1. Executive Summary

Introduction

As part of the 2023/24 internal audit plan agreed with LiveArgyll management, we undertake
establishment visits at LiveArgyll sites. LiveArgyll operate 26 establishments and we have agreed
that 19 of these will be subject to establishment visits over a four year cyclical basis. Appendix 1
sets out the schedule. Establishment visits focus on the areas set out in exhibit 1 and we have
agreed checklists for each area with LiveArgyll management.

Exhibit 1 – Establishment Visits Areas of Focus

| Building Exterior | Floors | Environment | Baby Changing Units |
|--------------------------|---------------|---------------------|--------------------------------------|
| Doors | Public Spaces | Signage | Income Collection / Facility Booking |
| Ceilings | Windows | Fixtures & Fittings | Floats |
| Walls | Elevators | Toilets | Banking |
| Swimming Pool / | Library | Sports Hall / Gym | Staff |
| Health Suite | | | |

- 2. The audit tests are predominantly observational so any issues highlighted are based on what was witnessed on the visit day. Due to the limiting nature of this as audit evidence we do not include recommendations in this report. Rather it provides an overview of issues identified allowing the LiveArgyll management team to determine whether any corrective action is required.
- 3. To ensure consistency of approach, the issues raised do not take account of any planned structural work in the short to medium term. For example, if we identify superficial structural damage we will still report it even if we are aware the establishment is due to be refurbished.

Background

4. On 7 September 2023 we visited the Victoria Halls, Helensburgh. The scope of the audit was to assess the site against the audit questions agreed with LiveArgyll.

Audit Opinion

- 5. We provide an overall audit opinion for all the establishment visits we conduct. This is based on our judgement on the extent to which there are issues requiring corrective action and how critical they are. We assess establishment visits as either:
 - Red Intervention is required to correct material areas of concern
 - Amber Issues identified can be managed through a programme of works
 - Green Issues identified are relatively minor
- 6. Our overall opinion for this establishment visit is Amber. This means that whilst we have identified issues we are not of the view that they post an immediate risk to service delivery. However, management should consider how best to address the issues within a reasonable timescale.

Findings

7. Exhibit 2 summarises the conclusions of the work and any observations made on the day of the visit.

Exhibit 2 – Summary Assessment of Control Objectives

| | Area | Strengths | Areas for Consideration | |
|---|---------------------------|---|--|--|
| 1 | Building Exterior | The exterior of the building conveys the appropriate corporate image with adequate signage, lighting and accessibility for all users. | There was no LiveArgyll sign as it had been damaged. Scaffolding was in place at the side of the building to deal with some ongoing issues. | |
| 2 | Doors | The main entrance door and all internal doors were undamaged, clean and most were in good working condition. | The closing mechanism to one of the main doors causes it to slam and the balcony door is subject to intermittent sticking. | |
| 3 | Ceilings | The ceiling was clean and intact with no chipped plaster. | There is some historical staining resulting from water damage in the Pillar hall and its kitchen area. There is a crack on the ceiling above the main staircase. | |
| 4 | Walls | Walls and skirting were clean with no cracks or chipped plaster. | There are some paint chips and scuff marks throughout the facility. There is some historic staining as a result of water damage in the Pillar Hall. The changing room walls are marked and 3 dents were observed. There is some graffiti on the walls leading down the stairway to the backstage area. Cable coverings above skirting were loose in the corridor behind the stage. | |
| 5 | Floors & Public Spaces | Flooring throughout was clean, tidy and free of any obstacles and clutter, the floor plan allows easy access for users of all abilities. The main reception area and foyer were uncluttered providing sufficient space for essential equipment. | None | |
| 6 | Windows | Windows were clean, undamaged and uncluttered with posters. | Two windows in the facility cannot be fully closed and in the Pillar hall, only 2 are able to be opened. | |
| 7 | Elevators | The elevator was clean, tidy and in working condition. | The elevator requires some manual intervention to ensure the door is completely closed to enable operation. | |

| | Area | Strengths | Areas for Consideration | |
|-----|--------------------------|---|-----------------------------------|--|
| 8 | Environment | Heating, lighting and ventilation were | Two fluorescent tube lights | |
| | | comfortable, noise levels were appropriate | were not working above the | |
| | | and waste bins were not full. | stage and one light was out in | |
| | | | the main hall/stairway area. | |
| 9 | Signage | External signage indicated the facility name. | There was no LiveArgyll sign | |
| | | Internal signage was appropriate to guide | outside or within the facility. | |
| | | users around the facility. | | |
| 10 | Noticeboards | Notice boards and leaflet stands were tidy | None | |
| | & Leaflets | and not overloaded. Information displayed | | |
| | | was suitable and in date. | | |
| 11 | Furniture, | Furniture and fittings were clean, | Some minor wear and tear was | |
| | Fittings & | uncluttered and appeared to be in good | observed on seating due to age. | |
| | Equipment | condition, items were placed appropriately | There is no designated storage | |
| | | so as not to cause hazards or obstructions. | area for furniture that is not in | |
| | | Electrical equipment had been subject to | use, these items are stacked in | |
| | | portable appliance testing (PAT). All sockets | various locations e.g. corridors | |
| | | and data points appeared to be intact. | and alcoves throughout the | |
| | | | facility. | |
| 12 | Toilets | Toilets were clean with sanitary ware firmly | There were no period products | |
| | | fixed to walls and floors and sufficient | available in the main toilets as | |
| | | supplies were available for use. | these are no longer being | |
| | | Waste bins were not full and disposal units | delivered to the halls. | |
| | | are replaced regularly under contract | | |
| | | arrangement. | | |
| 13 | Baby | Baby changing units were clean, intact and in | None | |
| | Changing | good working condition. | | |
| | Units | | | |
| 14 | Swimming | N/A | | |
| | Pool | 6. 6 | •• | |
| 15 | Sports Hall, | Staff were of smart appearance wearing | None | |
| | Gym and | LiveArgyll branded clothing and name | | |
| 1.0 | Studios | badges. | | |
| 16 | Libraries | N/A | None | |
| 17 | Income | There are no vending machines or | None | |
| 10 | Collection | payphones within the facility. | Nege | |
| 18 | Booking of Facilities | Bookings are processed appropriately. | None | |
| 10 | | The fleat hold at the facility is consistent | None | |
| 19 | Floats | The float held at the facility is consistent with the record held by the LiveArgyll | None | |
| | | accountant. The float is regularly checked | | |
| | | and was found to be correct at the time of | | |
| | | the visit. | | |
| 20 | Banking | Procedures are followed when cashing-up. | None | |
| 20 | Dalikilig | • . | INOTIE | |
| | | Bankings take place when required, this varies due to levels of income received and | | |
| | | | | |
| | | availability of staff to visit the bank. | | |
| | | Income is securely stored in a safe in the cupboard behind the reception desk | | |
| | | between bankings taking place. | | |
| | | netween nankings taking hiace. | | |

Management Response

Management duly note the favourable opinion and the individuals findings contained within these reports. Where action is required management will ensure appropriate timely intervention / escalation protocols implemented. i.e building repair issues reported to Council via agreed Building maintenance protocol.
