

**AREA PERFORMANCE REPORT – FQ1 2023/24**

---

**1.0 BACKGROUND**

- 1.1 This paper presents the Area Performance Report for Financial Quarter 1 2023/24 (April to June 2023) and illustrates the agreed performance measures.
- 1.2 The features of the Performance Report are as follows:-
- Indicators are grouped by Corporate Outcome.
  - The data table for each indicator is coded to identify the level of reporting.
    - Area level measures are blue
    - Council level measures are grey
    - COI measures are white
  - Each indicator details the
    - Target, Actual and Performance status (Green / Red / No Target) for the current and three previous financial quarters.
    - Commentary for the current financial quarter only.
    - Narrative explaining the performance trend e.g. This indicator is above Target and performance has improved since the last reporting period.
    - Where appropriate a Performance Trend Line has been added.
    - The name of the Responsible Officer.
    - Where possible performance is presented at both Area and Council level.
- 1.3 The commentary for each indicator helps ‘Tell Our Story’ and enables Elected Members to put the performance data into perspective and understand if an issue is local in nature or should be escalated up to a Strategic Committee.
- 1.4 To improve the response to performance queries, it is requested that either the Responsible Named Officer or Sonya Thomas are contacted once the Quarterly Performance Report is received with any queries. This should enable some queries being resolved or clarified prior to the Area Committee meeting, and therefore being carried forward as Actions at a subsequent meeting.
- 1.5 As part of our improvements to performance reporting and making best use of the digital technology available to us, officers have developed new, online scorecards for members to view performance data. These were well received by members at a recent seminar and will be made available, as requested, for the December Area Committees, with training provided in advance.

## **2.0 RECOMMENDATIONS**

2.1 It is recommended that the Area Committee –

- a) Notes and considers the performance and supporting commentary as presented.
- b) Upon receipt of the Quarterly Performance Report the Area Committee contact either the Responsible Named Officer or Sonya Thomas with any queries.
- c) Note that work is ongoing and to respond to Sonya Thomas with requests or comments regarding the layout and format of the Performance Report.

## All Areas

### FQ1 2023/24 Overall Performance Summary

The information presented is a summary of the agreed measures.

Unless stated otherwise, performance is presented at both Area and Council-wide levels.

The measures show the performance against target for the current and previous three reporting periods with an explanation of performance trend.

The data table for each indicator is colour coded to identify the level of reporting:

- Area level measures are blue.
- Council level measures are grey.
- Corporate Outcome Indicators (COIs) are white.

Where appropriate a Trend Line has been added to illustrate movement in 'Actual' over the reporting period.

## Corporate Outcome No.1 – People live active, healthier and independent lives

### COI – Maximise distribution of Scottish Welfare Fund

This indicator is a Corporate Outcome Indicator that is reported quarterly. The performance presented is Council-wide only.

Reporting Period	Target	Actual	Status
FQ1 2022/23	95.3%	87.5%	Red
FQ2 2022/23	95.3%	115.1%	Green
FQ3 2022/23	95.3%	129.2%	Green
FQ4 2022/23	95.3%	144.0%	Green
FQ1 2023/24	95.3%	112.9%	Green

Performance in FQ1 has exceeded the target and actual has decreased since the last reporting period.

#### FQ1 Comment

From 1 April 2023 to 30 June 2023 our Scottish Welfare Fund (SWF) spend is £129,456 which is £14,886 higher than our profiled quarterly amount. The total allocation for SWF this financial year is £458,284. Applications have remained consistent during this first quarter and we are carefully monitoring application numbers to decide whether priority levels require to be changed.

Responsible person: Fergus Walker

## Corporate Outcome No.1 – People live active, healthier and independent lives

### COI – Percentage of clients satisfied that they are better able to deal with their financial problems following our support and intervention

This indicator is a Corporate Outcome Indicator that is reported quarterly. The performance presented is Council-wide only.

FQ3 2022/23	No target	1,343	No target	
FQ4 2022/23	No target	1,332	No target	
FQ1 2023/24	No target	1,816	No target	

This indicator for FQ1 shows the number of parking penalty notices has increased significantly since the last reporting period.

#### FQ1 Comment

H&L currently recruiting one warden and requiring assistance from other areas. OLI requiring assistance from other areas for cash collection duties.  
Responsible person: Hugh O'Neill

## Corporate Outcome No.2 – People live in safer and stronger communities

### Car parking income to date – Oban, Lorn and the Isles

Performance is presented cumulatively for both Area and Council-wide levels. For individual car parks, the income is presented on a quarterly basis.

