FQ3 2023/24 Overall Performance Summary

The information presented is a summary of the agreed measures.

Unless stated otherwise, performance is presented at both Area and Council-wide levels.

The measures show the performance against target for the current and previous three reporting periods with an explanation of performance trend.

The data table for each indicator is colour coded to identify the level of reporting:

- Area level measures are blue.
- Council level measures are grey.
- Corporate Outcome Indicators (COIs) are white.

Where appropriate a Trend Line has been added to illustrate movement in 'Actual' over the reporting period.

FQ3 Comment

This is a voluntary survey with no obligation for clients to respond either in full or in part. It is also common for incomplete returns to be received. In FQ3 2023/24, 11 survey forms were distributed to clients. 6 were returned. Of these 6 returns, 5 responded to the question relating to being better able to deal with their financial problems. Of these 5 respondees, 5 responded positively, whilst 0 responded negatively. Accordingly, 100% of clients that responded were positive about their experience i.e. no negative comments or responses were reported.

FQ3 Comment

Free parking two weeks prior to Christmas plus two weeks for Winter Festival. Fairground occupying Corran #1 car park (and street). Amenity Wardens off-work between 24 Dec to 3 Jan (non-essential staff). Lining/signing continuing to deteriorate, which means wardens are unable to enforce. Operations have been made aware and are looking to get the lining redone when lining teams are available and weather permitting.

Car parking income to date – Oban, Lorn and the Isles

Performance is presented cumulatively for both Area and Council-wide levels. For individual car parks, the income is presented on a quarterly basis.

Reporting Period	Target (Cumulative)	Actual (Cumulative)	Status
FQ3 2022/23	£554,026	£423,730	Red
FQ4 2022/23	£677,416	£493,218	Red
FQ1 2023/24	£165,702	£151,185	Red
FQ2 2023/24	£413,592	£299,188	Red
FQ3 2023/24	£564,477	£514,847	Red

This indicator for FQ3 shows the cumulative amount of income collected is significantly lower than the cumulative target. There is no performance trend as this data is cumulative.

FQ3 Comment

The severe weather has been a factor in reducing traffic movements in certain areas. This is most likely the reason for the drop in income seen over this quarter. Also the free weeks of parking, 2 weeks for the Winter Festival and the two weeks before Christmas has affected income returns.

Going forward the Committee are asked to note that the installation of electric charger installs is now complete, however the following factor will affect car parking income in the OLI area:

North Pier car park closures for cruise ship visits (FQ1 onwards).

Responsible person: Hugh O'Neill

FQ3 2023/24	£797,331	£807,348	Green

This indicator for FQ3 shows the cumulative amount of income collected is slightly higher than the cumulative target. There is no performance trend as this data is cumulative.

FQ3 Comment

There were delays in processing income from G4S which has seen parts of the income placed into the wrong cost codes. Officers have worked with Finance to identify this and the extra income has been pulled through into this quarter. We have also fitted new parking machines which are easier to use. This may well have increased usage and subsequently income.

Going forward the Committee are asked to note the following factors that will affect car parking income:

B&C: No issues.

H&L: Glen Loin 2 has (incomplete) electric charger installs (from June), which is affecting 2 bays.

MAKI: No issues.

OLI: North Pier car park closures for cruise ship visits (FQ1 onwards).

FQ3 2023/24	No target	46	No target	

This indicator for FQ3 shows the number of dog fouling complaints has decreased since the last reporting period.

FQ3 Comment

The number of dog fouling complaints this quarter has reduced from 51 to 46. In order to reduce this further the Warden Service will continue to monitor and patrol. Islay was the only area this quarter to issue a dog fouling fine.

This indicator for FQ3 is has met the target with no change in performance since the last reporting period.

FQ3 Comment

Each care experienced child and young person enrolled in an authority school has tracking and monitoring plans in place via our SEEMIS database. Data collated includes attendance, exclusion, progress and attainment and wellbeing information.

