Note By (Road and Infrastructure Services) (12/05/2020 10.37 AM)

Dear Councillor Reid,

Each bus that is operating on a local bus route currently is accessible.

Since January, Coaches have been accessible to wheelchairs using a lift system.

Coaches are used where larger capacity vehicles are required, if there is a particular route that is a concern, this is something we can look into, however we deem all our buses to be accessible with low floor buses being used where appropriate.

Kind Regards,

Amy Bruce

The Forum asks if future contracts for bus services can include low floor buses in the specification.
