Representation from Seil and Easdale Community Council

We note the submission of a review regarding 18/00355/PP The Old Coach House, Ellenabeich.

The Community Council recognises the importance of ensuring materials and developments within the Conservation Area are appropriate to this sensitive site, and often calls on the Conservation Officer to comment on applications.

However, in this particular instance we agree with the applicants that a white rendered wall would be more appropriate in the context of the existing and neighbouring properties.
