

EARMARKED RESERVES – 2019-20 YEAR-END**1. EXECUTIVE SUMMARY**

- 1.1 The purpose of this report is to provide information on progress with balances already earmarked within the General Fund and new balances earmarked at the end of 2019-20 that qualify for automatic carry forward or have been previously agreed. It also presents proposals to earmark 6 new areas of unspent budget which require approval.
- 1.2 The earmarked balance in the General Fund as at 31 March 2019 was £42.936m. Of this £13.640m has been spent during 2019-20 and £0.201m will be transferred back to the General Fund. The remainder is planned to be spent in future years.
- 1.3 There are 6 new unspent budget earmarking proposals from services totalling £2.742m with business cases for approval.

Across Services	Information Management	2.1f	500
Total			2,742

- 1.4 There are a further 3 unspent budget carry forwards totalling £2.974m that have previously been agreed:
- Earmarking of £0.230m in relation to a delay in the implementation of a new employer contribution rate for teachers pensions within 2019. Due to the delay a surplus has been created in 2019-20 and it was approved that this be used to help reduce the cost in future years. £0.118m is planned to be used in 2020-21 with the remaining £0.112m to be used in 2021-22.
 - Earmarking of £2.700m in relation to a partial release of the one-off reprofiling gain as part of the Loans Fund Review. The Council approved a number of uses for the one-off reprofiling gain and 4 elements have been released and will be transferred to earmarked reserves pending expenditure. By releasing the gain,

the loans fund expenditure reduces creating the underspend. The 4 elements released are:

- £0.500m provision to support organisational change
- £0.600m redundancy provision for 2020-21
- £1.500m future redundancy provision
- £0.100m for spend to save route optimisation software.
- Earmarking of £0.044m for investment income relating to the Asset Management Fund. When the Fund was set up, it was agreed that the income should be added to it annually and this amount relates to the income for both 2018-19 and 2019-20.

1.5 There are new balances totalling £7.302m that qualify for automatic carry forward at the end of 2019-20.

1.6 The new earmarked balance as at 31 March 2020 amounts to £43.375m. The most significant elements of this balance relate to Strategic Housing Fund £7.500m, Capital Projects £7.452m, and Investment in Affordable Housing £4.000m.

EARMARKED RESERVES - 2019-20 YEAR-END

2. INTRODUCTION

2.1 The purpose of this report is to provide information on progress with balances already earmarked within the General Fund and new balances earmarked at the end of 2019-20 that qualify for automatic carry forward or have been previously agreed. It also presents proposals to earmark 6 new areas of unspent budget which require approval.

3. RECOMMENDATIONS

3.1 The Business Continuity Committee is asked to:

a) approve the revised Policy on Year End Flexibility including approval of a new category for automatic carry forward of unspent income from Hermitage Park to fund the 10 year Management and Maintenance Plan.

b) approve the 6 new unspent budget earmarked reserve proposals totalling £2.742m as supported by submitted business cases and note that there are a further 3 unspent budget earmarkings amounting to £2.974m that have been previously approved, as outlined in Appendices 2.1 and 2.2.

c) note the new balances of £7.302m at the end of 2019-20 that qualify for automatic carry-forward as outlined in Appendix 3.

d) note the previously approved unspent budget earmarked reserves of £3.483m and the justification for continuing to earmark these as outlined in Appendix 4.

e) note a total of £25.612m of automatically carried forward balances which are previously earmarked balances in addition to the new amounts earmarked from the unallocated balance as part of the budget agreed at Council on 28 February 2020, as outlined in Appendix 5.

f) note that £0.201m of no longer required earmarked balances will be released back into the General Fund.

4. DETAIL**4.1 Background**

4.1.1 The Council has previously agreed automatic earmarking of the General Fund in respect of the following situations:

- The balances in relation to the Strategic Housing Fund, CHORD and unspent budget within the Devolved Management of Resources (DMR) Scheme of Delegation for schools.

- Any unspent grants and unspent contributions from external bodies are earmarked on the basis that the monies would have to be returned/repaid if not used for the purpose intended.
- Any unspent budget that relates to existing policy commitments arising from a previous Council decision or is required to meet an existing legal commitment is earmarked.
- Any unspent funding provided by the Scottish Government to implement new legislation or government initiatives is earmarked. The funding carried forward is used solely for its intended purpose to fund the implementation of new government directions.
- Any savings generated from energy efficiency measures are carried forward in an Energy Efficiency Fund for reinvestment to further reduce the Council's energy costs and carbon emission levels.
- The Piers and Harbours Investment Fund – for additional fees and charges income generated from Piers and Harbours operation the funds will be used to meet the costs of the prudential borrowing required to develop and maintain the Council's harbour assets and infrastructure.

