**Update on Community Benefits Clauses – Bute & Cowal**

---

---

## **1.0 EXECUTIVE SUMMARY**

The purpose of this report is to provide an update to the Bute & Cowal Community Planning Group of the progress made to date with Community Benefits Clauses (CBCs) within contracts relevant to the Bute & Cowal area.

One contract currently has an ongoing CBC relevant to Bute & Cowal; and two contracts currently have CBCs that are still to be progressed, that are relevant to Bute & Cowal.

Due to the longer term nature of some contracts which include CBCs, which is expected due to their higher values, a number of the community benefits expected to materialise may not occur until the later stages of the contracts. Ongoing contract management will enable this to be monitored and reported on.

## **5.0 CONCLUSION**

- 5.1 The Procurement Team together with the Employability Team will continue to offer support and guidance by providing direction and assistance in the identification, evaluation, capture, monitoring and reporting of Community Benefit Clauses throughout the life of a contract. This will require minimum effort from the procurement areas while offering a maximum impact from the contract.
- 5.2 It should be noted that due to the longer term nature of some contracts which contain CBCs, which is expected due to their higher values, some community benefits expected to materialise may not occur until the later stages of the contracts. Purchasing Officers will ensure that appropriate monitoring arrangements are in place to monitor the Community Benefits element of contracts.
