

---

**Development Plan Scheme – Local Development Plan 2**

---

**1.0 EXECUTIVE SUMMARY**

1.1 The main purposes of this report are to:-

- seek Council approval of the attached Development Plan Scheme (DPS), including its associated Participation Statement and governance arrangements
- obtain authority to publish the approved DPS and submit it to the Scottish Ministers.

1.2 Members will be aware we have only recently adopted the first Argyll and Bute Local Development Plan in March 2015. However, it is now necessary to begin planning for its review and replacement. The DPS attached (Appendix A) sets out the Council's programme for preparing the replacement Local Development Plan. The preparation of the DPS itself, is a requirement under the Planning Etc. (Scotland) Act 2006. There is also a requirement to update the DPS at least annually.

1.3 This is the first Development Plan Scheme setting out the programme for the replacement Local Development Plan which will be called LDP2. It sets out key milestones in the LDP2 process and how people can become engaged at those stages. It also provides a timetable that will deliver LDP2 within the required 5 year period from adoption of the current Local Development Plan. An up to date DPS and up to date local development plan are key performance indicators for the Scottish Government.

1.4 Key issues to note are:-

- the Council's statutory duty in respect of producing the Development Plan Scheme;
- the engagement proposed meets with statutory requirements and with good practice as set out in PAN 3/2010 Community Engagement;
- the proposed timetable meets with the statutory requirements, which are linked to performance indicators;
- the governance regime proposed should ensure the LDP is delivered timeously in an effective and efficient manner;
- the financial implications of the proposed reduction in resources to Development Policy unit mean that statutory minimums have been applied to some aspects of the consultation process – for example to adverts; and that increased use of innovative methods e.g. the use of on line response forms and social media are proposed to mitigate this. Printing costs for the stages and for the final Local Development Plan are not included in the proposed Development Policy budget.

1.5 It is recommended that the Council :-

- i) notes the contents of this report;
- ii) approves the proposed governance arrangements

- iii) approves the Development Plan Scheme (DPS) attached in Appendix A of this report for publication and submission to the Scottish Ministers.

## Development Plan Scheme – Local Development Plan 2

---

### 2.0 INTRODUCTION

2.1 The Planning Etc. (Scotland) Act 2006 requires each Planning Authority to prepare and keep up to date a Local Development Plan (LDP). This means preparing Local Development Plan 2 to replace the Argyll and Bute Local Development Plan, Adopted March 2015 for the area before March 2020. The process involves a number of statutory stages and significant engagement with communities, developers, key agencies, councillors and other stakeholders. The **Development Plan Scheme** sets out the timetable and consultation process for Local Development Plan 2 and is required to be prepared annually.

### 3.0 RECOMMENDATIONS

3.1 That the Council :-

- i) notes the contents of this report;
- ii) approves the proposed governance arrangements;
- iii) approves the Development Plan Scheme (DPS) attached in **Appendix A** of this report, for publication and submission to the Scottish Ministers.

### 4.0 DETAIL

#### Background

4.1 The Planning Etc. (Scotland) Act 2006 requires each Planning Authority to prepare a Local Development Plan (LDP) at least every 5 years. By March 2020 Local Development Plan 2 is required to replace the recently adopted Argyll and Bute Local Development Plan. The Act sets out the preparation process and procedures associated with the production of the Plan. Given the number of statutory phases, scale of Argyll and Bute and nature of the issues to be addressed, this process will take over 3 years to complete. The planning authority is measured on its performance in respect of an up to date Local Development Plan by the Scottish Government.

4.2 Section 20B of the Planning Etc. (Scotland) Act 2006 requires each Planning Authority to prepare a Development Plan Scheme (DPS) at least annually. The exact requirements for the content and process of the LDP and associated DPS are set out in the Town and Country Planning (Development Planning)(Scotland) Regulations 2008.

