1 EXECUTIVE SUMMARY

- 1.1 The main purpose of this report is to provide a summary of the key financial risks facing the Council.
- 1.2 A number of Council wide risks, both revenue and capital have been identified along with risks for each department and service of the Council. For each departmental risk the financial impact has been quantified and the likelihood assessed based on the standard risk matrix.
- 1.3 There are 5 Council wide revenue risks identified for 2020-21 currently amounting to £3.701m. The risk in relation to the IJB referring to the Council for additional funding has been categorised as possible due to the outturn over the previous three years.
- 1.4 There are currently 40 departmental risks totalling £4.080m. One of the 40 departmental risks are categorised as likely with no risks categorised as almost certain.
- 1.5 The financial risks are monitored routinely and actions put in place to continue to mitigate the risks.

FINANCIAL RISKS ANALYSIS 2020-21

2. INTRODUCTION

- 2.1 This report outlines the process and approach developed in carrying out a financial risks analysis and provides a note of the current assessment of financial risks for 2020-21.

3 DETAIL

3.1 Introduction

- 3.1.1 The Council continues to be in a period of significant financial challenge. In developing its budget to address both restricted resources and cost and demand pressures there are a number of financial risks the Council needs to consider and manage.

- 3.1.2 There are a number of risks that affect the income or expenditure across the whole council and these have been identified. Financial risks have been considered by each department and service of the Council.

- 3.1.3 For each risk, the financial impact has been quantified and the likelihood assessed based on the standard risk matrix as follows:

- 1 – Remote
- 2 – Unlikely
- 3 – Possible
- 4 – Likely
- 5 – Almost Certain

3.2 Council Wide Risks

Revenue

- 3.2.1 The estimated level of council tax income is based on current and forecast Band D equivalents and non-payment rates. This reflects our most recent experience in terms of the council tax base and likely collection rates. A 1% variation in council tax income amounts to approximately £0.505m.

- 3.2.2 At the budget meeting on 22 February 2018, Council agreed 28 savings policy options that would deliver savings over the period 2018-19 to 2020-21. The savings to be delivered in 2020-21 equate to £1.286m. At the budget meeting on 21 February 2019, the council agreed 10 savings policy options that would deliver savings over the period 2019-20 to 2021-22. The savings to be delivered in 2020-21 equate to £0.472m. Whilst the Council have a good track record in delivering savings, a 10% shortfall on these savings targets would amount to £0.176m.

- 3.2.3 In respect of the Health and Social Care Partnership, it is the responsibility of the Chief Officer and Chief Financial Officer to manage the HSCP financial position. If an overspend is forecast, a budget recovery plan will be prepared submitted to the IJB, the Council and NHS Highland. Where recovery plans are unsuccessful and an overspend occurs at the financial year end, and there are insufficient reserves to meet the overspend, then the partners will be required to make additional payments to the HSCP. Whilst any additional payments by the Council and NHS Highland will be deducted from future years funding, there is still a financial risk that the Council may have to pay out additional monies in year. At the end of 2018-19 the Social Work overspend was £3.127m. As at 31 December 2019, the Social Work outturn in 2019-20 is estimated to be a £1.310m overspend. In quantifying the potential gap for 2020-21, an average of the Social Work overspend over the last three years has been used. This equates to £1.864m.
- 3.2.4 Utility costs remain a volatile area and it is difficult to accurately predict how the prices for utilities could vary. The outturn in respect of utilities for 2019-20 is forecast to be £0.037m underspent, however, the Council are coming to the end of some utilities contracts and therefore there is a risk that new contracts are more expensive due to rising prices. Due to the volatility of utilities pricing it is very difficult to predict any impact. The financial risk is based on a 10% variation in utility costs and amounts to £0.406m.
- 3.2.5 The Council wide risks are noted within the table below

Description	Likelihood	Assessed Financial Impact £000
1% variation in Council Tax Income	2	505
10% shortfall on Savings Options	2	176
IJB refer to Council for additional funding to deliver social work services – based on three year average Social Work overspend	3	1,864
Energy costs increase by 10% greater than anticipated	2	406
1% variation of General Inflation Risk	2	750
Total		3,701

Capital

- 3.2.6 The finance settlement announcement on 6 February 2020 provided details of the Local Government funding for 2020-21 and there is therefore certainty as to what our funding is in respect of General Capital Grant and the specific capital grants already distributed.
- 3.2.7 The capital plan for 2020-21 includes an estimate of £1.202m in respect of capital receipts. This is based on an assessment provided by the Special Projects Team

in January 2020. A 10% variation equates to £0.120m and this would require to be managed across the capital programme. There are some known liabilities/risks to the capital programme, however, as part of the budget pack, it is recommended that Council consider using the one-off loans fund reprofiling gain to mitigate these risks.

3.2.8 The capital monitoring as at the end of December is reporting an anticipated underspend on the total capital plan of £0.178m. Members will be asked to give consideration to elements of this underspend as part of the budget process which will also extend the capital programme out to 2022-23.

3.2.9 Looking beyond 2020-21, there is a potential significant risk in relation to the ban on Biodegradable Municipal Waste (BMW) being disposed of via landfill from 2025. Solutions being rolled out nationally aren't suitable here as waste quantities make the facilities practically and financially unviable. Any solution requires waste to be transported out of the area, over long distances. This risk will need to be kept under review and it is recommended that a provision is made from the loans fund one-off reprofiling gain towards this and other significant capital projects.

3.3 Departmental/Service Risks

3.3.1 Financial risks have been identified for each department and service. It should be noted that the Council have a good track record of delivering services within budget, however, there still are risks and the detail is included within Appendix 1. The following table provides a summary of the number of risks within each department and likelihood category with the financial impact.

Department	1 - Remote		2 - Unlikely		3 - Possible		4 - Likely		5 - Almost Certain		Total

The Scottish Government has committed to funding this and the Council has altered their implementation plan to align it to the Scottish Government funding profile. A risk remains that actual costs of delivery exceed the Government Grant in any given year. For example, if child numbers are higher than estimated, this may require additional staffing which has not been built into the staffing model funded by Scottish Government.
