

Campbeltown Community Council – Update

National Brass Band Championships of Great Britain

Congratulations to Campbeltown Brass Band on becoming National Champions for their section at the recent Championships held in Cheltenham. Campbeltown Community Windfarm Fund, the charitable arm of the Community Council, was happy to provide funds to enable them to travel to Cheltenham.

Flood Prevention Scheme

CCC happy to see the works underway.

Town Centre Traffic Management

Local residents have expressed concern re car/van/commercial vehicles parking on Burnbank St, making pedestrian footpaths inaccessible, causing them to walk on the road. There was unanimous agreement that this situation, as has parking in other areas, has worsened since the introduction of the new traffic management system.

Esplanade

Still awaiting the resurfacing of this roadway – supposed to be at the back end of the year?

Lack of dental health care

There is now only one part time dentist delivering services in Campbeltown for NHS registered patients. Patients advised they can get appointments in sister practice in Lochgilphead. Unsatisfactory, but problem is shortage of dentists.
