To whom it may concern

We currently reside at Altnavullin, Benderloch, from where we run a landscape gardening company. We would like to confirm that we use the sheds in question to store and maintain our equipment and machinery.

We spent considerable time looking for a suitable property with space, privacy and substantial ancillary facilities in order to facilitate the continued operation and growth of the business. It was a key consideration in renting the property from Mr & Mrs Macdonald that the use of the outbuildings were included in the tenancy agreement in line with their historical use and location within the curtilage of the property. This we were not only promised but confirmed in our tenancy agreement. We are extremely concerned that the loss of these buildings will have a serious impact on our ability to effectively run the business and could well force us to re-locate.

We trust that you will take our comments into consideration.

Yours sincerely

Stephen & Shona Bullock
