Fiona, please see attached in response to the Council's representation. In preparing this statement I have noticed that the Decision Notice, which lists the plans against which the decision was made, does not include the Road Plan reference 0961-EX-210 which we have already submitted as part of Appendix 8. The Decision Notice states that no 'non-material amendments' were made to the application during its processing. This is incorrect, as the plan at Appendix 8 and attached here again for reference, was submitted to the Planning Officer on the 7th May 2021. It shows the provision of a new passing place and turning area at the top of the road, two matters which Roads say cannot be met but which clearly can be provided if required and as shown in the plan.
