

Basecamp

Area Community Planning Groups – February 2021

What is it?

- Online website which allows all members of the Area Community Planning Group to:
 - Access relevant documents relating to the ACPG
 - Provide information on action points arising from the meetings or action plans
 - Share information about relevant items of interest with other members
 - Better network with other ACPG members inbetween meetings

Why should I get involved?

- Requested by members
- Enhanced way of working together – especially as we can't meet in person at the moment to do that important face to face networking
- If meeting attendance is problematic then updates can be provided in advance
- We are one big team – this is our team space!

Next steps

- Demonstration at ACPG meeting
- Who is right person in your organisation to be on Basecamp, provide updates and get involved?
- Joining email will be sent out following meeting
- Try it!
- For those who are not able to access Basecamp for whatever reason, all important information will continue to be sent out via email to ensure no-one misses out
