This indicator is a Corporate Outcome Indicator that is reported quarterly. The performance presented is Council-wide only.

Period	Area	Target	Actual	Variance	Status	FQ4 Commentary
2024/25 FQ4	A&B	95.3%	78.0%	-17.3%	Red - Actual below Target	As at 31 March 2025, our expenditure for the year stands at £549,136. This represents an underspend of £159,148 of our budgeted profiled amount. Comparing 2024/25 to 2023/24 we received 357 less applications for support and spend was £113,014 less. This decline is part of a broader trend observed across Scotland. Recent statistics up to September 2024 indicate a general decrease in both applications and spending on SWF, encompassing both Crisis Grants and Community Care Grants.

This indicator for FQ4 is lower than the target and performance has decreased since the last reporting period.

FQ3 Commentary

As at 31 December 2024 , our expenditure stands at £423,302. This represents an underspend of £107,914 of our budgeted profiled amount. To date the number of applications is down by 10% compared to the same period last year, however the average award amount has increased by almost £50. As in previous years we expect an increase in both applications and awards in the final quarter of this year.

Actual trend line	Period	Actual	FQ3 Commentary
	2023/24 FQ4	65	A total of 65 dog fouling complaints were received for the whole of Argyll and Bute this quarter. This may seem high, however it has been found that dog fouling can be seasonal with spikes in dark nights and dark mornings with a lot of dog walkers refraining from walking their dogs off the beaten tracks in the winter months. The warden service will continue to monitor as and when time allows.

						Each care experienced child and young person (CECYP) enrolled in an authority school has tracking and monitoring plans in place via our education management information system known as Seemis. Data collated includes attendance, exclusion, progress and attainment and wellbeing information. We are continuously working alongside schools and partner agencies to ensure the CE status is accurately reflected. Enhanced reporting and scrutinising of data, alongside greater awareness of our CECYP, has led to earlier and positive intervention. This is evidenced through our attainment data which shows a reduced learning gap between CE and non-CE learners since 2021 -22 (with both cohorts showing increased attainment). We continue to work with partner agencies to support cross authority tracking and monitoring to support CECYP hosted out with Argyll and Bute.

2024/25 FQ4	H&L	75.0%	41.0%	-34.0%	Red - Actual below Target	Performance across the Development Management Service is still being recovered and impacted upon by the management of a significant backlog of casework. Overall output and performance across the service is improving as staff resource issues have been resolved. However, timeliness measures continue to be adversely impacted through the prioritisation of older statutory 'legacy' casework for determination. The target for the handling of pre-application enquiries has been set to 30 days although this change has not yet been reflected in the format of corporate reporting. During FQ4 17 pre-applications were responded to within Helensburgh and Lomond. 7 responses (41%) were issued within 20 days; 8 responses (47%) were issued within the revised target of 30 days. It is acknowledged that performance is still significantly below target on this measure but is expected to improve as casework pressure on available staff resource from 'legacy' items decreases over time.

Overall output and performance across the Service is improving as staff resource issues have been resolved, however timeliness measures continue to be adversely impacted through the prioritisation of older statutory 'legacy' casework for determination. In order to assist with managing customer expectations the target response period has been temporarily extended to 6 weeks. There continues to be a backlog of pre-application enquiries within the B&C team which is impacting upon performance although many of the open enquiries are in fact progressing with ongoing dialogue. During FQ3 22 pre-apps were closed in H&L. During FQ3 the BCHL team's pre-app volume throughout increased, with a 118% turnover reported. Working through a backlog of pre-apps inevitably means that the overall percentage turned around in 20 working days will be impacted. Of the 22 pre-apps closed, 19 were from the backlog of cases.

