

Argyll & Bute Health & Social Care Partnership

Community Services Committee

Agenda item :

Date of Meeting : 15th March 2018

Title of Report : **Argyll & Bute HSCP- National Health and Wellbeing Outcomes Performance Reporting Framework and Exception Reporting Arrangements**

Presented by : **Stephen Whiston, Head of Strategic Planning & Performance**

The Community Services Committee is asked to:

- Consider the HSCP performance report covering Quarter 2 and 3 in line with the current national reporting requirement
- Note the content of the IJB performance scorecard within the Pyramid System

1. Introduction

The National Health and Wellbeing Outcomes (NHWBO) provide a strategic framework for the planning and delivery of health and social care services. These suites of outcomes, together, focus on improving the experiences and quality of services for people using those services, carers and their families. These outcomes focus on improving how services are provided, as well as, the difference that integrated health and social care services should make, for individuals.

The Argyll & Bute HSCP is required to publish an Annual Performance Report which will set out how the national health and wellbeing outcomes are being improved. This will include reports on a core suite of indicators and measures, identified by the integration authority in line with guidance from the Scottish Government, and contextualising data to provide a broader picture and a rationale of local performance.

2 National Context

Currently there are 9 key National Health and Wellbeing Outcomes (NHWBO) and 23 sub-indicators which form the basis of the reporting requirement by the HSCP. The data for the 23 sub-indicators will be provided to the partnership and in addition current outstanding methodologies attached to a small number of the indicators will be finalised in order that reporting can take place. There is also an expectation that the HSCP 's will add in their own performance measures to support the 23 core indicators and currently the implementation of the carers act is one such area.

The HSCP also reports on a suite of integration performance targets as set by the Ministerial Steering Group for integration

The Ministerial Strategic Group for Health and Community Care (MSG) has agreed that for 2017/18 it will direct Integration Authorities to monitor progress across the following domains:

- Reduce unplanned (Emergency) admissions – by increasing anticipatory care activity in the community and in primary care
- 10% reduction in occupied bed days for unscheduled care (emergency);

- A&E performance;- meet the 4 hour target and reduce unnecessary attendance
- Delayed discharges – reduce the amount of time (occupied bed days) patients are delayed in hospital
- End of life care – increase the provision of patient end of life care in the community
- The balance of spend across institutional and community services by 2021 have the majority of the health budget being spent in the community

3. Pyramid Performance Scorecard

The scorecard uses a balanced scorecard design, indicators on performance are limited to either red or green, noting either on or off track against agreed targets. The Pyramid system offers scope for full management commentary in relation to establishing granularity in relation to trends/projected pathways and detail on action in hand to meet targets.

4. Performance Exception Reporting Quarters 2 and 3

The performance of the HSCP against the NHWBO indicators and Ministerial Steering Group targets for Quarter 2 and 3 is detailed in the attached report which was presented to the Integration Joint Board of the IJB at its meetings in 2017.

5 Governance Implications

5.1 Contribution to IJB Objectives

The PPMF is in line with the IJB objectives as detailed in its strategic plan.

5.2 Financial

There are a number of NHWBO indicators which support the quality and financial performance of the HSCP including productivity, value for money and efficiency.

5.3 Staff Governance

A number of indicators under outcome 8 are pertinent for staff governance purposes

5.4 Planning for Fairness:

The NHWBO indicators help provide an indication on progress in addressing health inequalities.

5.5 Risk

Ensuring timely and accurate performance information is essential to mitigate any risk to the IJB governance, performance management and accountability.

5.6 Clinical and Care Governance

A number of the NHWBO indicators support the assurance of health and care governance

5.7 Public Engagement and Communication

A number of the NHWBO indicators support user and patient experience/assessment of the HSCP services