4.1.2 A new automatic carry forward category, referred to as Hermitage Park, for unspent income generated from Hermitage Park is proposed. The earmarked funds will be used to meet the costs of the 10 year Management and Maintenance Plan which is a condition of the Heritage Lottery Funding investment into the Park. A revised earmarking policy, including this new category, is attached as Appendix 1 for approval.

4.1.3 Outwith the situations noted above there will be no automatic carry forward of unspent budget. Earmarking of funds in relation to unspent budget and not covered by the criteria above are reported to Members for approval and supported by a business case.

4.2 New Earmarked Reserves

4.2.1 Appendix 2.1 provides detail of the new unspent budget proposals from services at the end of the 2019-20 financial year. These total £2.742m. Members are asked to review these new proposed earmarked balances together with the business cases developed by services which are included as Appendices 2.1a to 2.1f.

4.2.2 Appendix 2.2 provides detail of the new unspent budget proposals that have previously been agreed by Council in relation to teachers pensions increase, release of loans fund review one-off gain and asset management fund investment income. These total £2.974m.

4.2.3 There are new earmarked balances for the 2019-20 financial year which qualify for automatic carry forward in line with the conditions outlined in paragraphs 4.1.1. These total £7.302m and are outlined in Appendix 3.

4.3 Previously Approved Balances

4.3.1 Appendix 4 outlines the previously agreed earmarked balances of £3.483m from unspent budget with a note on the plans for use and, in some instances, further justification for why the amounts remain earmarked. An indicative spending profile has been included for each earmarked balance but these may vary as projects progress and require amendment. These balances have been scrutinised by SMT to

ensure there are clear spending plans in place and that the purpose of the earmarking is in line with Council priorities.

4.3.2 Appendix 5 outlines the £25.612m of carried forward previously approved earmarked balances, in addition to the new amounts earmarked from the unallocated balance as part of the budget at Council on 28 February 2020 and also two additional amounts agreed for 2019-20 revenue budget. These are only provided for information as they are balances which qualify for automatic carry forward or have been subject to a previous Council decision.

4.3.3 The new earmarking agreed on 28 February 2020 is summarised below:

- AITC - £0.030m
- Kintyre Recycling Limited £0.066m
- Fyne Futures £0.060m
- Rothesay Pavilion Charity - £0.750m
- To Support Capital Investment - £0.264m.
- Total - £1.170m.

4.3.4 In addition, there are amounts remaining from budget decisions made in relation to 2019-20 revenue budget. These pressures are still relevant therefore the funds have been transferred to earmarking to meet the costs expected to be incurred during 2020-21. They are:

- a cost pressure of £0.068m agreed February 2019 in relation to the production of the Local Development Plan
- a supplementary estimate of £0.024m agreed June 2019 to support an enforcement action for planning.

4.4 Balances released back to the General Fund

4.4.1 The funds totalling £0.201m that will be un-earmarked and released back into the General Fund are detailed in the paragraphs that follow.

4.4.2 A £0.001m payment in respect of International Youth Activities. This related to monies received from the British Council for the International Youth Activities programme. The project has ended, the requested amount due back to the British Council was returned and the costs borne by the service so the balance held in earmarking is not required and can be returned to the unallocated General Fund.

4.4.3 A £0.200m from Investment in Affordable Housing. This earmarked reserve provides cash backed reserves for the loans to registered social landlords and the revised balance of £4.0m reflects the balance on those loans at 31 March 2020.

4.5 General Fund Balance

4.5.1 The General Fund balance at 31 March 2019 was £49.480m. Of this £42.936m was approved by Council to be earmarked for specific purposes. The table at paragraph 4.6 summarises the movement in the earmarked balance to 31 March 2020.

4.5.2 A total of £43.375m is earmarked to be carried forward into 2020-21. The most significant elements of this balance relate to Strategic Housing Fund £7.500m, Capital Projects £7.452m, and Investment in Affordable Housing £4.000m.

