Subject: GDK Reference group update Nov 2021

Good afternoon!

Following our Reference group meeting on 19th of October, the team have been working towards a public consultation exercise on the Dunoon Concept vessel. It is due to commence in late Nov and run through December. We will also be uploading the revised project Q&A document to our website to reflect feedback received during the Gourock Masterplan Public Consultation.

Dunoon Concept Vessel

The project team are preparing presentations for the public consultation exercise and will then will move onto progressing outline vessel propulsion design options.

Dunoon Infrastructure

Outline options have been worked up for Dunoon and have been presented to the Working Group. Now the Dunoon Concept vessel has been confirmed scoring can commence working to a preferred option.

Kilcreggan Concept Vessel

This became part of this programme of works a year after the Gourock-Dunoon project was initiated, however, design works are now underway on a Kilcreggan concept vessel.

Kilcreggan Infrastructure

Outline options have been worked up for Kilcreggan and presented to the Working Group. To achieve maximum interoperability of vessels and service resilience, the Kilcreggan infrastructure will be designed for the Dunoon Concept vessel.

The table below sets out the next upcoming Reference Group meetings. Please can you respond with your availability for week commencing 20th Dec, it is very near Xmas and it would be great to get this in everyone's diaries as-soon-as-possible.

Date	Subject	Hosting	Online or in-person
Week Commencing 20th December 21	<ul style="list-style-type: none">• CMAL - Kilcreggan Concept Vessel• Transport Scotland – Clyde and Hebrides Ferry Services – Network Wide Needs Based Assessment	CMAL	On-line
Week Commencing 20th December 21 or 10th Jan 22	<ul style="list-style-type: none">• Kilcreggan and Dunoon Port Infrastructure - Evaluation methodology and preferred options	ABC	On-line

Kind regards
Ruairidh
