

Development and Economic Growth (2020-2023)

The principal purpose of the Service is to:

Support our communities to realise their full potential by enhancing access to housing, supporting businesses, protecting the public and improving the economic, social and environmental wellbeing of the area. This is done by ensuring that new development and the monitoring of business activities takes place in a sustainable manner where economic opportunities are harnessed for all communities throughout Argyll and Bute.

The Service focus is on delivering critical economic infrastructure to connect to national and international markets, sustaining existing businesses, attracting new residents, visitors and investment, creating places where people want to live and improving people's skills for work.

The Service is leading on the delivery of the £50 million Rural Growth Deal. The aim of which is that the Council and its partners will deliver success across Argyll and Bute, based on three key economic drivers:

- Attracting: additional skills, training and learning opportunities; new residents, visitors and businesses.
- Growing: doing more of what works; making more of our natural and built resources.
- Connecting: our high value business sectors with national and international business markets; our local economic successes with national strategic priorities.

The Service employs 174 FTE

The Service faces the following significant challenges:

The need to attract sufficient external funding to Argyll and Bute to enable a regulatory system and fund economic based initiatives to help achieve sustainable economic growth and address our population challenges.

Delivering a transformational Heads of Terms agreement for our £50m Rural Growth Deal that recognises key strategic priorities and the scale of external investment required.

Leaving the EU will bring an end to European structural funding programmes such as LEADER, ERDF and EMF. This will have an impact on what our staff do and have a negative impact on our communities if this is not replaced with UK Structural funds.

Ensuring we can improve our local skills and education offer to help train, retain and attract a skilled workforce to take advantage of our key economic opportunities and challenges.

There is a continuing difficulty with attracting external capital investment into Argyll and Bute for economic infrastructure and area regeneration as a result of a reduction of the Council's capital budget.

To work with local communities to help deliver their own economic future through the delivery of individual projects.

Attracting sufficient funding from the Scottish Government to deliver the Strategic Housing Investment Plan (SHIP) targets for affordable housing.

Across Planning and Regulatory Services, to ensure that service priorities for environmental health, animal health and welfare, and licensing standards are aligned with available resources and meet statutory duties.

Ensuring medium to longer term financial planning supports Council priorities in a sustainable manner – addressing potential shortfalls in planning fee income.

To meet the increased demands on the food export market in light of EU Exit.

To deliver our workforce planning strategy to ensure that we are able to meet our current and emerging statutory duties across Planning, Building Standards and Regulatory Services.