4.5.3 The earmarked balances will be monitored throughout the financial year and reported to the Business Continuity Committee / Policy and Resources Committee.

5. CONCLUSION

- 5.1 A total of £0.201m of earmarked balances will be released back into the General Fund.
- 5.2 Services have submitted their new proposed unspent budget earmarked reserves balances for the 2019-20 year-end for consideration by Members together with business cases to support the requests, these proposals total £2.742m. In addition there is a further £2.974m unspent budget earmarking previously approved in relation to teachers pensions increase, release of loans fund review one-off gain and asset management fund investment income.
- 5.3 There are a number of previously approved unspent budget earmarked reserves balances where there are plans to spend in future years and these have been scrutinised by SMT to confirm there is clear justification for these to continue to be earmarked.
- 5.4 There are new balances totalling £7.302m that qualify for automatic carry forward at the end of 2019-20.

APPENDIX 1

FINANCIAL SERVICES POLICY ON END OF YEAR FLEXIBILITY

1. INTRODUCTION

- 1.1 The Local Authority Accounting Panel (LAAP) Bulletin 99 provides guidance to local authorities on the establishment and maintenance of local authority reserves and balances.
- 1.2 When reviewing their medium term financial plans and preparing annual budgets, local authorities should consider the establishment and maintenance of reserves which can be held for three main purposes:
 - A working balance to help cushion the impact of uneven cash flows and avoid unnecessary temporary borrowing – this forms part of general reserves;
 - A contingency to cushion the impact of unexpected events or emergencies – this also forms part of general reserves;
 - A means of building up funds, often referred to as earmarked reserves, to meet known or predicted requirements; earmarked reserves are accounted for separately but remain legally part of the general fund.
- 1.3 Given the tightening financial situation it is essential that the Council gives proper scrutiny to any proposal to earmark balances or carry forward funds. In particular the Council should seek to ensure funding that is carried forward is directed to and supports Council priorities in terms of corporate and service plans.
- 1.4 This note outlines the policy adopted by the Council for the earmarking and carry forward of surplus funds to future years.

2. POLICY

- 2.1 SMT agreed the nine situations where earmarking of the general fund reserve is permitted.
- 2.2 SMT agreed the protocol for use of reserves.

3. DETAIL

- 3.1 The Council hold a general fund reserve. It comprises the following elements:
 - A contingency for any unforeseen events or emergencies. The contingency is reviewed each year as part of the budget process.
 - The Strategic Housing Fund.
 - Balances held to support the following year's budget.
 - Earmarked funds as noted below.

APPENDIX 1

FINANCIAL SERVICES POLICY ON END OF YEAR FLEXIBILITY

- 3.2 At the end of each financial year any surplus for the year is added to the general fund reserve. At this time the Council have the opportunity to consider earmarking surplus funds.
- 3.3 There are nine situations where earmarking of the general fund reserve is permitted.
- Unspent grant. On some occasions a grant is received in one financial year and will not be spent/fully spent until the following financial year. If the grant is not spent on the purpose intended the Council would have to return the unspent grant, therefore, the unspent grant is required to be held in the general fund and earmarked for that purpose next year.
 - Unspent third party contribution. The council may receive a contribution from third parties towards a project/work stream but the project spans more than one financial year. As with grant payments the contribution would have to be repaid if not spent on the purpose it was intended for. In this instance, the unspent contribution is required to be held in the general fund and earmarked for that purpose next year.
 - Unspent budget within the Devolved Management of Resources (DMR) Scheme of Delegation for schools. This allows for the carry forward of unspent budget within schools, partly to give flexibility over the school year as opposed to the Council's financial year. Unspent budget is required to be held in the general fund and earmarked for the school next year. This carry forward operates within the agreed scheme of delegation for school budgets.
 - CHORD funding. Any budget allocated to the CHORD programme will be ring fenced and any unspent balance at the year-end will be carried forward to support the overall CHORD programme.
 - Existing Legal Commitments.
 - Scottish Government Initiatives. The council may receive additional funding from the Scottish Government to implement new Government initiatives or legislation. Any unspent funding at year end will be held in the general fund and earmarked for that purpose next year.
 - Energy Efficiency Fund. Any savings generated from energy efficiency measures are to be pooled for reinvestment in additional projects which further reduce the Council's energy costs and carbon emission levels.

