

AREA SCORECARD FQ3 2020/21

1 Background

- 1.1 This paper presents the Area Report and Scorecard for Financial Quarter 3 2020/21 (October-December 2020) and illustrates the agreed performance measures.
- 1.2 A summary of all the measures is included at the start of the report. The summary provides an overview of the number of measures and how many are Red, Amber, Green or No Target.
- 1.3 To improve the response to performance queries, it is requested that either the Responsible Named Officer or Sonya Thomas are contacted once the Quarterly Performance Report is received with any queries. This should enable some queries being resolved or clarified prior to the Area Committee meeting, and therefore being carried forward as Actions at a subsequent meeting.
- 1.4 A short key to symbols / layout is attached (Appendix 1).
- 1.5 An illustration of how the Business Outcomes align to the Corporate Outcomes is attached. (Appendix 2).

2 Recommendations

- 2.1 It is recommended that the Area Committee –
- a) Notes the performance presented on the Scorecard and supporting commentary.
 - b) Upon receipt of the Quarterly Performance Report the Area Committee contact either the Responsible Named Officer or Sonya Thomas with any queries.
 - c) Note that work is ongoing and to respond to Sonya Thomas with requests or comments regarding the layout and format of the Performance Report and Scorecard.

PERFORMANCE REPORTS – KEYS TO SYMBOLS

WORD REPORT

STATUS SYMBOL

- This is colour coded and indicates if the performance is good – Green; or off track – Red

TREND ARROW

- This indicates the trend of the performance between the last two periods

NAME IN BRACKETS (StreetScene)

- The indicates not only where in Pyramid you can find the data but also what team in the council deals with this element of performance

GREY SUCCESS MEASURE

- This indicates that the performance measure is a council-wide one

WHITE SUCCESS MEASURE

- This indicates that the performance measure is a local area one

ON GRAPHS IN PYRAMID

GREEN

- Performance is positively within desired parameters / meeting target / positively exceeding target

RED

- Performance is negatively out-with desired parameters / not meeting target / negatively exceeding target

KEY

- There is a key / explanation to each graph indicating Target / Actual / Benchmark alongside each graph

THE SCORECARD

- This is a plain summary of the success measures
- It mirrors the word report – BUT without commentary / names / teams
- It is simply a picture

Unfortunately, the latest lockdown measures may have further implications for delivery of the programme in the next quarter and is likely to affect the annual output targets for 2020/21, as anticipated.
								FQ2 2020/21 B&C 28 units in total were delivered during Quarter 2 Lorn - West Highland Housing Association delivered 10 units at Barcaldine, (4 NSSE & 6 social rent) in August; ACHA - delivered the final 12 units at Glenshellach, Lorn in August; Bute & Cowal - ACHA completed 1 refurb in Dunoon, Mid Argyll - ACHA delivered 5 units at Cairnbaan. This is a remarkable achievement considering the complications and delays resulting from the Covid-19 pandemic. The annual SHIP update projects 137 completions by 31/03/21 against a target of 75.

								FQ1 & FQ2 2020/21 A&B During FQ1 while national travel restrictions were in place, enforcement activities were reduced significantly, effectively stood down across the Council area. The only exception to this was in H&L, which is in reasonable travel distance from the central belt. Even so, only limited enforcement was carried out in this area. Within H&L, Luss and both Arrochar off-street car parks were closed. FQ2 saw an uptick in traffic figures, with visitor numbers increasing particularly in both Luss and Arrochar. Due to the visitor number in these villages and as a result of the TTRO in place in Luss, additional resource from was directed to H&L to assist. As a result, the number of PCNs issued in H&L was up circa 380% compared to FQ2 2019/20. Although the other areas are down compared to the same quarter in 2020/21, overall PCN numbers are up.

Dog fouling - total number of complaints B&C (Streetscene B&C)		⇒	27	20	27	20	Tom Murphy	FQ3 2020/21 B&C The number of dog fouling complaints in Bute and Cowal for the FQ3 period remains the same as FQ2 at 20 complaints. The Warden Service will continue with their efforts to deal with this issue.
								FQ2 2020/21 B&C There has been a rise in the number of dog fouling complaints within the Bute and Cowal area over the FQ2 period, with 20 complaints. The Warden service will continue with their efforts to deal with this issue and will continue to engage with all partners in an attempt to deal with this problem.
Dog fouling - total number of complaints A&B (StreetScene)		⇓	78	49	78	62	Tom Murphy	FQ3 2020/21 A&B Unfortunately the number of dog fouling complaints has remained high at 62 complaints for the months of October, November and December, with the MAKI area doubling the number of complaints from the last quarter. This is unacceptable and the service will arrange for additional patrols when resource commits. With regards the MAKI area the reason for this could possibly be due to the fact there is not a dedicated warden for this area.
								FQ2 2020/21 A&B Unfortunately there has been an increase in the number of dog fouling complaints for the months of July, August and September. This is unacceptable and the service will arrange for additional patrols when resource permits. This could be due to a number of reasons, poor dog ownership or the reduction in the number of Amenity Enforcement Wardens. The service is aware of the public's perception on this.

