The Modern Mindset version offers a number of additional new features which will be helpful to elected members as they navigate the reports they need for the committee meetings they attend. These are listed below.

What's New

The original app launched nearly a decade ago. Since then, we've kept it updated regularly and listened to feedback from our customers to add improvements, and the time has now come to launch a brand new version. If you have the older version on your device, don't worry: both can be run simultaneously for the time being – the original version won't be discontinued immediately.

Why switch? Here's what the new app offers:

	Original App	New iOS App
Automatic download of agendas, reports, decisions and minutes, supplementary meeting papers and Library documents	✔	✔
Document library for non-meeting information	✔	✔
Document library appears as a distinct menu item, rather than in the list of committee names		✔
Automatic download of agenda front sheet as a separate document		*coming soon*
Open multiple documents at the same time and from different meetings (and from the document Library) – a maximum of 10 documents may be open at any time		✔
Quickly find documents from: What's New / Recently Published, Annotated, or browse by committee name	✔	✔
Quickly find documents from above options and from: Upcoming, Recently Opened, Unread or Starred		✔
In-app calendar to browse meetings by date		✔