Reporting Period	Target (Cumulative)	Actual (Cumulative)	Status
FQ1 2022/23	£170,832	£84,992	Red
FQ2 2022/23	£426,247	£286,288	Red
FQ3 2022/23	£554,026	£423,730	Red
FQ4 2022/23	£677,416	£493,218	Red
FQ1 2023/24	£165,702	£151,185	Red

This indicator for FQ1 shows the cumulative amount of income collected is lower than the cumulative target. There is no performance trend as this data is cumulative.

#### FQ1 Comment

Anecdotally, Oban appears to be busy. An exercise regarding the number of vehicles coming into Argyll and Bute was carried out, and there was a drop in vehicles coming into the area over the COVID years and we are now seeing a return to the average, with year 2022/23 less than a 10% drop from the average non-COVID years. Oban has experienced works such as the re-lining of the trunk road and surrounding areas with Transport Scotland which previously we have been unable to enforce on-street parking. This drop off in on-street parking has also seen an increase in off street parking nearby with Corran Halls 1+2 as well as the North Pier being busier. Ascertaining the reason for a shortfall in income can be difficult however it can also be affected by such things as weather, events and community.

Responsible person: Hugh O'Neill

FQ1 2023/24	£234,056	£253,705	Green

This indicator for FQ1 shows the cumulative amount of income collected has exceeded the cumulative target. There is no performance trend as this data is cumulative.

### FQ1 Comment

Overall parking income is performing well – the team have had a vacancy since March 2023. An offer of employment has been made, which will see the team return to full staffing.

Responsible person: Hugh O’Neill

## Corporate Outcome No.2 – People live in safer and stronger communities

### Dog fouling – total number of complaints – Oban, Lorn and the Isles

Reporting Period	Target	Actual	Status	Trend of 'Actual' over the period
FQ1 2022/23	No target	9	No target	
FQ2 2022/23	No target	4	No target	
FQ3 2022/23	No target	6	No target	
FQ4 2022/23	No target	18	No target	
FQ1 2023/24	No target	4	No target	

This indicator for FQ1 shows the number of dog fouling complaints has decreased significantly since the last reporting period.

#### FQ1 Comment

There were only 4 dog fouling complaints received this quarter for the OLI area and these were all in Oban, there were no complaints received for Mull. This is very good and down on last quarter's figure.

Responsible person: Tom Murphy

### Dog fouling – total number of complaints – Argyll and Bute

Reporting Period	Target	Actual	Status	Trend of 'Actual' over the period
FQ1 2022/23	No target	61	No target	
FQ2 2022/23	No target	45	No target	
FQ3 2022/23	No target	47	No target	
FQ4 2022/23	No target	77	No target	
FQ1 2023/24	No target	60	No target	

This indicator for FQ1 shows the number of dog fouling complaints has decreased since the last reporting period.

#### FQ1 Comment

The total number of dog fouling complaints is down this quarter to 60, B&C 13, H&L 11, MAKI 32 and OLI 4. The Warden Service will continue to patrol and monitor this in an effort to reduce the numbers further.

Responsible person: Tom Murphy

## Corporate Outcome No.3 – Children and young people have the best possible start

### COI – Increase the percentage of our care experienced young people that have the recommended additional tracking and monitoring plans in place

This indicator is a Corporate Outcome Indicator that is reported quarterly. The performance presented is Council-wide only.

Reporting Period	Target	Actual	Status
FQ1 2022/23	100%	100%	Green
FQ2 2022/23	100%	100%	Green
FQ3 2022/23	100%	100%	Green
FQ4 2022/23	100%	100%	Green
FQ1 2023/24	100%	100%	Green

This indicator for FQ1 has met the target with no change in performance since the last reporting period.

#### FQ1 Comment

There is individual tracking and monitoring in place on SEEMIS in all schools for care experienced children and young people. In addition to this, the Virtual Head Teacher for Care Experienced Children and Young People (CECYP) undertakes additional analysis of the data held. The way in which attendance data is monitored has been refined and there is greater scrutiny around absence and targeted interventions to support school attendance. An updated system to track attainment data specifically for CECYP is currently being developed and will ensure breadth and depth of data is collected for each learner throughout their educational journey. This long term intended impact is to identify and address themes, ensuring early and targeted interventions across a range of indicators. Data collated continues to inform how our Care Experienced Education Team of Health and Wellbeing Liaison Officers and Lead Additional Support Needs Assistants are deployed to offer support for the CECYP and, as appropriate, their family.

Responsible person: Louise Chisholm

## Corporate Outcome No.3 – Children and young people have the best possible start

### COI – Provide quality meals with cost margins to all pupils

This indicator is a Corporate Outcome Indicator that is reported quarterly. The performance presented is Council-wide only.

