Campbeltown CARS Round 6
Small Grants Scheme

Campbeltown Conservation Area Regeneration Scheme (CARS) is a heritage-led regeneration project that offers grant funding to property owners to assist with the repair of historic buildings within Campbeltown town centre.

Works for which you cannot be funded:
- Routine maintenance & minor repairs (e.g. slipped slates, blocked gutters)
- Alterations, extensions & internal work
- Demolition or unnecessary removal of historic fabric
- Upgrading and renewal of services
- Stone cleaning & other invasive treatments
- Decoration without associated repair works
- Works undertaken prior to approval of Campbeltown CARS grant

Campbeltown CARS also provides traditional skills training courses for local contractors and building professionals. In addition to this, a number of events will be held to raise awareness, understanding and enjoyment of Campbeltown’s rich heritage.

The Small Grants Scheme currently covers projects up to £25,000.
It is in two tiers: **SMALL** up to £10,000 and **MEDIUM** £10,001 to £25,000

The Small Grants Scheme will only be open to properties located in the CARS Round 6 area on the map – and prominent properties in the town centre will have priority.
The key objective of Campbeltown CARS is to ensure the continued use of historic buildings whilst conserving their character, and enhancing the conservation area.

Grant funding will be prioritised to the essential repairs to secure and/or stabilise a property, and works to the primary facades (usually the street elevation) of eligible properties including associated works (for example - roofs and chimneys) to secondary facades.

Works that will have a direct economic benefit, that is conserving jobs, or an indirect impact, by enhancing the attractiveness of the town centre will have priority.

Applications for grants will be assessed in the following categories:

**ELIGIBLE REPAIRS**

**Category 1  ESSENTIAL** (for the security of the building and public)
- Structural Stability
- Roof Durability
- High Level Masonry

**Category 2  NECESSARY** (for the long term usage of the building)
- Rainwater Goods
- General Walls

**Category 3  DESIRED** (for the enhancement of the building)
- Windows and Doors
- Architectural Features
- Shopfront Enhancements

All survey work must be undertaken by a suitably qualified building professional person experienced in building conservation.

IF CONSIDERING AN APPLICATION PLEASE ASK FOR A COPY OF THE CAMPBELTOWN CARS SMALL GRANTS SCHEME GUIDANCE NOTES.
