Transport Update – Argyll and Bute Council

- Schools returned on Tuesday 15/08/2023, following several months of preparation by school and public transport team to provide transport for the nearly 3,000 pupils that travel daily across Argyll and Bute.
- Work continues liaising with SPT to spend the funding from their bus stop infrastructure capital programme.
 - This includes looking at locations within Helensburgh and Lomond suitable for the rollout of further Real Time Information displays.
 - A further, more detailed update, will be given on spend and progress once we have met with SPT officers at the halfway point of the financial year, in September.