Reporting Period	Target	Actual	Status
FQ1 2022/23	+/-5.00%	3.77%	Green
FQ2 2022/23	+/-5.00%	0.98%	Green
FQ3 2022/23	+/-5.00%	6.09%	Red
FQ4 2022/23	+/-5.00%	-2.56%	Green
FQ1 2023/24	+/-5.00%	5.00%	Green

This indicator for FQ1 is within the +/-5.00% target variance and performance has improved since the last reporting period.

#### FQ1 Comment

The total percentage variance for all schools is 5.00%. This is just within the target range. A new cashless catering system is currently being implemented in schools and will allow for more efficient reporting of figures. The system was rolled out in FQ1 and may have resulted in some reporting issues. We will continue to monitor any schools that had a food cost percentage out with the 5% variance target.

B&C 10.07%

H&L 1.07%

MAKI 2.61%

OLI 7.16%

Responsible person: Jayne Jones

## Corporate Outcome No.4 – Education, skills and training maximises opportunities for all

### Maximise the percentage of 16-19 years olds participating in education, training or employment – Oban, Lorn and the Isles

Reporting Period	Target	Actual	Status	Trend of 'Actual' over the period
FQ1 2022/23	94.00%	95.95%	Green

FQ4 2022/23	94.00%	95.60%	Green	
FQ1 2023/24	94.00%	95.45%	Green	

This indicator for FQ1 is above target however performance has decreased slightly since the last reporting period.

#### FQ1 Comment

As of 29 June 2023, the participation figure for 16-19 year-olds in Oban, Lorn and the Isles was 860 young people, which equates to 95.45%. This is 1.55% above the 2021/22 annual Argyll and Bute Participation figure of 93.9%. The 2022/23 Annual Participation Measure for Argyll and Bute will be released by Skills Development Scotland at the end of August 2023.

Responsible person: Simon Easton

### Maintain the percentage of 16-19 years olds in Argyll and Bute participating in education, training or employment services – Argyll and Bute

FQ4 2022/23	75.0%	78.3%	Green	
FQ1 2023/24	75.0%	68.8%	Red	

This indicator for FQ1 is below target and performance has decreased since the last reporting period.

#### FQ1 Comment

Performance across Development Management continues to be impacted by an extended period of operating with key staff vacancies and a backlog of casework from the pandemic. The introduction of National Planning Framework 4 in February 2023 by The Scottish Government and the subsequent progression of the Council's proposed Local Development Plan 2 in June 2023 has further impacted on productivity and required a significant volume of casework to be re-assessed against the emerging policy background. During this reporting period available resource has been prioritised towards the resolution of statutory casework - the effect of this will be a detrimental impact on non-statutory casework including an extended time period to respond to pre-application enquiries.

Responsible person: Peter Bain

### Percentage of pre-planning application enquiries processed within 20 working days – Argyll and Bute

FQ4 2022/23	8.0 weeks	9.4 weeks	Red	
FQ1 2023/24	8.0 weeks	10.7 weeks	Red	

This indicator for FQ1 has not met the target and performance has decreased slightly since the last reporting period.

#### FQ1 Comment

*This measure only relates to planning applications received for alterations to existing premises.*

Performance across Development Management continues to be impacted by an extended period of operating with key staff vacancies and a backlog of casework from the pandemic. The introduction of National Planning Framework 4 in February 2023 by The Scottish Government and the subsequent progression of the Council's proposed Local Development Plan 2 in June 2023 has further impacted on productivity and required a significant volume of casework to be re-assessed against the emerging policy background. During this reporting period, available resource has been prioritised towards the resolution of statutory casework - in particular the progression and determination of older cases. The determination of a higher-than-normal volume of legacy cases has a significant impact on "average time taken" performance measures, as a relatively small number of cases can readily skew the outcome. This is evidenced in that the performance time to determine "All Local Applications" would be 25.7 weeks, however five of those weeks is attributable to six legacy applications alone. Of the Local Applications determined in FQ1, 90% of applications determined were less than one year old and were determined in an average time period of 18 weeks. It is further commented that 60% of those applications were less than 6 months old at the time of determining and were determined in an average time period of 11.6 weeks. Of the 5 contracts receiving local bids, 2 of which were Framework awards with multiple successful suppliers, 4 local suppliers were successful with an estimated contract value of £500k. The Procurement, Commercial and Contract Management Team (PCCMT) continue to support local suppliers by providing useful information on the Council's website i.e. pre-recorded webinars on how to bid for Council contracts, hints and tips for tendering, as well as our current contract plan. Details of upcoming Supplier Development events and our Category Officer's contact details are also provided, all of which enable local suppliers to be able to bid for our contracts.