4.3 The DPS sets out the Council's programme for preparing and reviewing the

LDP and what is likely to be involved at each stage. The DPS includes a Participation Statement which details when, how and with whom consultation on the LDP will take place, and the Council's proposals for public involvement in the plan preparation process. In drawing up the DPS regard was had to the statutory requirements in terms of production of a Local Development Plan as well as to good practice as set out in Planning Advice Note 3/2010 Community Engagement. The proposed Development Plan Scheme is set out in Appendix A to this report.

- 4.4 The DPS also makes reference to the associated documents in the LDP process, which accompany the Proposed Local Development Plan to the Examination for information purposes. These include:-the Strategic Environmental Assessment draft Environmental Report (helps identify how we can implement development so that it minimises harm to the environment); the Habitat Regulation Appraisal Record (assesses where the LDP may have a significant effect on a European sites); the proposed Action Programme (contains the likely timescale and sequence of development and also actions required to deliver the plan).
- 4.5 Once this DPS has been approved by Members it is required to be published, copies placed in all public libraries within the planning authority area and 2 copies submitted to the Scottish Ministers. There is no requirement to consult on the content of the DPS.

### **Governance**

- 4.6 The timeous preparation of development plans requires rigorous and carefully planned project management, not least because of the diverse range of issues and interests involved. Planning authorities are advised by the Scottish Government to use appropriate project management techniques to avoid slippage and ensure the plan is produced on track. The governance of the LDP process is fundamental to achieving this.
- 4.7 The DPS sets out the proposed governance arrangements, which will support the delivery of LDP2 (Appendix A). The Council, as the planning authority, controls the overarching corporate management of the Local Development Plan. This is dealt with at key stages through the Council's committee procedures and at Strategic Management Team meetings. Councillors will be engaged throughout the process through Business Days, engagement sessions and 1 to 1 meetings in addition to committees. In order for LDP2 to progress efficiently and timeously through the Committee processes it is proposed that :-
- The key stages of i) the Proposed Local Development Plan consultation (setting out the Council's settled view); ii) the submission for Examination (Council's response to any outstanding objections); and iii) decision to Adopt go directly to full Council;
  - Preparatory and sub stages of i) Main Issues Report (a range of alternatives for consultation), subsequent Development Plan Scheme revisions and Action Programme revisions go to Planning, Protective Services and Licensing Committee only.

- 4.8 Given the need for integration with other Council services to deliver an effective plan a Project Board is proposed to be responsible for providing overall direction to the delivery of Local Development Plan 2. This is proposed to consist of the Development and Infrastructure Departmental Management Team plus the Heads of service from Community and Culture and Education and the Communications Officer. The project manager (LDP Team Senior Planning and Strategies Officer) is responsible for the day to day management of the delivery of the plan and team. A Communications Team is proposed to meet monthly throughout the process to deal with web and social media matters.

### **Delivery**

- 4.8 The general costs associated with the preparation of LDP2 are met from within the Development Policy budget. There are a number of proposed savings articulated through the Service Choices process that will have implications for the delivery of the Local Development Plan process. This will mean a stronger reliance on the use of e-planning services. It is proposed that consultation stages are conducted online only with assistance in libraries and at service points for those with no online facilities/capability. The proposed reduction in resources will also mean reducing some elements of the process to the statutory minimum, for example in terms of deposit locations, and adverts. The LDP2 process runs across a 4 period and therefore there is a risk that the proposal of any additional resource reductions in the future could impact adversely on the delivery of LDP2 in line with the DPS, statutory requirements and performance indicators.

## **5.0 CONCLUSION**

- 5.1 Engagement in the preparation of the LDP is a vital component in the new Planning Act. The revised DPS sets out a clear agenda for the LDP process and the associated public consultation as it progresses.

## **6.0 IMPLICATIONS**

- 6.1 Policy                      The Development Plan Scheme sets out the timetable and consultation process for the production of the new Local Development Plan 2 that will replace the current Development Plan (Argyll and Bute Local Development Plan, adopted March 2015 and associated Supplementary Guidance) in due course.
- 6.2 Financial                      The cost for preparation of the DPS is contained within the Development Policy budget. Statutory printing requirements for the stages and final LDP 2 is not contained within this budget.
- 6.3 Legal                              There is a statutory duty to approve annually, publish and submit to the Scottish Ministers a Development Plan Scheme.