Period	Area	Target	Actual	Variance	Status	FQ4 Commentary
2024/25 FQ4	H&L	8.0	10.2	2.2	Red - Actual exceeds Target	Performance across the Development Management Service has been impacted by a significant backlog of casework. Whilst issues relating to staff resource availability have been resolved and output has significantly improved it is highlighted that KPI's measuring average time taken remain adversely affected by the resolution of increasing volumes of 'legacy' casework. The Council's target for 'householder' applications has been revised to 10 weeks although this is not yet reflected in the format of corporate reports. During FQ4 only a handful of 'householder' 'legacy' items remained, this has resulted in a general improvement across this particular performance measure. During FQ4 16 'householder' applications were determined in Helensburgh and Lomond and including 1 'legacy' item and is reflected in the significant improvement in performance reported for this period. Excluding 'legacy' items, the remaining 15 'householder' applications were determined in an average time of 7.5 weeks.

FQ3 Commentary

Performance across the Development Management Service has been impacted by a significant backlog of casework. Whilst issues relating to staff resource availability have been resolved and output has significantly improved it is highlighted that KPI's measuring average time taken are adversely affected by the resolution of increasing volumes of 'legacy' casework which significantly skew reporting, particularly at area level where this relates to a small number of applications. During FQ3 25 'householder' applications were determined in H&L; these included 2 'legacy' items. Excluding the 'legacy' items, the average time taken to determine the other 23 applications was 10.5 weeks.

2024/25 FQ4	A&B	8.0	14.2	6.2	Red - Actual exceeds Target	Performance across the Development Management Service has been impacted by a significant backlog of casework. Whilst issues relating to staff resource availability have been resolved and output has significantly improved it is highlighted that KPI's measuring average time taken remain adversely affected by the resolution of increasing volumes of 'legacy' casework. The Council's target for 'householder' applications has been revised to 10 weeks although this is not yet reflected in the format of corporate reports. During FQ4 only a handful of 'householder' 'legacy' items remained, this has resulted in a general improvement across this particular performance measure. During FQ4 68 'householder' applications were determined across Argyll and Bute including 8 'legacy' items and is reflected in the significant improvement in performance reported for this period. Excluding 'legacy' items, the remaining 60 applications were determined within an average time of 9.9 weeks.

This indicator for FQ4 exceeds the target however performance has increased since the last reporting period.

OLI: Out of 20 Homeless Applications, 4 new households went in to temporary accommodation (3 x Supported Accommodation, 1 x Serviced Accommodation).

Please note:

- The Registered Social Landlord and Private Rented Sector properties are leased by the Council and sub-let to homeless households as temporary accommodation.
- Serviced Accommodation is available in Cowal and Helensburgh and is for single people providing an en-suite bedroom and shared kitchen facilities.
- Supported accommodation is provided in Lorn by Blue Triangle Housing Association.
- Emergency accommodation may on occasion be provided out with the location of the original presentation due to the pressure on the availability of temporary accommodation

COI - Maintain the percentage of local suppliers that benefit from the award of contracts via the procurement portal

Responsible Person: Anne MacColl-Smith

This indicator is a Corporate Outcome Indicator that is reported quarterly. The performance presented is Council-wide only.

Period	Area	Target	Actual	Variance	Status	FQ4 Commentary
2024/25 FQ4	A&B	20.0%	15.2%	-4.8%	Red - Actual below Target	FQ4 - 15.2%. There were 66 tender/quick quote contract awards during FQ4. 10 were awarded to local suppliers, with a total estimated value of £78k. From the 66 awards, only 15 received local bids. The nature of the types of contracts awarded can impact on submission of local bidders. The % of tenders won by a local supplier, where a local supplier placed a bid during FQ4 was 66.7%.

This indicator for FQ4 is lower than the target and performance has decreased since the last reporting period.

Actual trend line	Period	Actual

	2024/25 FQ2	10.5%
	2024/25 FQ3	23.6%
	2024/25 FQ4	15.2%

FQ3 Commentary

From the 44 tender/quick quote contract awards during FQ3, 55 suppliers were successful, 13 of which were local suppliers. However, only 18 received local bids. The nature of the types of contracts awarded can impact on submission of local bidders. Of the 18 contracts, 13 were awarded to local suppliers (72.2%) with an estimated total contract value of £9.6m. The Procurement, Commercial and Contract Management Team will continue to support local suppliers by providing useful information on the Council's website.
