Dear Madam,

I refer to your email below and would like to make comment on the Planning Authority's representations as follows:

1. We disagree with their statement that a significant delay in the decision of the application was due to the request of the applicant. The application was validated on the 28<sup>th</sup> April 2015 and the decision had still not been received by the applicant on the 13<sup>th</sup> May 2016. AGL first contacted the planning authority on the 13<sup>th</sup> May 2016 and requested the decision be delayed so that they could get up to date on the applications progress.
2. In respect of our statement relating to obtaining the original information, this was not an accusation of the planning authority but a statement to the LRB that the information was not obtainable from the original agent and therefore requested that the information submitted with the application back in April 2015 be included as part of this appeal.

Our original appeal submission still stands.

Kind Regards  
Sandy