- |     |                  |   |
|-----|------------------|---|
| 6.4 | HR               | None  |
| 6.5 | Equalities       | The Development Plan Scheme shows how the Local Development Plan consultation process will be handled to encourage engagement from all. An Equalities Impact Assessment will be undertaken as part of the LDP process.  |
| 6.6 | Risk             | The LDP2 process runs over 4 years and therefore (beyond the service choices reductions identified) there is an uncertainty regarding resource levels. Further reduction in resource levels would impact on delivery of the LDP and could result in failure to meet legislative requirements and Scottish Government performance targets. |
| 6.7 | Customer Service | The Development Plan Scheme sets out how our customers can get involved in the Local Development Plan process.  |

# 1 | What is a Development Plan Scheme?

---

- 1.1 This Development Plan Scheme (DPS) has been prepared to provide our communities and partners with information on our progress in updating our Local Development Plan (adopted March 2015). The Local Development Plan is the main way for showing where new development should and should not take place and for determining planning applications.
- 1.2 Whether you are a resident, landowner, developer, community representative, agent or public body your input into the process is vital. The Development Plan Scheme aims to provide you with an easy to use guide as to when, where and how you can engage in the next plan preparation process.
- 1.3 The DPS includes a timetable of when we intend to reach key stages in the process of preparing our new Local Development Plan 2 (LDP2), which will eventually replace our current adopted Local Development Plan, and also includes a Participation Statement explaining how we will engage with our communities and stakeholders. The DPS outlines:
- ◆ Why we are preparing a Local Development Plan;
  - ◆ What the process involves;
  - ◆ Who should be involved;
  - ◆ When we will undertake the stages of preparation.
- 1.4 We will update the DPS on at least an annual basis to reflect the progress of Plan preparation.

## 2 | Why are we preparing a Local Development Plan?

---

- 2.1 Argyll and Bute Council, as the planning authority for its area (excluding the Loch Lomond and the Trossachs National Park), has a statutory duty to prepare plans for guiding land use and development for up to ten years ahead. It is a requirement that these plans are kept up to date and so, the Local Development Plan is reviewed every five years post adoption.
- 2.2 Argyll and Bute Council adopted its current statutory plan to guide development in March 2015 – the Argyll and Bute Local Development Plan (Adopted March 2015). Supplementary Guidance which provides additional detail has also been prepared and sits alongside the Local Development Plan. Together these documents make up the statutory Development Plan. Since March 2015 the Local Development Plan has been the basis for providing advice on planning proposals, for guiding decision making on planning applications and for ensuring that the right development happens in the right place.
- 2.3 Under the legislation in the Planning etc (Scotland) Act 2006, it is required that we review the Local Development Plan and prepare a new one within 5 years from adoption of the current plan. The aim is that this new plan should be concise, focussed on areas of change, involve the community at an early stage and be updated regularly. Until the new Local Development Plan is adopted, the current Local Development Plan’s statutory status remains. Ministers expect LDPs to focus on their specific main proposals for the period up to year 10 from adoption.
- 2.4 The process for preparing the new Local Development Plan is just starting and will involve:-

- ◆ An assessment of all the current Allocations and Potential Development Areas to examine their effectiveness;
- ◆ A review of where major changes are occurring;
- ◆ An assessment of what we need to do to keep policies up to date and in alignment with current government policy and legislation.
- ◆ A call for and assessment of future development opportunity sites to accommodate future growth in Argyll and Bute for the next ten years, as well as giving an indication of potential into the longer term.

