

AREA SCORECARD FQ1 and FQ2 2020-21

1 Background

- 1.1 Due to operating impacts of Covid-19 it was agreed to defer the regular reporting of performance to the Area Committees. As the Council is now in the recovery phase this paper presents the Area Report and Scorecard for the first two Financial Quarters in 2020/21 (April-June 2020 and July-September 2020) and illustrates the agreed performance measures.
- 1.2 A summary of all the measures is included at the start of the report. The summary provides an overview of the number of measures and how many are Red, Amber, Green or No Target.
- 1.3 As previously agreed individual car park income will be reported to the Area Committee.

Due to the total number of car parks Council wide individual car park measures have not been built in Pyramid however, they are presented individually in the attached Performance Report.

Presenting the information in this manner enables the Area Committee to view performance while ensuring any additional officer workload is kept to a minimum.

It is proposed that the Area Committee agree to this practice going forward.

The measure is in a consistent format for the Council and all 4 administrative areas and continues to have commentary at both Area and Council wide levels. There are no 'trend' arrows for the car park income as it is a cumulative total.

- 1.4 Also as previously agreed the Positive Destinations measure has been replaced with the following Participation measure –

The proportion of 16 – 19 year olds participating in a positive destination (Education, Training or Employment.)

This information is now displayed on the Scorecard at both Council wide and Area level.

- 1.5 Regular updates for both Primary and Secondary School inspections are presented separately to the Area Committee. The measures in Pyramid and subsequently the Area Scorecard sees little or no change on a quarter to quarter basis.

It is proposed that the Area Committee agree to the removal of both these measures from the Area Scorecard and Performance Report.

- 1.6 To improve the response to performance queries, it is requested that either the Responsible Named Officer or Sonya Thomas are contacted once the Quarterly Performance Report is received with any queries. This should enable some queries being resolved or clarified prior to the Area Committee meeting, and therefore being carried forward as Actions at a subsequent meeting.
- 1.7 A short key to symbols / layout is attached (Appendix 1).
- 1.8 An illustration of how the Business Outcomes align to the Corporate Outcomes is attached. (Appendix 2).

2 Recommendations

- 2.1 It is recommended that the Area Committee –
 - a) Notes the performance presented on the Scorecard and supporting commentary.
 - b) Upon receipt of the Quarterly Performance Report the Area Committee contact either the Responsible Named Officer or Sonya Thomas with any queries.
 - c) Agree to the proposed presentation of Car Park Income
 - d) Agree to the removal of both Primary and Secondary School Inspection measures.
 - e) Note that work is ongoing and to respond to Sonya Thomas with requests or comments regarding the layout and format of the Performance Report and Scorecard.

PERFORMANCE REPORTS – KEYS TO SYMBOLS

WORD REPORT

STATUS SYMBOL

- This is colour coded and indicates if the performance is good – Green; or off track – Red

TREND ARROW

- This indicates the trend of the performance between the last two periods

NAME IN BRACKETS (StreetScene)

- This indicates not only where in Pyramid you can find the data but also what team in the council deals with this element of performance

GREY SUCCESS MEASURE

- This indicates that the performance measure is a council-wide one

WHITE SUCCESS MEASURE

- This indicates that the performance measure is a local area one

ON GRAPHS IN PYRAMID

GREEN

- Performance is positively within desired parameters / meeting target / positively exceeding target

RED

- Performance is negatively out-with desired parameters / not meeting target / negatively exceeding target

KEY

- There is a key / explanation to each graph indicating Target / Actual / Benchmark alongside each graph

THE SCORECARD

- This is a plain summary of the success measures
- It mirrors the word report – BUT without commentary / names / teams
- It is simply a picture

The only exception to this was in H&L, which is in reasonable travel distance from the central belt. Even so, only limited enforcement was carried out in this area. Within H&L, Luss and both Arrochar off-street car parks were closed. FQ2 saw an uptick in traffic figures, with visitor numbers increasing particularly in both Luss and Arrochar. Due to the visitor number in these villages and as a result of the TTRO in place in Luss, additional resource from was directed to H&L to assist. As a result, the number of PCNs issued in H&L was up circa 380% compared to FQ2 2019/20. Although the other areas are down compared to the same quarter in 2020/21, overall PCN numbers are up.</p> |

The Warden service will continue with their efforts to deal with this issue and will continue to engage with all partners in an attempt to deal with this problem. |
| | | | | | | | | FQ1 2020/21 B&C There has been a significant reduction in the number of dog fouling complaints within the Bute and Cowal area over the FQ1 period, with a total of 11 complaints compared to 23 the previous period. |
| Dog fouling - total number of complaints A&B (StreetScene) | ● | ⇓ | 78 | 28 | 78 | 49 | Tom Murphy | FQ2 2020/21 A&B Unfortunately there has been an increase in the number of dog fouling complaints for the months of July, August and September. This is unacceptable and the service will arrange for additional patrols when resource permits. This could be due to a number of reasons, poor dog ownership or the reduction in the number of Amenity Enforcement Wardens. The service is aware of the public's perception on this. |
| | | | | | | | | FQ1 2020/21 A&B There has been a significant reduction in the number of dog fouling complaints over the whole of Argyll and Bute for the 1st Quarter. This is very encouraging and could be down to the Amenity Enforcement Wardens arranging additional patrols when resources permitted. This will continue to be monitored as the service is aware of the public's perception of this. |

