

## The Scottish Government's Vision for Community Justice

Scotland is a safer, fairer and more inclusive nation where we:-

- prevent and reduce further offending by addressing its underlying causes; and
- safely and effectively manage and support those who have committed offences to help them reintegrate into the community and realise their potential for the benefit of all citizens

### Mission Statement

We will achieve this vision by effectively implementing the Scottish Government's plans for community justice to

- deliver a decisive shift in the balance between community interventions and the use of custody; and
- improve the reintegration from custody to community

### Priorities

Extensive consultation with stakeholders has made clear that the Scottish Government's vision and mission statement will be delivered by prioritising action in the following areas

- Improved Community Understanding and Participation
- Strategic Planning and Partnership Working
- Effective Use of Evidence-Based Interventions
- Equal access to Services

### Principles

Our vision for community justice is underpinned by the following principles:-

- People must be held to account for their offences, in a way that recognises the impact on victims of crime and is mindful of risks to the public, while being proportionate and effective in preventing and reducing further offending
- Re-integrating those who have committed offences into the community and helping them to realise their potential will create a safer and fairer society for all
- Every intervention should maximise opportunities for preventing and reducing offending as early as possible, before problems escalate
- Community justice outcomes cannot be improved by one stakeholder alone. We must work in partnership to address these complex issues
- Informed communities who participate in community justice will lead to more effective services and policies with greater legitimacy
- High quality, person-centred and collaborative services should be available to address the needs of those who have committed offences, their families, and victims of crime