### **National Planning context**

- 3.1 Local Development Plans are influenced by a number of statutory requirements with the main Acts being the Town and Country Planning (Scotland Act) 1997 and the Planning etc. (Scotland) Act 2006. At the national level, the Scottish Government has prepared a National Planning Framework (NPF3) and Scottish Planning Policy (SPP) which provides the national policies and priorities for major new development. These will influence the development of the new Local Development Plan.

### **Single Outcome Agreement**

- 3.2 Local Development Plans are also influenced by a range of other plans, strategies and policies, in particular for Argyll and Bute, the [Single Outcome Agreement](#) is viewed as a “Sovereign Document”. This is prepared jointly by the Council and the other Community Planning partners and establishes the overarching policies and actions for the management of Argyll and Bute. It has an outcome focussed approach and ensures that the Community Planning Partnership’s aims are delivered in an integrated manner and aligned with Scottish Government outcomes.

- 3.3 The policies and actions with development and land use implications of the Single Outcome Agreement are reflected in the Local Development Plan (LDP). The Action Programme that has to accompany the LDP sets out how the Council proposes to implement the plan. These documents together are the drivers for change and action in Argyll and Bute and by keeping the documents updated we are able to respond to changing circumstances within the area and its communities. While the current Local Development Plan period is 2015-2020, the process to keep the Plan up to date is continual and the Single Outcome Agreement will inform the review of the current plan and preparation of the new Local Development Plan, the timetable for which is set out in this Development Plan Scheme.

### **Local Authority and its Partners**

- 3.4 Argyll and Bute Council has the statutory responsibility for planning in the Council area, excluding the Loch Lomond and the Trossachs National Park where the Park Authority controls the planning function. It is important that all the relevant services within the Council (for example Economic Development, Roads and Amenity Services and Education) are fully engaged in the plan preparation as they are integral to the delivery of the LDP2 strategy and aims. The LDP2 will also be influenced by the priorities of other stakeholders as set out in their own strategies and programmes. The stakeholders include key agencies which the Regulations have identified as Scottish Natural Heritage; Scottish Environment Protection Agency; Scottish Water; Scottish Enterprise; Highland and Islands Enterprise; Regional Transport Partnerships; Crofters Commission; and Health Boards. The Government also require the following bodies to have the same level of involvement in the development plan process: Historic Environment Scotland; Transport Scotland; Forestry Commission Scotland; Marine Scotland and any Regional Marine Planning Partnerships. Neighbouring authorities are also consulted throughout the LDP2 process.

### **Our Communities**

- 3.5 The input of local communities is very important. The aspirations of local communities are communicated in a number of ways, including through formal documents such as

### 3 | What the process of preparing a Local Development Plan involves

Community Plans. The priorities for communities influence the outcomes of the planning process. It is also important that individuals get involved in shaping the future of our area.

#### Development Sector

- 3.6 Developers, landowners, businesses and investors are all important to this process. Through land that they own and/or finance they are looking to invest or businesses which wish to grow or set up in the area. These interests are critical to realising the vision identified in the Local Development Plan.

#### Stages

- 3.7 The Local Development Plan process has a number of key stages as set out below:-

- ◆ Evidence Gathering – includes reviewing current policies, site assessment, call for sites and early engagement.
- ◆ Main Issues Report (MIR) – This is the first formal consultation. This will focus on the key areas of change since the last Local Development Plan was prepared. A range of options will be presented and comments sought. A Monitoring Report will accompany the MIR. A draft Strategic Environmental Assessment Environmental Report will also accompany the MIR to demonstrate the environmental effects of the proposals. This is the main engagement phase of the plan process and helps the Council come to a view on what should be in the plan.
- ◆ Proposed Local Development Plan 2 – having considered the comments on the MIR the Council will prepare and consult on the proposed Local Development Plan 2. The proposed Local Development Plan 2 represents the settled view of the Council. This is in two parts i) Written Statement with a strategic vision for the area and policies and proposals to help deliver this vision ii) Proposals Maps which show where the allocations and other designations are. This consultation includes neighbour notification. It is accompanied by a draft Action Programme, a revised Strategic Environmental Assessment and a Habitat Regulation Appraisal record.
- ◆ Examination – If the Council receive objections to the Proposed Local Development Plan 2 that are not resolved they will be sent to the Scottish Ministers. An Examination would then be conducted by a Scottish Government Reporter into the unresolved objections and a report produced with recommendations.
- ◆ Adoption of Local Development Plan 2 - The Council then modifies the plan as necessary, submits it to the Scottish Ministers and advertises its intention to Adopt the plan. The plan may be adopted after 28 days unless the Scottish Ministers direct otherwise.
- ◆ Action Programme - this sets out how the policies and proposals are to be delivered. It must be published by the Council within three months of adoption of Local Development Plan 2.

