development could work in partnership with all businesses, Social Enterprises and community groups to build local capacity, strengthen resilience, link local knowledge, initiatives and assets with national networks, policies and resources and ultimately work towards the prevention of depopulation and creating a healthy and happy place to live.
