FQ1 2019/20 - B&C The income for FQ1 was £23,358 against a target of £20,358. The additional income equates to £2,976. This can be attributed to the delays in TRO process for Duck Bay and Mull which has resulted in a significant reduction in the anticipated income. FQ1 2019/20 - A&B The income for FQ1 was £245,425 which represents a shortfall of £63,879 against the target income of £309,304. This is due in part due to a delay in progressing traffic regulation order for Duck Bay and Mull, on and off street parking.

AREA SCORECARD FQ2 2019/20

1 Background

- 1.1 This paper presents the Area Report and Scorecard for Financial Quarter 2 2019/20 (July-September 2019) and illustrates the agreed performance measures.
- 1.2 A summary of all the measures is included at the start of the report. The summary provides an overview of the number of measures and how many are Red, Amber, Green or No Target.
- 1.3 As agreed at the previous Area Committee meeting the individual car park income is presented in the covering report as follows:

In the report there are no 'trend' arrows for the car park income as it is a cumulative total. (Appendix 2).

As soon as current commitments allow the necessary work in Pyramid will be done to enable the individual car park income to be presented in the performance report.

Car Park	FQ2 18/19	FQ3 18/19	FQ4 18/19	FQ1 19/20	FQ2 19/20
Arrochar	3,792	7,283	7,048	9,273	16,189
Luss	50,907	20,324	12,268	35,009	50,105
H'Burgh Pier	8,775	5,553	8,234	6,231	6,078
Sinclair Street	1,289	1,206	2,001	1,010	368
TOTAL	64,763	34,366	29,551	51,523	72,741

There is a significant shortfall of approximately £100,000 due to the Traffic Regulation Order (TRO) process not being finalised. Argyll & Bute Council are carrying out a full review of the TRO process to address previous issues with specifically the Mull TRO which was legally challenged. This has delayed Duck Bay TRO ultimately reducing anticipated income.

- 1.4 To improve the response to performance queries, it is requested that either the Responsible Named Officer or Sonya Thomas are contacted once the Quarterly Performance Report is received with any queries. This should enable some

queries being resolved or clarified prior to the Area Committee meeting, and therefore being carried forward as Actions at a subsequent meeting.

- 1.5 A short key to symbols / layout is attached. (Appendix 1).
- 1.6 An illustration of how the Business Outcomes align to the Corporate Outcomes is attached. (Appendix 2).

2 Recommendations

- 2.1 It is recommended that the Area Committee notes the performance presented on the Scorecard and supporting commentary.
- 2.2 It is recommended that upon receipt of the Quarterly Performance Report the Area Committee contact either the Responsible Named Officer or Sonya Thomas with any queries.
- 2.3 The Area Committee are asked to note that work is ongoing and to respond to Sonya Thomas with requests or comments regarding the layout and format of the Report and Scorecard.

FQ1 2019/20 - MAKI The income for FQ1 was £24,126 against the target £22,464. The additional income equates to £1,662. There is no obvious reason for the increased income other than increased number visiting Argyll.

FQ1 2019/20 - A&B The income for FQ1 was £245,425 which represents a shortfall of £63,879 against the target income of £309,304. AREA SCORECARD FQ2 2019/20

1 Background

- 1.1 This paper presents the Area Report and Scorecard for Financial Quarter 2 2019/20 (July-September 2019) and illustrates the agreed performance measures.
- 1.2 A summary of all the measures is included at the start of the report. The summary provides an overview of the number of measures and how many are Red, Amber, Green or No Target.
- 1.3 Helensburgh and Lomond Area Committee receive a breakdown of Car Parking Income. It has been suggested that the Oban, Lorn and the Isles Area Committee would also welcome this information.

The measure is presented as a cumulative total and in a consistent format for the Council and all 4 administrative areas. It is proposed that this consistent format continues.

Currently the data is kept locally by the Service. Pyramid can accommodate the additional measures required which will present the information by car park, which in turn will combine to present a cumulative total for the Council and all 4 areas.

However, due to current commitments there is no capacity to do the necessary work within Pyramid but it will be done as soon as possible. It is proposed that if this information is required going forward the individual car park income is presented in the covering report as follows:

Car Park	FQ2 18/19	FQ3 18/19	FQ4 18/19	FQ1 19/20	FQ2 19/20

TOTAL	232,194	115,421	155,978	146,418	209,945

There is a significant shortfall of approximately £72,000 due to the Traffic Regulation Order (TRO) process not being finalised. Argyll & Bute Council are carrying out a full review of the TRO process to address previous issues with specifically the Mull TRO which was legally challenged. This has ultimately reducing anticipated income.

- 1.4 To improve the response to performance queries, it is requested that either the Responsible Named Officer or Sonya Thomas are contacted once the Quarterly Performance Report is received with any queries. This should enable some queries being resolved or clarified prior to the Area Committee meeting, and therefore being carried forward as Actions at a subsequent meeting.
- 1.5 A short key to symbols / layout is attached. (Appendix 1).
- 1.6 An illustration of how the Business Outcomes align to the Corporate Outcomes is attached. (Appendix 2).

2 Recommendations

- 2.1 It is recommended that the Area Committee notes the performance presented on the Scorecard and supporting commentary.

- 2.2 The Area Committee are asked to confirm if they would welcome the detailed Car Parking information as presented above on future Area Committee Performance Reports.
- 2.3 It is recommended that upon receipt of the Quarterly Performance Report the Area Committee contact either the Responsible Named Officer or Sonya Thomas with any queries.
- 2.4 The Area Committee are asked to note that work is ongoing and to respond to Sonya Thomas with requests or comments regarding the layout and format of the Report and Scorecard.

Street lighting - percentage of faults repaired within 10 days - OL&I (Street Lighting - Maintenance)	●	↓	75%	75%	75%	72%	Callum Robertson	FQ2 2019/20 - OLI The performance in OLI has fallen slightly FQ1 to FQ2 but is largely static , dropping by 3% . This unfortunately took the overall performance below the quarterly target percentage. This was in part due to similar resources issue as MAKI . where the West Electrician was on AL. and the East Electrician was covering the whole network. Ferry availability has an added impact in OLI / MAKI performance where faults occur in the island based inventory, where there is no resident staff in the Street Lighting team . Ferry space and sailings can hamper our ability to achieve target times.
								FQ1 2019/20 - OLI Amended procedure and protocols plus the presence of a new member of staff - trainee Street Lighting Team Leader have improved recording accuracy. Management of resources to rectify faults within timescales also improved. Some faults in distant locations difficult to rectify within timescales but now at least achieving the target figure. Steps being taken to further improve response times within ferry timetable restrictions.
