**Argyll and Bute Single Outcome Agreement – final submission**

---

**1. SUMMARY**

The full CPP meeting of 4 March approved the draft Argyll and Bute Single Outcome Agreement (SOA) for submission to the Government.

Additional work to develop the content has led to further improvements to the SOA (appended to this report).

**2. RECOMMENDATION**

That the Management Committee agrees the revised 2009 Single Outcome Agreement for Argyll and Bute for final submission to the Government

**3. BACKGROUND**

The CPP agreed the draft SOA for submission on 4 March. Some minor changes to the content – mainly adding some more information about Gaelic – were made after the draft was considered by the Council on 5 March.

The Government has provided feedback after the submission. This feedback was positive with a small number of suggestions to develop some of the content further. This feedback and additional changes identified by the team working on the SOA have developed the content further.

The revised SOA has more information on the response to the economic downturn, the ambition of the CPP and equalities. Some changes have been made to the success measures, partly to add in more data and partly to refine the links between the measures and the outcomes.