								FQ2 2020/21 B&C Cowal The LEAMS recording has resumed after being suspended due to Covid-19 and the performance figure for the Cowal area is 76 for FQ2 exceeding the Target figure.
LEAMS [Local Environment Audit and Management System] - Argyll and Bute monthly average (Cleanliness Monitoring Systems) MONTHLY DATA		⇒	73	80	73	80	Tom Murphy	FQ3 2020/21 A&B The level of street cleanliness across the area for the months of October, November and December have been at a high standard, exceeding both the National Standard and Target figure. The service uses the annual report from Keep Scotland Beautiful and monthly inspections to assess the data and make appropriate alterations to work schedules to ensure that the level of performance is maintained.
								FQ2 2020/21 A&B Argyll and Bute Council have only just returned to LEAMS reporting in September, during the period from April to August this was stood down as a result of the measures taken by operations relating to Covid 19. Monthly inspections will now continue in conjunction with Keep Scotland Beautiful locations identified. The level of street cleanliness performance across Argyll and Bute for the month of September was at a high standard exceeding both the National Standard and Benchmark figure.

								Comment from Peter Bain (Development Manager) on the impact of Covid on DM determination periods. The significant dip in performance against this indicator during FQ2 is directly attributable to the impact of the initial Covid-19 'lockdown' period which ran from late March into June 2020, and subsequent restrictions on service delivery. Whilst performance on all average determination time period indicators was largely maintained during FQ1 it is noted that this was based upon the determination of a much reduced number of applications. Whilst FQ1 gave rise to a number of challenges including loss of office accommodation and a requirement to rebuild a number of service critical processes, including mail handling arrangements, these were in the main, addressed efficiently during the first few weeks of lockdown and allowed determination of applications that were already at an advanced stage, without significant delay being incurred. What is not evident within the FQ1 performance indicator however is that new planning applications continued to be submitted at almost 80% of normal volume throughout the 'lockdown' period. It was not possible to progress these beyond initial validation due to restrictions on travel/engagement which prevented necessary site visit activity being undertaken to complete the professional assessment of applications, and to comply with procedural requirements for posting of site notices. Restrictions on essential travel were lifted during June, and planning application site visits to unoccupied sites resumed on 29th June 2020 following the development and roll out of new protocols and safe systems of work, and deployment of tablets to allow officers to operate on site without hardcopies of planning application files. Site visits to occupied sites including commercial premises and external areas of domestic premises resumed on 27th July 2020. FQ2 has seen a return to determination of planning applications at 'normal' volume, however a significant proportion of these applications have been subject to delays of up to 3 months as a result of 'lockdown' and, notwithstanding the significant effort of officers, their progression to determination has resulted in a significant increase to the average determination period.

Reductions to staffing levels within the Development Management Service has reduced the resilience of the Service to As a consequence, the implications of the 'lockdown' period will have an extended impact upon performance for as long as the volume of applications awaiting determination exceeds the 'normal' capacity of the Service, and will be exacerbated by any period of extended staff absence during a period where this is potentially a higher risk of occurrence as a result of Covid-19/stress, or vacancies which arise during the upcoming period.

Street lighting - B&C percentage of faults repaired within 10 days (Street Lighting - Maintenance)	●	↓	75%	48%	75%	16%	Hugh O'Neill	FQ3 2020/21 B&C A combination of staffing and IT issues have prevented staff from catching up on the previous COVID delayed faults. We are looking at support to the Street Lighting Back Office Team Leader to manage the incoming fault reports in a more proactive manner. IT equipment has been ordered to allow staff to update faults whilst at the locus to save time and we are looking to advertise the vacant Electricians post in Helensburgh to bring the electricians numbers up to 3.
								FQ2 2020/21 B&C Performance figures affected by the legacy of Covid - 19 shutdown. Resumption of activities in June / July was further disrupted due to sickness absence of, one of two Street Lighting Electricians. The electrician based in Dunoon for B&C and H&L also had to cover "emergency repairs" in OLI / MAKI where practicable. There is still a further issue related to miss-allocation of "dark lamps" when requests of service are entered from the public, as generally the faults are related to power supply or defective cabling which requires additional support from contractors and PU suppliers to rectify. This takes longer than the 10 day target for a purely "dark lamp" repair.
RIS113_05-The percentage of street lighting fault repairs are completed within 10 working days (Street Lighting - Maintenance)	●	↓	75%	29%	75%	14%	Hugh O'Neill	FQ3 2020/21 A&B There have been a number of street lighting outages which have not been repaired in the normal timescale due to several factors including all non-emergency works being paused during lockdown and difficulties sourcing parts due to many companies not operating. An action plan is in now place to focus on the backlog of lighting faults, to ensure we can get the most effective use of the lighting resource and power company suppliers to see improvements to lighting outages. It is anticipated that improvements to service delivery will be seen on the ground from March onwards.
								FQ2 2020/21 A&B Due to the team being significantly reduced for a substantial period of time due to absence, the Lighting Team have been prioritising lighting repairs. The Street Lighting team should be back to capacity in FQ3. Discussions are ongoing to look at solutions to ensure the Street Lighting team have the resources necessary to carry out repairs.
