Presented by: Stephen Whiston Head of Strategic Planning, Performance and Technology

The Community Services Committee is asked to:

- Consider the IJB HSCP performance report presented at the IJB in January 2022

1. Introduction

Reporting against the HSCP Health & Wellbeing Outcome Indicators continues to be affected by the recent re-escalation of Covid19 pandemic requiring health and care services remain on an “emergency” footing.

The remobilisation of services across both health and social care is a Scottish Government priority and frontline staff and managers are working hard to achieve this across the Health & Social Care Partnership. Our priority is on ensuring that key services and access as far as possible for people is managed and delivered locally and safely within the Covid19 pandemic operating context alongside the ongoing vaccination of staff and public and the delivery of test and protect.

The Covid19 pandemic second wave from December 2021 has seen a tightening of “lock-down” measures due to a new and more infectious mutation of the virus. This has once again compromised the full resumption of service. The Cabinet Secretary for Health in December 2021 directed Chief Executives in both Local Authorities and Health Boards that emergency and critical service provision should be prioritised until March 2022.

The attached report was presented to the IJB in January 2022