Whilst performance on all average determination time period indicators was largely maintained during FQ1 it is noted that this was based upon the determination of a much reduced number of applications. Whilst FQ1 gave rise to a number of challenges including loss of office accommodation and a requirement to rebuild a number of service critical processes, including mail handling arrangements, these were in the main, addressed efficiently during the first few weeks of lockdown and allowed determination of applications that were already at an advanced stage, without significant delay being incurred. What is not evident within the FQ1 performance indicator however is that new planning applications continued to be submitted at almost 80% of normal volume throughout the 'lockdown' period. It was not possible to progress these beyond initial validation due to restrictions on travel/engagement which prevented necessary site visit activity being undertaken to complete the professional assessment of applications, and to comply with procedural requirements for posting of site notices. Restrictions on essential travel were lifted during June, and planning application site visits to unoccupied sites resumed on 29th June 2020 following the development and roll out of new protocols and safe systems of work, and deployment of tablets to allow officers to operate on site without hardcopies of planning application files. Site visits to occupied sites including commercial premises and external areas of domestic premises resumed on 27th July 2020. FQ2 has seen a return to determination of planning applications at 'normal' volume, however a significant proportion of these applications have been subject to delays of up to 3 months as a result of 'lockdown' and, notwithstanding the significant effort of officers, their progression to determination has resulted in a significant increase to the average determination period.</p> |

Reductions to staffing levels within the Development Management Service has reduced the resilience of the Service to As a consequence, the implications of the 'lockdown' period will have an extended impact upon performance for as long as the volume of applications awaiting determination exceeds the 'normal' capacity of the Service, and will be exacerbated by any period of extended staff absence during a period where this is potentially a higher risk of occurrence as a result of Covid-19/stress, or vacancies which arise during the upcoming period.</p> |

| Street lighting - B&C percentage of faults repaired within 10 days (Street Lighting - Maintenance) | ● | ↓ | 75% | 87% | 75% | 48% | Hugh O'Neill | FQ2 2020/21 B&C Performance figures affected by the legacy of Covid - 19 shutdown. Resumption of activities in June / July was further disrupted due to sickness absence of, one of two Street Lighting Electricians. The electrician based in Dunoon for B&C and H&L also had to cover "emergency repairs" in OLI / MAKI where practicable. There is still a further issue related to miss-allocation of "dark lamps" when requests of service are entered from the public, as generally the faults are related to power supply or defective cabling which requires additional support from contractors and PU suppliers to rectify. This takes longer than the 10 day target for a purely "dark lamp" repair. |

There is still a further issue related to miss-allocation of "dark lamps" when requests of service are entered from the public, as generally the faults are related to power supply or defective cabling which requires additional support from contractors and PU suppliers to rectify. The Street Lighting team should be back to capacity in FQ3. Discussions are ongoing to look at solutions to ensure the Street Lighting team have the resources necessary to carry out repairs. |
| | | | | | | | | FQ1 2020/21 A&B Street Lighting works resumed on an emergency basis only – from Mid-May onwards, having entered lockdown 23rd March. There was a backlog in faults which meant that some dark lamps recoded as completed May / June related to those reported in March. These were therefore out with target times by a considerable amount. The capabilities of the service were further hampered later in June, due to the sickness absence (non-Covid related). |

| Total number of Complaints regarding Waste Collection - B&C Cowal (Streetscene B&C) | | ↑ | No Target | 4 | No Target | 3 | Tom Murphy | FQ2 2020/21 B&C Cowal There were only 3 waste collection complaints received in Cowal for the FQ2 period. This again is a very good level of service considering the number of domestic and commercial properties serviced. |
| | | | | | | | | FQ1 2020/21 B&C Cowal There were only 4 complaints received in Cowal regarding waste collection in the FQ1 period. This again is a very good level of service considering the number of domestic and commercial properties serviced. |
| Total number of Complaints regarding Waste Collection - A&B (StreetScene) | | ↑ | No Target | 25 | No Target | 10 | Tom Murphy | FQ2 2020/21 A&B The number of waste collection complaints for the months of July, August and September has significantly reduced again from the previous quarter with only 10 complaints. This is an excellent level of service. In general terms all collections were carried out although in some areas they may have been a day or so late due to breakdowns. Where collections were running late, this information was posted on the Council's web page to inform the public. |
| | | | | | | | | FQ1 2020/21 A&B The number of waste collection complaints in FQ1 has dramatically reduced from the previous quarter from 74 to 25. Given the changes in services due to Covid-19 this is very good. All information regarding uplift days was posted on the Council web page and any delayed uplifts were passed to the Customer from the Customer Contact Centre advising of the amended uplift date. Where collections were running late the information was also posted on the web page to inform the public of the alterations to collections days. |
