

Notice to Mariners 12/2015

Date of issue 3rd September 2015

Rothesay - Fish Quay

This Notice is issued as an update to Notice 11/2015 issued 2nd September 2015

A periodic bathymetric survey of the harbour was undertaken on the 20th August 2015. Following initial consideration of the results of the survey it is apparent that there has been a significant reduction in available depths on sections of the Fish Quay. In addition, inspections undertaken at low water on 2nd September 2015 and during the survey period showed that there are several obstructions lying on the harbour bed in this berth and the harbour bed is uneven.

With effect from the issuing of Notice to Mariners 11/2015 on 2nd Sept 2015:

1. Due to the reduction in the available depth of water at Low Water any vessel wishing to lie at this berth over the Low Water period is restricted to a draught of not more than 1.5 metres.
2. Due to the current harbour bed obstructions the NAABSA designation is cancelled pending removal of the obstructions and a further inspection. A diving contractor has been engaged and will be on site in the week beginning 21st September 2015.
3. A further Notice to Mariners will be issued in due course to provide updated information.

Steven H Neilson
Harbour Master
