Dear Sir or Madam

Local Review Board application No 10/0009/LRB

Further to the notice of procedure for the determination of a review dated 19 August 2010, I have been directed by the Review Board to provide the applicants' opinion on the landscape impact in relation to the proposed development.

Without repeating them, the submissions of the applicant are contained in their original Notice of Review. In one sentence, significant adverse impact upon the protected interest is not demonstrated in the Planning Officer's report.

ARGYLL & BUTE COUNCIL

Supplementary material reinforcing the applicants' submissions is contained in the enclosed Landscape and Visual Impact Report and Appendix (two documents) by Mark Steele Associates on their behalf, which are now respectfully submitted to the Local Review Board in amplification of the Notice of Review.

The applicants adopt the reasoning and conclusions of that Report as their own, and respectfully submit that the Review should be allowed, and planning permission subject to appropriate safeguarding conditions should be granted.

Yours faithfully