APPENDIX 1

FINANCIAL SERVICES POLICY ON END OF YEAR FLEXIBILITY

- Piers and Harbours Investment Fund. Additional fees and charges income generated from Piers and Harbours operations are to be pooled and used to meet the costs of the prudential borrowing required to develop and maintain the Council's harbour assets and infrastructure.
 - Hermitage Park. The Hermitage Park regeneration project has a significant investment from the Heritage Lottery Fund (HLF) which has a requirement to have a 10 year Management and Maintenance Plan. This will be partly funded by existing Council revenue budgets but should also be supplemented by any additional income which can be generated from park activities. Part of the HLF conditions are that all income generated by the park should be retained to support the Management and Maintenance Plan and a result of this requirement, it is proposed that an automatic earmarking be agreed so that any unspent income generated by the park can be retained for future years requirements.
- 3.4 Outwith these nine situations noted above there will be no automatic carry forward of unspent budget. Any surplus arising from unspent budget within departments/services will be pooled and transferred into the general fund reserve.
- 4. PROTOCOL FOR USE OF RESERVES**
- 4.1 There are exceptional circumstances where a proposal to earmark unspent budget may be considered. There is no set timetable for this.
- The Council's level of general reserve contingency must be fully met.
 - The purpose for the earmarking must be linked to the objectives, priorities and targets as set out in the Council's Corporate Plan, Area Plans and Service Plans.
 - There needs to be a business case that justifies the required expenditure.
 - Consideration of the business case must take account of the future budgetary and financial outlook in order not to place undue financial pressure on the Council in the future.
- 4.2 Any requests to earmark unspent budget based on the criteria above must be submitted to the SMT in the first instance. SMT would assess the proposal and if it considers the proposal worthy of support would submit it to the Council with a recommendation. Proposals not supported by SMT will proceed no further.

REPORT BY EXECUTIVE DIRECTOR DOUGLAS HENDRY

25 JUNE 2020

PROPOSAL TO EARMARK FUNDS FROM GENERAL FUND RESERVE
PROVISION OF MOBILE CATERING VANS

1. INTRODUCTION

1.1 The purpose of this report is to request support in earmarking unspent budget for a specific purpose, in line with the Policy on End of Year Flexibility.

2. DETAIL

2.1 Initiative/Proposal

2.1.1 It is proposed that £68,950 be earmarked from the revenue budget underspend within Commercial Services in 2019-20 to fund the purchase of two mobile catering vans.

2.2 Business Case

2.2.1 Purchase of two mobile catering vans that can be used for the provision of school meals, lunches for council workers and refreshments at a range of community events. Due to the unique rural character of Argyll and Bute the van will act as a means of effective travel between several locations.

2.2.2 Income will be generated from using these vans, and forms part of the Catering and Cleaning Innovations Project. Previous reports outlining this project have been presented to the Council's Transformation Board at regular intervals.

2.2.3 The order for both mobile catering vans was placed with Vantastec on 26 February 2020 and the manufacture process is currently underway with payment due on receipt of the completed vans.

2.3 Expenditure Profile

The sum of £68,590 will be spent from 2020/21 onwards.

PROPOSAL TO EARMARK FUNDS FROM GENERAL FUND RESERVE

SITE INVESTIGATION WORKS

1. INTRODUCTION

1.1 The purpose of this report is to request support in earmarking unspent budget for a specific purpose, in line with the Policy on End of Year Flexibility.

2. DETAIL

2.1 Initiative/Proposal

2.1.1 It is proposed that £40,211 be earmarked from the revenue budget underspend within Commercial Services in 2019-20 in order to conduct SPS survey works on Tweeddale Street Car Park, Oban and Oban Airport Business Park to explore potential commercial opportunities to develop the sites and gain revenue income for Argyll and Bute Council.

2.2 Business Case

2.2.1 As part of the One Council property approach, Estates and Property Development have been working with developers to assess the viability of a number of potential development sites around Oban.

2.2.2 During marketing and negotiations in relation to the car parks in Oban and the Oban Airport Business Park concerns were raised about the ground conditions and the uncertainty of the costs of development. Accordingly HUB North were instructed to procure contractors to undertake site investigations and the works commenced in March 2020.

2.2.3 As the works will cross into 2020/21 it is requested that the funds are earmarked in order that payment can be made to the contractors on satisfactory completion of the works.