Our systems continue to be refined to ensure data is relevant and supports early intervention. A bespoke tracking and monitoring system is in development. Improvements to date include: programme of data driven dialogue between Designated Managers and the Virtual Head Teacher, discreet identification of CECYP for class teachers and appropriate data sharing with partner agencies. Raising the profile of our CECYP has led to an increased awareness of this cohort, positively impacting on personalised support, including at transition points.

FQ3 Comment

Performance across the Development Management Service continues to be impacted as it works through a backlog of casework that has accumulated through the Covid pandemic and which has been exacerbated by extended periods of operating with reduced staffing levels due to issues with recruitment to vacant posts, and the introduction of National Planning Framework 4. Whilst vacancies across the service have now largely been filled the focus of officer remains geared toward the resolution of statutory casework with the handling of pre-application enquiries afforded lower priority in caseload management. To assist with the management of reduced customer expectations the target for responding to pre-app enquiries has been temporarily extended to 6 weeks. During FQ3 56 pre-apps were responded to within OLI. 92.9% were issued within 6 weeks. This excellent performance is indicative of the more settled position of the OLI DM team.

FQ3 Comment

This measure only relates to planning applications received for alterations to existing premises.

Performance across the Development Management Service continues to be impacted as it works through a backlog of casework that has accumulated through the Covid pandemic and which has been exacerbated by extended periods of operating with reduced staffing levels due to issues with recruitment to vacant posts, and the introduction of National Planning Framework 4. Improving resource availability has allowed the focus of the DM Service to shift from the prioritisation of the most significant applications to addressing the accrued backlog of older applications. The determination of a higher-than-normal volume of older cases has a significant impact on "average time taken" performance measures as a relatively small number of older cases can skew the outcome. It is also noted that these performance measures are based on "raw data" and as such have not been adjusted to take into account delays to determination out with the control of the planning authority. FQ3 has seen the determination of 3 'legacy' applications and an increasing volume of newer case work. This has resulted in a significant improvement with the average time period for determination of householder applications reducing by 3 weeks from FQ2. 87% of applications determined in FQ3 were less than 6 months old; these items were determined in an average time of 12.0 weeks.

FQ3 Comment

We maintain 14,442 street lights throughout Argyll and Bute, including the islands. Some street lighting faults cannot be fixed by the Street Lighting Team and we require assistance from power suppliers (SSE or Scottish Power) or our Roads colleagues/external contractors to repair underground cable faults and power supply issues. These type faults are often reported as single dark lamps but following attendance/investigation they can be identified as more serious problems that will take longer to repair. On average throughout the year approximately 98.8% of our street lights are operating/functioning as designed. Our Maintenance Team comprises 3x Street Lighting Electricians, 1x Clerk of Works/Inspector and 1x Trainee Team Leader. At present around 95% of assets have been upgraded to Energy Efficient and more reliable LED Luminaires. Works are continuing to convert/upgrade the rest of our inventor.

This indicator for FQ3 shows the number of sickness absence days has increased since the last reporting period.

FQ3 Comment

The commentary provided for sickness absence compares the data against the same period in the previous year to allow for seasonal fluctuations.

OLI Teacher absence has risen by 0.52 day per FTE on the same quarter last year. This half a day less than the overall difference between this years quarter and last. The top reasons are mental health, infections and back and neck problems. The top reasons are consistent with the overall top 2 reasons. Quarter 2 absence is traditionally low for Teachers as this is the summer holiday period and an increase against this quarter is traditionally seen.

FQ3 Comment

The commentary provided for sickness absence compares the data against the same period in the previous year to allow for seasonal fluctuations.

Overall Teacher absence has risen by 1.12 day per FTE on the same quarter last year. The top 3 reasons are mental health, infections and stomach/kidney/digestive reasons. Infections and Stomach issues are characterised by short term absence types such as Covid, flu, cold, upset stomach, vomiting and gastroenteritis. The top 3 reasons are consistent with the same quarter last year albeit in higher numbers of days lost. On the last quarter (Q2) there has been an increase of 1.5 days. Traditionally quarter 2 has low absence rates due to the summer holiday period.
