Dear Sir/Madam,

## CAMPBELTOWN FLOOD PROTECTION SCHEME

The purpose of this letter is to keep you updated on the progress of the Campbeltown Flood Protection Scheme.

This is a £15million major engineering scheme which will put measures in place to reduce the impact of flooding on residents and businesses in Campbeltown.

DAWSON WAM have been appointed by Argyll and Bute Council to deliver this project.

As a standard protocol relating to all large civil engineering schemes, and forming part of this contract, we would benefit from completing an external structural survey of your property prior to works commencing in your area. The data obtained from the survey will be utilised to inform us of any potential structural concerns that may be present within your property.

This survey involves a qualified structural surveyor undertaking a photographic survey of your property; we have appointed an Argyll and Bute-based company to do this, Cowal Design. They may be in contact with you directly about obtaining access to complete the works.

These surveys are planned for September – October 2022.

These surveys should cause you no disruption as they happen externally to your property.

There is a dedicated project web page which Argyll and Bute Council have set up which has background on the project and where you can sign up to regular updates. It is available at the following link: [www.argyll-bute.gov.uk/campbeltown-flood-protection-scheme](http://www.argyll-bute.gov.uk/campbeltown-flood-protection-scheme)

We are aware the scheme will cause disruption and we apologise in advance, but these works are vital to ensure peoples' properties and businesses aren't flooded in the way they have been in the past as a result of an out of date, undersized sewer system which is regularly overwhelmed.

If you have any queries about the works please contact our Site Team at [campbeltown@dawsonwam.co.uk](mailto:campbeltown@dawsonwam.co.uk) Once the site compound is established there will be a dedicated landline number for queries. Any specific queries about the scheme will be picked up by our dedicated Community Liaison Officer.

Yours faithfully,

Adam McKeown  
Contracts Manager