2.3 Expenditure Profile

The sum of £40,211 will be spent from 2020/21 onwards.

PROPOSAL TO EARMARK FUNDS FROM GENERAL FUND RESERVE**SKYPE FOR BUSINESS FOR EDUCATION**

1. INTRODUCTION

1.1 The purpose of this report is to request support in earmarking unspent budget for a specific purpose, in line with the Policy on End of Year Flexibility.

2. DETAIL**2.1 Initiative/Proposal**

2.1.1 It is proposed that £138,325 be earmarked from the revenue budget underspend in 2019-20 to fund the initial capital costs for the implementation of Skype for Business for Education (SfB).

2.1.2 The key outcomes for schools which Education could pursue through SfB are to:

- Improve Staff Collaboration
- Modernise School Telephony

Both the above have the potential to transform how Education delivers its future service more efficiently and cost effectively and will bring the Education Service in line with other council departments.

2.2 Business Case

2.2.1 The Education Service was not part of the original roll out of Skype for Business (then Microsoft Lync) across Council services. The benefits of the system have been clearly demonstrated over a number of years, and Skype for Business has performed an important role in the Council being able to operate on a virtual basis during Coronavirus.

2.2.2 With ongoing cost pressures, the need to reduce cost of travel and recruitment and encourage staff retention; streamlining individual schools' legacy phone systems into a centrally managed, cost effective, futureproofed, digital solution across the entire council will offer economies of scale in infrastructure support and maintenance, whilst optimising business efficiencies through collaborative tools and transformational technology.

2.2.3 The Education Service Management Team and Education Technology Strategy Group have considered the benefits obtained to date from a small pilot project and

Appendix 2.1c

have concluded that SfB would support the wider education transformation objectives and vision of achieving ambition, excellence and equality for all.

The following objectives are achievable and have been evidenced during the pilot:

- Opportunities for stronger collaboration and resource sharing between schools, amongst Northern Alliance authorities and other external organisations
- Closer integration between ABC education officers and schools admin and teaching staff through unified communication tools.
- Used successfully for interviewing candidates for remote school vacancies.
- Consistency and ease of communication between corporate services and schools.
- Delivery of remote teaching from other schools and third party providers
- Support delivery of a broader range of CLPL courses and materials to teachers.
- Savings in call usage of up to £1000 per school per annum where Skype is the only telephony system used.
- Opportunity for potential reduction in the use of supply teachers.
- A reduction in travel and accommodation expenses.

2.2.4 The initial capital cost of £138,325 is the cost of room based handsets and headsets for c. 1800 staff.

2.2.5 The project and business outcomes also align well with the Council's ICT and Digital Strategy 2017-20, in terms of service design principles, and the strategy's vision for ICT to work with all council departments to help them use ICT to achieve empowerment from design stage through to delivery.

2.3 Expenditure Profile

2.3.1 The sum of £138,325 will be spent in 2020/21 to purchase the equipment required to enable the implementation of Skype for Education.

2.0 DETAIL

2.1 Initiative/Proposal

- 2.1.1 The proposal relates to the purchase of 21 new parking machines, to be situated at Luss and Arrochar Car parks and selected on and off street parking locations in Oban Town Centre.
- 2.1.2 A procurement exercise was carried out and a contract awarded to International Parking Systems UK Ltd in 2019/20 for delivery and installation of parking machines. The contract was due to be fulfilled by 31st March 2020.

2.2 Business Case

- 2.2.1 We have a commitment to upgrade our existing parking meter stock across the whole council area to allow cashless payments to be made, in line with other local authorities.
- 2.2.2 As a result of the delay to deliver the parking machines caused by the Covid-19 lockdown, there has been an underspend in the parking revenue budget.
- 2.2.3 The contract award value is £121,695. It is proposed that this cost is met by carrying forward unspent budget, to be retained for this specific purpose in 2020/21.

2.3 Expenditure Profile

- 2.3.1 The delivery of the parking machines as per the contract award was delayed due to the current COVID-19 pandemic. It is anticipated however that these will be received and installed during 2020/21 as operations return to normal.

PROPOSAL TO EARMARK FUNDS – ADDITIONAL LOANS FUND SAVINGS

1.0 INTRODUCTION

- 1.1 The purpose of this report is to request support in earmarking unspent budget for a specific purpose, in line with the policy on year end flexibility.

