4. Communication Plan and Key messages
5. Action Plan
6. Engagement Template

**2. Vision** - Take a new BOLD approach ( **B**etter **O**utcomes by **L**ocal **D**esign)

We want to ensure that everyone has the opportunity to input into the future shape of health and social care services. We want to know the stories of how Covid has affected people and what we can learn from experiences.

**Aim** – This engagement and communication framework aims to embed an approach which is fully aligned with the Scottish Governments Planning with People Guidance and A&B Engagement Strategy. It sets out what our stakeholders can expect, type of engagement and how and when the HSCP will communicate.

For clarification, within this document, Communications and Engagement mean:

- Communications – process of **two way exchange** of information, i.e. sharing information, listening to each other’s feedback, and maintaining dialogue until the end of the process.  
This may be written (paper or electronic), or verbal / face-to-face, and may require specialist support (e.g. sign language, lip readers, note takers, other interpreters).
- Engagement – process of **working with others** on matters which affect or interest them.

**3. Stakeholder Needs Analysis**

| Stakeholder                    | Examples of stakeholders interests / needs  | Stakeholder requirements – consulted / informed etc. | Objective   | Methods  | Frequency                 |
|--------------------------------|---|--|---|--|---------------------------|
| Staff                          | Staff knowledge and contribution to options for future health and social care.        | Inform, Consult                                      | Provide information in the form of data and Objectives, Priorities and Commissioning Intentions. Obtain feedback to inform development and improvement and formulate priorities.                          | Staff survey reflecting the workshop questions.<br><br>Staff engagement events | As per Communication plan |
| Area Managers                  | Area Manager knowledge and contribution to options for future health and social care. | Inform, Consult                                      | Provide information in the form of data and Objectives, Priorities and Commissioning Intentions. Obtain feedback to inform development and improvement and formulate priorities and blueprint for future. | Area Manager Workshop  | As per Communication plan |
| Strategic Planning Group (SPG) | SPG contribution to options for future health   | Involve and consult                                  | Provide information in the form of data and Objectives,   | SPG Workshop   | As per Communication plan |

| Stakeholder  | Examples of stakeholders interests / needs  | Stakeholder requirements – consulted / informed etc.          | Objective   | Methods   | Frequency                  |