#### Governance

- 3.8 The preparation of Local Development Plan 2 is governed by a statutory process, the key stages of which are set out in this Development Plan Scheme. [Circular 6/2013](#) describes the development planning system in Scotland, and explains the legislative process in more

### 3 | What the process of preparing a Local Development Plan involves

---

detail. The Council, as the planning authority, controls the overarching corporate management of the Local Development Plan. This is dealt with at key stages through the Council's committee procedures and at Strategic Management Team meetings. A Project Board is responsible for providing overall direction to the delivery of Local Development Plan 2. This consists of the Development and Infrastructure Departmental Management Team plus the Head of service from Housing and Community Planning and Education. The project manager is responsible for the day to day management of the delivery of the plan and team. A communications team will meet regularly throughout the LDP2 process to ensure communications are as effective as possible.

## 4 | Where we are now

- 4.1 We are at the very start of the process having just adopted the Local Development Plan in March 2015. This was followed by publication of the Action Programme in June 2015. The first step is evidence gathering to help us prepare Local Development Plan 2. We will start this with an assessment of our current sites to retest their effectiveness. We will also be gathering information for our Monitoring Report.
- 4.2 During this time we are also helping communities take forward the first tranche of 5 pilot community based plans that will help inform Local Development Plan 2. Both Tiree and the Crinan Corridor pilots have been successful in attracting funding to run Charrettes (intensive engagement sessions with clearly defined outputs) to take forward actions in these areas. We are also engaging with other local communities such as Campbeltown who are taking forward an innovative approach to local community planning.
- 4.3 We are currently building up a contacts database of all those who require to or would like to be engaged in the Local Development Plan 2 process. If you would like to be added to this please let us know (find out how to contact us in section 8).

### **Local Development Plan 2 – Process**

*We are here  
in the process*

## 5 | The Next Steps

---

- 5.1 Once we have completed the sites review we will be engaging with our key stakeholders including developers, the local communities and the business community prior to publishing the Main Issues Report. This will include a call for future sites where we ask developers to bring forward proposals with an assessment to demonstrate the site is effective and how it can contribute to the sustainable development of Argyll and Bute.
- 5.2 Once all the base evidence has been gathered and pre MIR engagement been concluded the Council will publish and consult on the Main Issues Report as the first formal phase in the preparation of Local Development Plan 2.

## 6 | Participation Statement : how you can get involved

6.1 Community engagement is important in the Planning process and has influenced the plans policies and proposals.

6.2 At key stages we will consult:

- ◆ stakeholders/key agencies in the public sector (such as key government agencies,
- ◆ the neighbouring local authorities and Loch Lomond and the Trossachs National Park, statutory bodies, and non-governmental organisations;
- ◆ the private sector (such as business interests, landowners and developers);
- ◆ the local community including residents, Community Councils, community representatives, community organisations and other interested bodies.

6.3 We will use a variety of engagement techniques detailed in the engagement section below. We want to continue a discussion with all sectors of the community across Argyll and Bute but we are particularly keen to secure the views and opinions of young people and families with children and people in full time employment. These groups have been under-represented in the past and their involvement could help us look at new ways to achieve population retention and growth.