2.0 DETAIL**2.1 Initiative/Proposal**

- 2.1.1 The proposal relates to the earmarking of additional loans fund savings within 2019-20 amounting to £1.873m to be used to support the gap in the capital programme.

2.2 Business Case

- 2.2.1 A Loans Fund review was undertaken in 2019-20 and the Council agreed to the revisions to the Loans Fund that created loans fund savings in 2019-20 and in future years in addition to a one-off reprofiling gain that has been earmarked for a number of specific purposes.
- 2.2.2 Following the review of the position at the year end, there are three additional areas that give rise to savings within 2019-20 and it is recommended that this amount is earmarked to support the £5.234m gap in the capital programme that was reported to both the Council at the meeting on 27 February and to the Business Continuity Committee on 14 May 2020
- 2.2.3 The treasury management team have been very successful in investing the Council's cash balances and achieved an average return on investment of 0.94% during the year which compares to a benchmarked return of 0.534%. Due to slippage in the capital programme and also reducing interest rates, the cost of borrowing was also lower than anticipated. As a result, there is an underspend on the loans fund amounting to £1.174m.
- 2.2.4 As part of the Loans Fund review it was agreed that all previous prudential borrowing arrangements would be included within the re-calculation of the loans fund (with the exception of vehicles and the 10 year harbour investment programme). Two prudential borrowing arrangements not accounted for as part of the Loans Fund review, due to differing accounting treatment to others, have been highlighted as part of the year-end process.
- 2.2.5 The first is in relation to Feed in Tariff income in relation to alternative energy solutions that was transferred to repay borrowing – this is no longer required and creates an underspend of £0.384m within 2019-20. This will be recurring at a level

Appendix 2.1e

still to be calculated, although part of this has already been agreed as a saving from 2020-21.

- 2.2.6 The second is in relation to Piers and Harbours infrastructure income that was used to pay historical borrowing – this is no longer required and creates an underspend of £0.315m in 2019-20. This income is extremely volatile and will be impacted by COVID-19 in 2020-21, however, officers will give consideration as to whether there is any element that could be accounted for as recurring and used towards the 10 year harbour investment programme.

2.3 **Expenditure Profile**

It is anticipated that this earmarking will be used within the capital programme in 2020-21.

PROPOSAL TO EARMARK FUNDS FROM GENERAL FUND RESERVE**INFORMATION MANAGEMENT**

1. INTRODUCTION

- 1.1 The purpose of this report is to request support in earmarking unspent budget for a specific purpose, in line with the Policy on End of Year Flexibility.

2. DETAIL**2.1 Initiative/Proposal**

- 2.1.1 It is proposed that £500,000 be earmarked from the revenue budget underspend within 2019-20 to a number of initiatives in respect of improving the Council's information management.

- 2.2.1 In line with the transformation agenda and increasing the pace of change, as outlined in the BV review, it is proposed that £500,000 is set aside towards information management initiatives. This funding has the potential to create more efficient document management arrangements which is even more necessary now that home working is likely to continue for some time to come or in some cases be the preferred option for some posts.

- 2.2.2 Individual services have raised specific opportunities and these are outlined below and in addition to these the balance of the £500,000 earmarking will create further opportunity to explore solutions in a strategic and coherent way.

2.2.3 Estates Survey Work - £121,538

Property data forms the basis of asset management, valuation, reporting and analysis across the whole of the council's property portfolio. The foundation of this is an accurate assessment of the area of the properties from electronic floor plans.

To improve the current position it is proposed to instruct a number of surveys of key buildings to provide accurate electronic floor plans and areas together with other relevant property related information. The outcome of this exercise will be the provision of Intelligent CAD Floor Plans fully capable of being uploaded directly into the Concerto Property Management System

2.2.4 Digitalisation of Title Deeds - £92,000

The title deeds for all Council owned land and buildings are stored in the title safe located at Kilmory. There are several indexing systems in use and the descriptions of some properties are considerably out of date. This means that locating and identifying

Appendix 2.1f

the relevant deeds for a particular property can be time consuming and challenging. It can also be the case that some of the prior writs relating to a specific property are missing and copies require to be obtained from Register House.

The Council's Property Services operate a single integrated property management system (Concerto) which was brought in to replace a number of independent databases which were in use across various locations. It provides a "one-stop shop" for all information relating to the Council's property portfolio and covers matters such as asset management, condition surveys, invoice management, statutory maintenance scheduling and capital projects. There are 985 properties listed on the system and each have a unique property reference number.