FQ1 2023/24	75%	37%	Red	

This indicator for FQ1 is below target however performance has increased since the last reporting period.

#### FQ1 Comment

The total number of street lighting jobs completed in FQ1 was 175. Of the total completed within the quarter, 64 were completed within the 10 day indicator giving an overall performance of 37%. We still have a number of faults reported as dark lamps that turn out to be more serious cable or section faults requiring power company/supply repairs. More jobs were completed and closed off than new ones raised, within the period, slightly reducing the overall backlog in repairs.

There have been some resourcing issues due to sickness absence and annual leave and the commencement of the Capital Improvement Schemes in Helensburgh and Bute.

FQ2 2022/23	45.0%	50.5%	Green	
FQ3 2022/23	45.0%	56.7%	Green	
FQ4 2022/23	45.0%	52.0%	Green	
FQ1 2023/24	45.0%	47.6%	Green	

This indicator for FQ1 is above target however performance has decreased since the last reporting period.

#### FQ1 Comment

47.6% recycling, composting and recovery (37.4% recycling/composting plus 10.2% recovery). Overall rate above target although recovery less than same quarter in previous year. This is mainly because mixed general waste which goes to Barr Environmental (mainly from Helensburgh and Lomond area) is now all landfilled. This is due to Barr's decision to cease operation of their mixed waste treatment plant following The Scottish Government introduction of a Landfill Tax Abatement Order from July 2022.

FQ4 2022/23	No target	61.9%	No target	
FQ1 2023/24	No target	53.0%	No target	

This indicator for FQ1 shows the percentage of waste recycled has decreased since the last reporting period.

**FQ1 Comment**

53.0% recycling, composting and recovery (35.8% recycling/composting plus 17.2% recovery). Renewi recycling and recovery rates now back to more normal levels as had been higher in 2022/23 year mainly due to significant wood and green garden waste tonnages being sent for recycling/composting plus and energy from waste trial increased recovery tonnages.

Responsible person: John Blake

**Islands – Percentage of waste recycled, composted and recovered**

FQ1 2023/24	No target	39.2%	No target	

This indicator for FQ1 shows the percentage of waste recycled has increased since the last reporting period.

**FQ1 Comment**

Recycling and composting rate of 39.2% is an improvement on previous quarter and same quarter in 2022/23.

Responsible person: John Blake

## H&L – Percentage of waste recycled, composted and recovered

Performance is presented by Council-wide service provision.

Reporting Period	Target	Actual	Status	Trend of 'Actual' over the period
FQ1 2022/23	No target	53.6%	No target	
FQ2 2022/23	No target	41.0%	No target	
FQ3 2022/23	No target	37.5%	No target	
FQ4 2022/23	No target	34.5%	No target	
FQ1 2023/24	No target	40.1%	No target	

This indicator for FQ1 shows the percentage of waste recycled has increased since the last reporting period.

### FQ1 Comment

Recycling rate higher than previous quarter i.e. FQ4 in 2022/23 mainly due to significant green garden waste tonnage being sent for composting. Recovery rate much lower than same quarter in previous year i.e. FQ1 in 2022/23, mainly due to Barr Environmental no longer operating a mixed general waste treatment plant at their Auchencarroch Landfill Site (near Alexandria) following The Scottish Government introducing a Landfill Tax Abatement Order from July 2022.

Responsible person: John Blake

## Corporate Outcome No.6 – We have infrastructure that supports sustainable growth

### COI – The number of tonnes of waste sent to landfill

This indicator is a Corporate Outcome Indicator that is reported quarterly. The performance presented is Council-wide only.

Reporting Period	Target	Actual	Status	Trend of 'Actual' over the period
FQ1 2022/23	5,850	4,546	Green	
FQ2 2022/23	5,550	4,947	Green	
FQ3 2022/23	5,100	3,882	Green	
FQ4 2022/23	5,000	4,610	Green	
FQ1 2023/24	5,850	5,075	Green	

This indicator for FQ1 is below target (lowest is best).

#### FQ1 Comment

Tonnes of biodegradable waste to landfill within target, however more was landfilled than in same quarter during previous year. This increase was mainly because all mixed general waste delivered to Barr Environmental in FQ1 this year (from the Helensburgh and Lomond area) was landfilled. This was due to Barr's decision to cease operation of their mixed waste treatment plant following The Scottish Government Landfill Tax Abatement Order (which was introduced from July 2022). The Renewi energy from waste trial has ended, therefore in this quarter there is no extra recovery from the PPP area to offset the recovery reduction from the Helensburgh and Lomond area.