### Engagement

- ◆ Provide information and consultation documents through our website – [www.argyll-bute.gov.uk/ldp2](http://www.argyll-bute.gov.uk/ldp2), promoted by social media, email and letter updates
- ◆ Provide updates at key stages to those who have requested to receive updates or responded to the consultations
- ◆ Provide information through Community Councils, Council offices and local libraries
- ◆ Placing adverts in local newspapers and promoting the LDP2 process with the media
- ◆ Attend Public Meetings and other Community Meetings and Events where appropriate
- ◆ online mapping of the Proposed Local Development Plan
- ◆ Community drop-in events to be offered in key locations
- ◆ Briefing meetings to be arranged for Councillors and Government agencies
- ◆ Staff available to answer questions or provide information in person at our offices by appointment or via telephone and email
- ◆ Regular consultation updates to be provided during the consultation via blogs on our website promoted by social media
- ◆ Social media: Information feeds and sharing feedback through Facebook and Twitter
- ◆ Providing for formal comments to be submitted online
- ◆ Notify site owners / agents, tenants of proposed development sites and neighbours

## 6 | Participation Statement : how you can get involved

---

- 6.4 We will set up and maintain a mailing list of people who we regularly contact via email/post to update on the Plan progress. If you would like to be added to this please let us know (find out how to contact us in section 8).
- 6.5 Appendix 1 sets out in greater detail the stages we will go through and the estimated timescales for engagement and consultation. It provides a detailed breakdown of the Local Development Plan process, indicative timescales and the opportunity for engagement including statutory periods of consultation.
- 6.6 A significant part of the process involves community engagement. People are welcome to make representation on the Main Issues Report, Proposed Local Development Plan 2 and draft Supplementary Guidance via the on line forms; available at [www.argyll-bute.gov.uk/ldp2](http://www.argyll-bute.gov.uk/ldp2) and via the People's Network in the local libraries.

## 7 | Impact Assessment of the Local Development Plan

---

- 7.1 As we progress through the Local Development Plan process we will make information on the Strategic Environmental Assessment, Habitats Regulations Appraisal and the Equalities Impact Assessment available on line at [www.argyll-bute.gov.uk/ldp2](http://www.argyll-bute.gov.uk/ldp2)

### **Strategic Environmental Assessment**

- 7.2 The Environmental Assessment (Scotland) Act 2005 requires us to carry out a Strategic Environmental Assessment of the Local Development Plan and related Supplementary Guidance. This is a process for identifying and assessing the environmental effects of proposed strategies, plans and programmes so that these are taken into account before they are approved or adopted. It is a vital tool which places environmental considerations at the heart of decision-making process and ensures that alternatives are fully and transparently regarded before final decisions are taken.

- 7.3 We will consult with Scottish Natural Heritage, Historic Environment Scotland and the Scottish Environmental Protection Agency in preparing our Strategic Environmental Assessment. This will result in an Environmental Report. There will be opportunities for everyone to comment on this document as well as on the emerging Plan and associated draft Supplementary Guidance.

### **Habitats Regulations Appraisal**

- 7.4 We will produce a new Habitats Regulations Appraisal of the potential impacts of the proposed Local Development Plan on European Sites. This requires to be submitted to Scottish Ministers alongside the proposed Local Development Plan. There are a number of designated 'Natura' sites within Argyll and Bute and so any emerging plans and policies will have to be considered with regards to potential adverse impacts on these protected sites and species.

### **Equalities Impact Assessment**

- 7.5 Under the Equality Act 2010 (Statutory Duties) (Scotland) Regulations 2011 we will undertake an Equalities Impact Assessment of proposed policies and practices.

## 8 | How to keep up to date

---

You can keep up to date, access information on the Local Development Plan and contact the Argyll and Bute Council Local Development Plan Team by:

**Email:** [ldp@argyll-bute.gov.uk](mailto:ldp@argyll-bute.gov.uk)

**Tel:** 01546 604158

**Making an appointment** to talk to us.

Hard copies of consultations will be made available during advertised consultation periods in local libraries and the office noted above.

**Follow Local Development Plan progress at:**