The one area of information currently absent from this system are the title deeds relating to each of the properties. The intention would be to utilise a module on the Concerto system and scan the relevant title deeds (including prior writs) for each of the 985 properties. The details of each property including its description, address and unique reference number would then be reflected within a single indexing system which would be compiled in respect of the original title deeds retained at Kilmory.

The identified sum of £92,000 relates to costings for staff resources to undertake the project including backfilling where necessary, IT costs and estimated costs for obtaining replacement copies of writs and plans that are missing.

The project and business outcomes also align well with the Legal And Regulatory Support Service Improvement Plan, in terms of commitment to improve efficiency and customer service through improved access to information with regards to the titles held for Council property to accord with Council UPRN and digitisation to create quicker access to title information.

2.2.5 **Document Management and Workflow System for Planning, Building Standards and Environmental Health - £76,618**

The key business applications used within PRS were procured more than 16 years ago and comprise the IDOX Uniform case management system and a separate electronic document management and workflow system (eDMWS) from Civica Ltd. This legacy solution, whilst partially integrated at strategic points, is inflexible, becoming less fit for purpose, and is expensive to maintain as separate entities. The opportunity cost is also increasing through loss of potential to deliver a more efficient, streamlined and fully integrated solution to underpin the service's aspirations for digital transformation, mobile working and to continue to meet and exceed its business objectives.

The proposal is to retain the Idox Uniform case management application, but migrate from the corporate Civica eDMWS to the fully integrated IDOX eDMWS. £76,818 is required comprising £46,818 for the IDOX eDMWS and an estimated £30,000 for data extraction services.

2.2.6 **Balance for Further Opportunities – £209,844**

The balance of funding will create further opportunity to explore information management solutions in a strategic and coherent way. The need for more staff to work at home makes information management even more important. Areas to explore would be storage of information including GDPR requirements, data analysis,

Appendix 2.1f

improving processes and documents and interfacing/communications between systems.

005	Commercial Services	Energy Efficiency Fund	81,634	Energy Efficiency Fund	The Central Energy Efficiency Fund (CEEF) was launched by the Scottish Government in 2004 to support the delivery of energy efficiency and renewable energy measures to reduce carbon emissions in the Scottish Public Sector. The original Council allocation of funding was £286k and there were terms and conditions attached to the funding which included formally reporting to the SG on energy efficient measures implemented from the fund. Part of the stipulation of the funding was that any savings from energy efficiencies were reinvested into the fund in order that there was a revolving fund to continually reinvest in energy efficiency measures. The terms and conditions attached to the fund expired on 31 March 2016, however there is an expectation that local authorities will maintain a revolving energy efficiency fund to support future carbon reducing projects. Maintaining this fund also assists the Council to make progress towards reducing carbon emissions and therefore not only to secure savings in energy costs but also in the cost of Carbon Reduction Scheme Allowances.	81,634	0	0

006	Commercial Services	One Council Property Team	181,445	0	0	0	181,445	Previous Council Decision - Other		The Council agreed to make provision to meet the cost of funding 3 new posts within the One council Property Team. It was agreed that £260,000 be earmarked from the favourable 2017-18 outturn position to fund these posts until they became self-financing. The balance of this earmarking for the sum of £181,445 is still required for 2020/21.
007	Commercial Services	Energy Efficiency Fund	136,717	0	0	0	136,717	Energy Efficiency Fund		The Central Energy Efficiency Fund (CEEF) was launched by the Scottish Government in 2004 to support the delivery of energy efficiency and renewable energy measures to reduce carbon emissions in the Scottish Public Sector. The original Council allocation of funding was £286k and there were terms and conditions attached to the funding which included formally reporting to the SG on energy efficient measures implemented from the fund. Part of the stipulation of the funding was that any savings from energy efficiencies were reinvested into the fund in order that there was a revolving fund to continually reinvest in energy efficiency measures. The terms and conditions attached to the fund expired on 31 March 2016, however there is an expectation that local authorities will maintain a revolving energy efficiency fund to support future carbon reducing projects. Maintaining this fund also assists the Council to make progress towards reducing carbon emissions and therefore not only to secure savings in energy costs but also in the cost of Carbon Reduction Scheme Allowances.
