**3 Did you meet the aims of the project – please give details?** (The main facts and figures about actual activities, for example the number of people the organisation or project worked with and the main activities undertaken)

The children accessed a block of swim sessions, parents came too as helpers. Some children do not regularly access this type of activity. 60 children in total accessed the swim sessions. 60 children each week accessed the gym sessions held in the Cathedral hall. This was to promote health & wellbeing in our Centre and provide an opportunity for exercise.

**4 What difference did your project make?** (This section should also include examples of how individual participants/services users experienced the project/activity -case studies/quotes can be used)

It provided new experiences for our children, including access to activities they may not be able to access with family. Our centre does not have the floor space to enable us to conduct a gym time with the freedom to run around safely in a large space. We were able to safely & easily access the woods & the seafront from the hall.

**5 Key Learning Points** Please detail any unexpected outcomes (positive and negative) including anything that would be done differently in the future.

The main positive outcome was the bonus of having the beach & woods so close by.

The only drawback was it was unsettling for our youngest members being out of routine.

**6 Do you have any comments to help us improve the grant process?**
