| Proposal Title | Allocation of additional roads budget |
| Proposal Text | <p>Scrutiny of how we are using the additional roads monies in a very strategic way as per administration policy</p> <ol style="list-style-type: none"> 1. Why you are proposing the topic. 2. What are the key questions which you would like the review to consider. 3. What would you hope the review to achieve / or what outcomes would you anticipate <p>1....roads in Argyll and Bute form a critical part of our delivery of growing our community and reversing population declinethey are also crucial to our economic strategy as an arterial lifeline for goods and services as well as tourism</p> <p>2.....do the decisions on spend reflect the points made at no 1 and can you demonstrate that and best value and practise</p> <p>3...demonstrable improvement in strategic thinking as the cornerstone in operational planning ...that we would have a delivery model that other authorities could use because it can demonstrate it works</p> <p>.....finallyI anticipate that while the monies no in play will not produce miracles.....they will achieve significant improvement quicklywhich with further when available investment begin to produce a better infrastructure model .</p> |
