Why Active Travel?

With 33.9% of car journeys in Scotland being less than 2 miles in length, there are huge potential benefits in promoting walking and cycling as alternative means of transport.

If more people walk or cycle, we can:

- ease congestion
- reduce noise pollution
- cut exhaust emissions
- improve our health

Active travel is also a great way to relax, giving us more time to enjoy our environment and improve our work-life balance.

Argyll and Bute Council, Sustrans and Cycling Scotland are investing to improve the walking and cycling network in the Campbeltown area, with new routes palnned or in place.

We hope that this mapwill encourage visitors and residents to make the most of the cycling and walking routes in and around Campbeltown and the Kintyre Peninsula.
