

Argyll and Bute Council: Equality and Socio-Economic Impact Assessment

Section 1: About the proposal

Title of Proposal

2020-2021 Budget Preparation: Commercial Services; CS01 – Remodel Estates Staff Structure

Intended outcome of proposal

Removal of 1 x LGE11 Estates Surveyor's post from the organisational structure.

Description of proposal

Commercial Services is a new department established on 1-Jul-19, bringing together 3 teams who have previously not worked together – Estates, Programme Management (CHORD) and Property Management.

Following the appointment of the previous Estates Manager to the post of Head of Commercial Services there is an opportunity to remodel the Estates team. The Estates Manager's post was subsequently filled from within the Estates team leading to 1 x Estates Surveyor's post being vacant.
--

This will reduce the number of Estates Surveyors in the team from 4.5 to 3.5 FTE.

Estates & Property Development

Section 2: Evidence used in the course of carrying out EqSEIA

Consultation / engagement

The Third Tier Manager met with the potentially affected staff on 4 and 7th October 2019

The purpose of the meetings was to explain the proposals in the context of: the Scottish Governments' budget setting process/timetable, and the forecast impact upon the Local Authorities settlement for FY20/21; the Argyll & Bute Council budget setting process FY20/21 and its' timescales; the associated service review exercise; and the potential impact on the workload of the section.

Data

The Estates and Property Development team is an income led service and has undergone a transformation in culture over recent years to focus on delivering meaningful new capital and revenue income streams for the Council to invest in its strategic priorities and statutory functions.

The post which is proposed to be deleted is currently vacant but its removal would impact on the delivery of the functions of the team such as rent reviews, disposals, acquisitions, valuations and property management. However the impact of this will be mitigated by the return of 1 x Estates Surveyor from maternity leave in July 2019.

Gaps in evidence

As Commercial Services is a new department within the Council its function, role and responsibilities will develop over the short to medium term. This assessment has been undertaken on the basis of what is currently 'known', and accordingly it may have to be revisited in due course and as the service develops and matures.

If any 'don't know's have been identified, at what point will impacts on these groups become identifiable?

N/A

How has 'due regard' been given to any negative impacts that have been identified?

As the post proposed to be deleted is currently vacant and the duties are intended to be covered by the return of 1 x Estates Surveyor from maternity leave the negative impacts will be minimised.

Section 4: Interdependencies

Is this proposal likely to have any knock-on effects for any other activities carried out by or on behalf of the council?

Yes

Details of knock-on effects identified

There will be short term impacts while workloads are transferred between team members due to the time taken to pick up the detailed knowledge required to manage complex property transactions. This will be managed through regular project updates and close team working during the initial stages of the change process.

Section 5: Monitoring and review

How will you monitor and evaluate the equality impacts of your proposal?

- Argyll and Bute Council procedures for Service Redesign will be followed.
- Staff consultation
- Monitoring of Members Casebook Incidents
- Customer Feedback (internal and external)
